

Montana – Severe Storms and Flooding FEMA-1996-DR

Declared June 17, 2011

In a letter dated June 1, 2011, and subsequent request dated June 9, 2011, Governor Brian Schweitzer requested a major disaster declaration due to severe storms and flooding occurring on April 3, 8, 22, 26, and 30, 2011, and on May 9-10, 18-21, and 30, 2011; and flooding resulting from those storms beginning on April 4, 2011, and continuing. The Governor requested a declaration for Public Assistance for 31 counties and four Tribes and Hazard Mitigation statewide. During the period of June 5-9, 2011, joint Federal, State, Tribal, and local Preliminary Damage Assessments (PDAs) were conducted in the requested counties and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local governments, and that Federal assistance is necessary.¹

On June 17, 2011, President Obama declared that a major disaster exists in the State of Montana. This declaration made Public Assistance requested by the Governor available to State, Tribal, and eligible local governments and certain private nonprofit organizations on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by the severe storms and flooding in Big Horn, Blaine, Broadwater, Carbon, Carter, Cascade, Chouteau, Custer, Dawson, Fallon, Fergus, Garfield, Golden Valley, Hill, Judith Basin, McCone, Meagher, Musselshell, Petroleum, Phillips, Powder River, Prairie, Roosevelt, Rosebud, Stillwater, Sweet Grass, Treasure, Valley, Wheatland, Wibaux, Yellowstone Counties, and Crow, Fort Belknap, Northern Cheyenne, and Rocky Boy’s Reservation. This declaration also made Hazard Mitigation Grant Program assistance requested by the Governor available for hazard mitigation measures statewide.²

¹ The preliminary damage assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor's request for a major disaster or emergency declaration, and by the President in determining a response to the Governor's request (44 CFR § 206.33).

² When a Governor's request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA's regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

³ Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

⁴ By law, Federal disaster assistance cannot duplicate insurance coverage (44 CFR § 206.48(b)(5)).

⁵ Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance (44 CFR § 206.48(b)(3)).

⁶ Ibid (44 CFR § 206.48(b)(3)).
