Record of Environmental Consideration

REVISED FOR FEMA ENVIRONMENTAL - LOUISIANA - 2006

See 44 Code of Federal Regula	ation Part 10
Project Name/Number:	Kennedy High School, Building E, (Caretaker's Residence)/ PW#11863 FIPS#071-UFTI3-00
Project Location:	5700 Wisner Blvd., New Orleans, LA 70124 Latitude: 30.01912, Longitude: -90.08562
eligible applicant for replacement	Heavy rains and high winds from Hurricane Katrina (DR-1603) caused significant exterior y High School, Building E, of the Orleans Parish School Board. This pw reimburses the ent of the building within the existing footprint. The new building will be replaced according as. All work will be performed in a previously disturbed area with no indication of nearby rater.
Documentation Re	equirements
	onsultation and agreements implemented to comply with the National Historic Preservation Act, and Executive Orders 11988, 11990 and 12898 are completed and no other laws apply.
	oplicable laws and executive orders were reviewed. Additional information for compliance is or included in project files, as applicable.

work indicates ground disturbing activities associated with the demolition and rebuild of the structure within its pre-disaster footprint. Upon consultation of SHPO data, there is a known archaeological sites within .5 miles of the project area.

Reviewer Name: Adam Borden, Env. Specialist Project Name/Env. Database No: Kennedy High School, Building E, (Caretaker's Residence) FEMA-1603/1607-DR-LA

Parish: Orleans Demolition must follow the lower impact demolition stipulations & additional protocols which are attached. The

stipulations and protocols should be explicit in the demolition contract. Failure to comply with these stipulations & additional protocols will jeopardize receipt of federal funding. If during the course of work, archaeological artifacts (prehistoric or historic) or human remains are discovered, the applicant shall stop work in the vicinity of the discovery and take all reasonable measures to avoid or minimize harm to the finds. The applicant shall inform their Public Assistance (PA) contacts at FEMA, who will in turn contact FEMA Historic Preservation staff. The applicant will not proceed with work until FEMA historic preservation staff have completed consultation with the Louisiana State Historic Preservation Officer (SHPO). In addition, if unmarked graves are present, compliance with the Louisiana Unmarked Human Burial Sites Preservation Act (R.S. 8:671 et seq.) is required. The applicant shall notify the law enforcement agency of the jurisdiction where the remains are located within twenty-four hours of the discovery. The applicant shall also notify FEMA and the Louisiana Unmarked Burial Sites Board (call the Louisiana Division of Archeology at 225-342-8170) within seventy-two hours of the discovery. If this scope of work and/or the footprint/location of the new building changes, this project will need to be resubmitted for further Section 106 review prior to ground disturbing activities taking place outside of the predisaster footprint of the building.

Preservation Specialist/Archaeologist
B. Endangered Species Act No listed species and/or designated critical habitat present in areas affected directly or indirectly by the Federal action. (Review Concluded) Listed species and/or designated critical habitat present in the areas affected directly or indirectly by the Federal action. No effect to species or designated critical habitat. (See comments for justification) Are project conditions required? Yes (see Section V) No (Review Concluded) May affect, but not likely to adversely affect species or designated critical habitat (FEMA determination/USFWS/NMFS concurrence on file) (Review Concluded) Are project conditions required? Yes (see Section V) No (Review Concluded) Likely to adversely affect species or designated critical habitat Formal consultation concluded. (Biological Assessment and Biological Opinion on file) Are project conditions required? YES (see Section V) NO (Review Concluded)
Comments: Project is located in an urban or previously developed area. Neither listed species nor their habitat occur in or near this site, thus FEMA finds there will be no effect to threatened or endangered species. Correspondence/Consultation/References: USFWS emergency consultation provisions determined in letters dated September 15, 2005 for Katrina.
C. Coastal Barrier Resources Act ☐ Project is not on or connected to CBRA Unit or Otherwise Protected Area (Review Concluded). ☐ Project is on or connected to CBRA Unit or Otherwise Protected Area. (FEMA determination/USFWS consultation on file) ☐ Proposed action an exception under Section 3505.a.6 (Review Concluded) ☐ Proposed action not excepted under Section 3505.a.6. Are project conditions required? ☐ YES (see Section V) ☐ NO (Review Concluded)
Comments: Project is not within a CBRA zone. Correspondence/Consultation/References: Louisiana Coastal Barrier Resource System Maps referenced 08/08/06.
D. Clean Water Act ☐ Project would not affect any waters of the U.S. (Review Concluded) ☐ Project would affect waters, including wetlands, of the U.S. ☐ Project exempted as in kind replacement or other exemption. (Review Concluded) ☐ Project requires Section 404/401/or Section 9/10 (Rivers and Harbors Act) permit, including qualification under Nationwide Permits. Are project conditions required? ☐ YES (see Section V) ☐ NO (Review Concluded) Comments: No jurisdictional waters of the U.S., including wetlands, occur in or near the project area.

