

Estimated County Loss Ratios – Wind Damage: Hurricane Ivan

POTENTIAL USES

- Identification of counties with significant losses relative to assets
- Prioritization of ESF 14 (Long-Term Recovery) outreach and recovery efforts

Confidence Level in Analysis: Moderate to High

DATA AND ANALYSIS DISPLAYED:

- Losses expressed as a percentage of total building replacement cost
- Note: Loss ratios of 7 or higher indicate counties with significant losses relative to assets available to support recovery
- Storm track
