

# PREFERRED RISK POLICY

## I. GENERAL DESCRIPTION

The Preferred Risk Policy (PRP) is a lower-cost Standard Flood Insurance Policy (SFIP), written under the Dwelling Form or General Property Form. It offers fixed combinations of building/contents coverage limits or contents-only coverage. The PRP is available for property located in B, C, and X Zones in Regular Program communities that meets eligibility requirements based on the property's flood loss history. It is also available for buildings that are eligible for the PRP Eligibility Extension. (See eligibility requirements below.)

For residential properties, the maximum coverage combination is \$250,000 building and \$100,000 contents. Up to \$100,000 contents-only coverage is available.

For non-residential properties, the maximum coverage combination is \$500,000 building and \$500,000 contents. Up to \$500,000 contents-only coverage is available.

Only 1 building can be insured per policy, and only 1 policy can be written on each building.

## II. ELIGIBILITY REQUIREMENTS

### A. Flood Zone

To be eligible for coverage under the PRP, the building must be in a B, C, or X Zone on the effective date of the policy, except for those buildings that were newly mapped within a Special Flood Hazard Area (SFHA) due to a map revision effective on or after October 1, 2008. These policies remain eligible for a PRP through the PRP Eligibility Extension if they meet the PRP loss history requirements. This does not apply to communities newly entering the Regular Program.

The PRP Eligibility Extension also includes buildings previously in D Zones that have been newly mapped into an SFHA due to a map revision.

For the purpose of determining the flood zone, the agent/producer may use the Flood Insurance Rate Map (FIRM) in effect at the time of application and presentment of premium, except when the building is eligible for the PRP under the PRP Eligibility Extension.

The flood map available at the time of the renewal offer determines a building's continued eligibility for the PRP. National Flood Insurance Program (NFIP) grandfather rules do not apply to the PRP.

### B. Occupancy

Combined building/contents amounts of insurance are available for owners of all eligible occupancy types — 1–4 family properties (including individual condominium units in condominium buildings), other residential properties, and non-residential properties.

Contents-only coverage is available for tenants and owners of all eligible occupancies, except when contents are located entirely in a basement.

### C. Loss History

A building's eligibility for the PRP is based on the preceding requirements and on the building's flood loss history. If any of the following conditions exists within any 10-year period, regardless of any change(s) in ownership of the building, then the building is not eligible for the PRP:

- 2 flood insurance claim payments for separate losses, each more than \$1,000; or
- 3 or more flood insurance claim payments for separate losses, regardless of amount; or
- 2 Federal flood disaster relief payments (including loans and grants) for separate occurrences, each more than \$1,000; or
- 3 Federal flood disaster relief payments (including loans and grants) for separate occurrences, regardless of amount; or
- 1 flood insurance claim payment and 1 Federal flood disaster relief payment (including loans and grants), each for separate losses and each more than \$1,000.

In determining a building's flood loss history for PRP eligibility, Federal flood disaster relief payments (including loans and grants) are considered only if the building sustained flood damage.

TABLE 1. THE PRP AT A GLANCE

COVERAGE TYPE	MAXIMUM LIMITS BY OCCUPANCY TYPE		
	1–4 FAMILY	OTHER RESIDENTIAL	NON-RESIDENTIAL
Combined Building/ Contents	\$250,000/ \$100,000	\$250,000/ \$100,000	\$500,000/ \$500,000
Contents Only	\$100,000	\$100,000	\$500,000

### III. INELIGIBILITY

For help in determining eligibility/ineligibility of various condominium risks, use the PRP Condominium Rating Chart in this section.

- Buildings and/or contents in Emergency Program communities are not eligible for the PRP.
- Buildings and/or contents in SFHAs are not eligible for the PRP, unless eligible under the PRP Eligibility Extension.
- Multi-unit residential condominium buildings eligible under the Residential Condominium Building Association Policy (RCBAP) are not eligible for the PRP.
- Individual residential condominium units in non-residential condominium buildings are not eligible for building coverage.
- Individual non-residential condominium units are not eligible for building coverage.
- Contents located entirely in a basement are not eligible for contents-only coverage. However, contents located entirely in an enclosure are eligible.
- Condominium units are not eligible for Increased Cost of Compliance (ICC) coverage.
- Buildings on Leased Federal Property determined by the Administrator to be located on the river-facing side of any dike, levee, or other riverine flood-control structure, or seaward of any seawall or other coastal flood-control structure are not eligible for the PRP.