Reviewer Name: Adam Borden, Env. Specialist Project Name/Env. Database No: Kennedy High School, Building E, (Caretaker's Residence) PW#11863 Parish: Orleans
Correspondence/Consultation/References: USFWS National Wetlands Inventory map (http://www.fws.gov/nwi/) queried on 08/08/06.
E. Coastal Zone Management Act ☐ Project is not located in a coastal zone area and does not affect a coastal zone area (Review concluded) ☐ Project is located in a coastal zone area and/or affects the coastal zone ☐ State administering agency does not require consistency review. ☐ State administering agency requires consistency review. Are project conditions required? ☐ YES (see Section V) ☐ NO (Review Concluded)
Comments: This project is located within the Louisiana Coastal Management Zone. LA Department of Natural Resources (DNR) has determined that receipt of federal assistance is consistent with the Louisiana Coastal Resource Program. Projects within the coastal zone may still require a coastal use permit or other authorization from DNR. Projects may be coordinated by contacting LA DNR at 1-800-276-4019. **Correspondence/Consultation/References: LDNR Louisiana Coastal Zone map 2002.**
F. Fish and Wildlife Coordination Act ☐ Project does not affect, control, or modify a waterway/body of water. (Review Concluded) ☐ Project affects controls or modifies a waterway/body of water. ☐ Coordination with USFWS conducted ☐ No Recommendations offered by USFWS. (Review Concluded) ☐ Recommendations provided by USFWS. ☐ Are project conditions required? ☐ YES (see Section V) ☐ NO (Review Concluded)
Comments: No streams or water bodies are located in or near the project area. Correspondence/Consultation/References: Louisiana Map (http://www.lamap.doa.louisiana.gov/) queried 08/08/06.
G. Clean Air Act ☐ Project will not result in permanent air emissions. (Review Concluded) ☐ Project is located in an attainment area. (Review Concluded) ☐ Project is located in a non-attainment area. ☐ Coordination required with applicable state administering agency. Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)
Comments: This project involves the demolition or renovation of a public structure. Regardless of the asbestos content, the applicant is responsible for ensuring that renovation or demolition activities are coordinated with the Louisiana Department of Environmental Quality (LDEQ) in accordance with the LDEQ "Sixth Amended Declaration of Emergency and Administrative Order" dated March 31, 2006, and the LESHAP protocol dated March 1, 2006, incorporating the provisions of EPA's National Emission Standards for Hazardous Air Pollutants (NESHAP) and the Louisiana Administrative Code (LAC) 33.III.5151 and Chapter 27. Should Asbestos Containing Materials (ACMs) be present at the project site, the applicant is also responsible for ensuring proper disposal in accordance with the previously referenced administrative orders. Correspondence/Consultation/References: EPA Region 6 Non-attainment Map.
H. Farmland Protection Policy Act ☐ Project does not affect designated prime or unique farmland. (Review Concluded) ☐ Project causes unnecessary or irreversible conversion of designated prime or unique farmland. ☐ Coordination with Natural Resource Conservation Commission required. ☐ Farmland Conversion Impact Rating, Form AD-1006, completed. ☐ Are project conditions required? ☐ YES (see section V) ☐ NO (Review Concluded)
Comments: The project site is in a developed urbanized area and Farmland Protection Policy Act (FPPA) is precluded. No prime or unique farmland present. Correspondence/Consultation/References: National Resource Conservation Service, Web Soil Survey (http://websoilsurvey.nrcs.usda.gov/app/) referenced 08/08/06.

L. Other Relevant Laws and Environmental Regulations

State Hazardous Materials and Solid Waste Laws

Comments: - In accordance with the Formosan Termite Initiative Act, (LA R.S. 3:3391.1 thru 3391.13) the Louisiana parishes of Calcasieu, Cameron, Jefferson Davis, Orleans, Jefferson, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany, Tangipahoa and Washington are under quarantine. The movement of wood or cellulose material, temporary housing or architectural components (e.g. beams, doors and other wood salvaged from a structure) may not leave the quarantined parishes without written authorization from the commissioner of the Louisiana Department of Agriculture and forestry or his designee(s).

