Fiscal Year (FY) 2015 Intercity Bus Security Grant Program (IBSGP) Frequently Asked Questions (FAQs)

1. What is the purpose of the FY 2015 IBSGP?

The purpose of the FY 2015 IBSGP is to provide funding support for critical infrastructure hardening and other physical security enhancements to operators of inter-city bus systems serving the Nation’s highest-risk metropolitan areas to create a sustainable program for the protection of those systems and the traveling public from terrorism. The program provides assistance to operators of fixed route intercity and charter bus services in obtaining the resources required to support security measures such as enhanced planning, facility security upgrades and vehicle and driver protection.

The IBSGP plays an important role in the implementation of the National Preparedness System by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient nation. The building, sustainment, and delivery of these core capabilities are not exclusive to any single level of government, organization, or community, but rather, require the combined effort of the whole community. The FY 2015 IBSGP supports core capabilities across the five mission areas of Prevention, Protection, Mitigation, Response, and Recovery based on allowable costs.