### IV. DOCUMENTATION

All PRP new business applications must include current documentation of eligibility for the PRP. Such applications must be accompanied by 1 of the following:

- A Letter of Map Amendment (LOMA);
- A Letter of Map Revision (LOMR);
- A Letter of Determination Review (LODR);
- A letter indicating the property address and flood zone of the building, and signed and dated by a local community official;
- An Elevation Certificate indicating the exact location and flood zone of the building, signed and dated by a surveyor, an engineer, an architect, or a local community official;
- A flood zone determination certification that guarantees the accuracy of the information; or

- A copy of the most recent flood map marked to show the exact location and flood zone of the building is also acceptable, though additional documentation may be required if the building is close to the zone boundary.

If issuing coverage under the PRP Eligibility Extension, the previous and current zones must each be documented with 1 of the items from the list above.

An agent/producer writing through a Write Your Own (WYO) Company should contact that company for guidance.

### V. RENEWAL

An eligible risk renews automatically without submission of a new application. If, during a policy term, the risk fails to meet the eligibility requirements due to loss history, it cannot be renewed as a PRP. It must be nonrenewed or rewritten as a standard-rated policy.

Policies originally issued in B, C, or X zones and renewed under the PRP Eligibility Extension must have the current and previous flood maps to document the building's continued eligibility.

### VI. COVERAGE LIMITATIONS

The elevated building coverage limitation provisions do not apply to the PRP; however, basement coverage limitations do apply.

### VII. REPLACEMENT COST COVERAGE

Replacement cost coverage is provided only under the Dwelling Form when the building is the principal residence of the insured and the building coverage limits are at least 80% of the replacement cost of the building at the time of the loss, or the maximum limits available under the NFIP.

### VIII. DISCOUNTS/FEES/ICC PREMIUM

- Community Rating System (CRS) discounts are not available for the PRP.
- The \$50 Community Probation Surcharge is added, when applicable.
- The Federal Policy Fee of \$22 is included in the premium and is not subject to commission.
- The ICC Premium of \$5 is included in the premium. Deduct this amount if the risk is a condominium unit.

## IX. DEDUCTIBLES

The standard deductible for PRPs is \$1,000 each for building and contents, applied separately. Optional deductibles are not available for PRPs.

## X. ENDORSEMENTS

The PRP may be endorsed to:

- Increase coverage mid-term, subject to the coverage limits in effect when the policy was issued or renewed. See the General Change Endorsement section in this manual for an example.
- Correct misratings, such as those due to an incorrect building description or community number.

## XI. CONVERSION OF A STANDARD-RATED POLICY TO A PRP DUE TO MISRATING

A policy written as a standard-rated B, C, or X Zone policy and later found to be eligible for a PRP may be endorsed or canceled and rewritten as a PRP for only the current policy term.

When a risk has been misrated with other than B, C, or X Zone rates at the time of application but is later found to be in a B, C, or X Zone and eligible for a PRP, the insurer will be allowed to endorse or cancel/rewrite up to 6 years.

The policy may be canceled/rewritten using Cancellation Reason 22 if both of the following conditions are met:

- The request to endorse or cancel/rewrite the policy is received during the current policy term; *and*
- No claim has been paid or is pending on the policy term being canceled.

The building and/or contents coverage on the new PRP must be equal either to the building limit and/or contents limit issued under the standard-rated policy, or to the next-higher limit available under the PRP if there is no PRP option equal to the standard-rated policy building and/or contents limit.

For a standard-rated contents-only policy, the contents coverage will be equal to the limit issued under the standard-rated policy or the next-higher limit. If building coverage is desired, the policy should be endorsed for building and contents coverage with a 30-day waiting period applied.

## XII. CONVERSION OF A STANDARD-RATED POLICY TO A PRP DUE TO A MAP REVISION, LOMA, OR LOMR

A standard-rated policy may be endorsed or canceled and rewritten as a PRP as a result of a map revision, LOMA, or LOMR only for the current policy term.

The policy may be canceled/rewritten using Cancellation Reason 24 under the following conditions:

- The request to cancel/rewrite the standard-rated policy must be received during the policy term or within 6 months of the policy expiration date.
- No claim has been paid or is pending on the standard-rated policy terms being canceled.
- The property meets all other PRP eligibility requirements.

The building and/or contents coverage on the new PRP must be equal either to the building limit and/or contents limit issued under the standard-rated policy, or to the next-higher limit available under the PRP if there is no PRP option equal to the standard-rated policy building and/or contents limit.

## XIII. CONVERSION OF A PRP TO A STANDARD-RATED POLICY

A PRP must be canceled and rewritten as a standard-rated policy if the risk does not meet the PRP requirements on the policy effective date. (See the Eligibility Requirements subsection in this section.)

When converting a PRP to a standard-rated B, C, or X Zone policy, all underwriting information must be obtained at the time of conversion, unless the information is contained in the underwriting file. The building and/or contents coverage on the new standard-rated policy cannot exceed the building limit and/or contents limit issued under the PRP.

The policyholder will have 30 days from notification to pay the additional premium due, or 60 days from notification to obtain additional information if needed to rate the policy, and then 30 days to pay the additional premium due. The premium due will be calculated from the beginning of the policy term to restore the originally requested limits without a waiting period. The policyholder has the option to reduce or delete coverage in order to wholly or partially reduce the underpayment amount.

If increased coverage limits are desired, the new standard-rated policy must be endorsed; the 30-day waiting period will apply.

## J. Community

### • Rating Map Information

COMMUNITY	RATING MAP INFORMATION
	NAME OF COUNTY/PARISH: _____
	COMMUNITY NO./PANEL NO. AND SUFFIX: _____ - _____ FIRM ZONE: _____

Use the FIRM in effect and that has been published at the time of presentment of premium and completion of the PRP Application unless applying under the PRP Eligibility Extension.

Enter name of the county or parish where the property is located. (Not all communities that have been assigned NFIP community numbers are participating in the NFIP. Policies may not be written in non-participating communities.)

Enter the community identification number, map panel number, and revision suffix of the map that will be used for rating for the community where the building is located. When there is only 1 panel (i.e., a flat map), the community number will consist of only 6 digits.

The current community number may also be obtained from a flood zone determination or by checking the *NFIP Community Status Book* online (<http://www.fema.gov/national-flood-insurance-program/national-flood-insurance-program-community-status-book>) or contacting the insurer or a local community official.

Enter the FIRM zone in the space provided. If applying for the PRP under the Eligibility Extension following a map revision, enter the FIRM zone from the FIRM in effect immediately prior to the current FIRM. If the previous FIRM zone was Zone D, indicate FIRM Zone X on the application form. Submit documentation of both the previous and current zones with the application.

**NOTE:** The postal address of the insured building may not reflect the community where the property is located. Therefore, do not rely on the postal address when determining community status and identification.

In addition, because of possible changes in the FIRM, do not rely on information from a prior policy as accurately reflecting the current FIRM information.

### • Current Map Information

CURRENT MAP INFORMATION	CURRENT COMMUNITY NO./PANEL NO. AND SUFFIX: _____ - _____
	CURRENT FIRM ZONE: _____
	CURRENT BFE: _____

Complete this section only if applying for the PRP under the Eligibility Extension following a map

revision. Enter the current map information in the space provided. Submit documentation of both the previous and current zones with the application.

## K. Building

Complete all required information in this section.

### • Building Occupancy

**BUILDING OCCUPANCY**  
☐ SINGLE FAMILY  
☐ 2-4 FAMILY  
☐ OTHER RESIDENTIAL  
☐ NON-RESIDENTIAL (INCLUDING HOTEL/MOTEL)

Check the type of occupancy for the building (i.e., Single Family, 2–4 Family, Other Residential, or Non-Residential [including hotel/motel]).

- Single Family – This is a residential single-family building, or a single-family dwelling unit in a condominium building; incidental occupancies are permitted if limited to less than 50% of the building's total floor area.

**NOTE:** Incidental occupancies are offices, private schools, studios, or small service operations within a residential building.

- 2–4 Family – This is a residential building that contains 2–4 units. This category includes apartment buildings and condominium buildings. Incidental occupancies (see note above) are permitted if the total area of such occupancies is limited to less than 25% of the total floor area within the building. This excludes hotels and motels with normal room rentals for less than 6 months.
- Other Residential – This is a residential building that contains more than 4 apartments/units. This category includes condominium and apartment buildings as well as hotels, motels, tourist homes, and rooming houses where the normal occupancy of a guest is 6 months or more. These buildings are permitted incidental occupancies (see note above). The total area of incidental occupancy is limited to less than 25% of the total floor area within the building. Examples of other residential buildings include dormitories and assisted-living facilities.
- Non-Residential (including hotel/motel) – This is a commercial or non-habitational building, or a mixed-use building that does not qualify as a residential building. This category includes, but is not limited to, small businesses, churches, schools, farm buildings (including grain bins and silos), garages, poolhouses, clubhouses, recreational buildings, mercantile buildings, agricultural buildings, industrial buildings, warehouses, nursing homes, licensed bed-and-breakfasts, and hotels

and motels with normal room rentals for less than 6 months.

### • Building Purpose

**BUILDING PURPOSE**  
☐ 100% RESIDENTIAL  
☐ 100% NON-RESIDENTIAL  
☐ MIXED-USE – SPECIFY PERCENTAGE OF RESIDENTIAL USE: \_\_\_\_\_ %  
IS BUILDING A BUSINESS PROPERTY?  
☐ YES ☐ NO

- Indicate if the building's purpose is 100% Residential or 100% Non-Residential. If Mixed Use, specify percentage of residential use.
- Check YES if the intended use of the building is for business; otherwise check NO.

For the purpose of completing the Application, a business property is any non-residential building that produces income or a building designed for use as office or retail space, wholesale, hospitality, or similar uses.

Churches are not considered business property; nor are buildings permitted for residential use such as apartments and rental dwelling units.

### • Basement/Enclosure/Crawlspace

**BASEMENT, ENCLOSURE, CRAWLSPACE**  
☐ NONE ☐ FINISHED BASEMENT/ENCLOSURE  
☐ CRAWLSPACE ☐ UNFINISHED BASEMENT/ENCLOSURE  
☐ SUBGRADE CRAWLSPACE

Check whether the building contains:

- Basement – Any area of the building, including any sunken room or sunken portion of a room, having its floor below ground level (subgrade) on all sides.
- Enclosure – That portion of an elevated building below the lowest elevated floor that is either partially or fully shut in by rigid walls. A garage below or attached to an elevated building is considered an enclosure.

**NOTE:** A **finished** (habitable) area is an enclosed area that has more than 20 linear feet of interior finished walls (paneling, etc.).

An **unfinished** area is an enclosed area that is used only for the parking of vehicles, building access, or storage purposes and that does not meet the definition of a finished (habitable) area.

- Crawlspace – In an elevated building, an under-floor space that has its interior floor area (finished or not) no more than 5 feet below the top of the next-higher floor.
- Subgrade Crawlspace – A crawlspace foundation where the subgrade under-floor area is no more

than 5 feet below the top of the next-higher floor and no more than 2 feet below the lowest adjacent grade on all sides. (A building with a subgrade crawlspace is not an elevated building.)

**NOTE:** For buildings insured under the PRP that have crawlspaces or subgrade crawlspaces, use the Without Basement or Enclosure section of the rate table.

#### • Number of Floors in Building or Building Type

NUMBER OF FLOORS IN BUILDING (INCLUDING BASEMENT/ ENCLOSED AREA, IF ANY) OR BUILDING TYPE		
<input type="checkbox"/> 1	<input type="checkbox"/> 2	<input type="checkbox"/> 3 OR MORE
<input type="checkbox"/> SPLIT LEVEL	<input type="checkbox"/> TOWNHOUSE/ROWHOUSE (RCBAP LOW-RISE ONLY)	
<input type="checkbox"/> MANUFACTURED (MOBILE) HOME/TRAVEL TRAILER ON FOUNDATION		

Indicate the number of floors in the entire building, including the basement/enclosed area if applicable, in the appropriate space.

If the building's enclosure or crawlspace is eligible for exclusion from rating, do not count the enclosed area as a floor. If a building elevated on a crawlspace has an attached garage without openings, it must be rated using the With Basement or Enclosure rate table; see the Lowest Floor Determination subsection in the Lowest Floor Guide section of this manual.

- 1 Floor – excludes unfinished attic;
- 2 Floors – includes basement, enclosure, crawlspace, and subgrade crawlspace;
- 3 or More Floors – includes basement, enclosure, crawlspace, and subgrade crawlspace;