- Removal and disposal of debris containing household hazardous waste and certain categories of liquid wastes must be performed in accordance with all applicable federal and state laws, regulations, executive orders and guidelines. LAC title 33 part VII requires that specified items, including lead acid batteries, used oil filters, used motor oil, scrap tires, cfc's (refrigerants), radioactive waste or regulated infectious wastes must be segregated from and excluded from non-hazardous

debris collection, staging, processing and disposal sites. Failure to comply with applicable legal requirements in debris collection and/or disposal operations will jeopardize federal funding. The clean-up or restoration/repair of sites damaged as a result of such operations are ineligible for federal funding. Previously obligated funding is subject to de-obligation if a determination of ineligibility is made.

-Lead-Based Paint - this project involves the demolition of a public structure that may contain surfaces coated with Lead-Based Paint (LBP). Activities involving abrading (sanding, scraping, etc.), heating, stripping, or otherwise concentrating LBP shall comply with applicable provisions of 29 CFR parts 1910 and 1926 (OSHA - worker safety), and 40 CFR 260 through 268 (EPA - hazardous waste). The applicant is responsible for ensuring that project activities are coordinated with the Louisiana Department of Environmental Quality for abatement activities and is also responsible for ensuring proper disposal in accordance with the previously referenced regulations.

II. Compliance Review for Executive Orders

A. E.O. 11988 - Floodplains No Effect on Floodplains/Flood levels and project outside Floodplain - (Review Concluded) Located in Floodplain or Effects on Floodplains/Flood levels No adverse effect on floodplain and not adversely affected by the floodplain. (Review Concluded), Are project conditions required? ☐ Yes (see Section V) ☐ No (Review Concluded) Beneficial Effect on Floodplain Occupancy/Values (Review Concluded). Possible adverse effects associated with investment in floodplain, occupancy or modification of floodplain environment 8 Step Process Complete - documentation on file Are project conditions required? ☑ YES (see Section V) ☐ NO (Review Concluded)
Comments: The site is located in Zone A5.

V. Environmental Review Project Conditions

Project Conditions:

Reviewer Name: Adam Borden, Env. Specialist

FEMA-1603/1607-DR-LA

The following conditions apply as a condition of FEMA funding reimbursement:

- This project involves the demolition or renovation of a public structure. Regardless of the asbestos content, the applicant is responsible for ensuring that renovation or demolition activities are coordinated with the Louisiana Department of Environmental Quality (LDEQ) in accordance with the LDEQ "Fifth Amended Declaration of Emergency and Administrative Order" dated March 31, 2006, and the LESHAP protocol dated March 1, 2006, incorporating the provisions of EPA's National Emission Standards for Hazardous Air Pollutants (NESHAP) and the Louisiana Administrative Code (LAC) 33.III.5151 and Chapter 27. Should Asbestos Containing Materials (ACMs) be present at the project site, the applicant is also responsible for ensuring proper disposal in accordance with the previously referenced administrative orders.
- In accordance with the Formosan Termite Initiative Act, (LA R.S. 3:3391.1 thru 3391.13) the Louisiana parishes of Calcasieu, Cameron, Jefferson Davis, Orleans, Jefferson, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany, Tangipahoa and Washington are under quarantine. The movement of wood or cellulose material, temporary housing or architectural components (e.g. beams, doors and other wood salvaged from a structure) may not leave the quarantined parishes without written authorization from the commissioner of the Louisiana Department of Agriculture and forestry or his designee(s).
- Removal and disposal of debris containing household hazardous waste and certain categories of liquid wastes must be performed in accordance with all applicable federal and state laws, regulations, executive orders and guidelines. LAC title 33 part VII requires that specified items, including lead acid batteries, used oil filters, used motor oil, scrap tires, cfc's (refrigerants), radioactive waste or regulated infectious wastes must be segregated from and excluded from non-hazardous debris collection, staging, processing and disposal sites. Failure to comply with applicable legal requirements in debris collection and/or disposal operations will jeopardize federal funding. The clean-up or restoration/repair of sites damaged as a result of such operations are ineligible for federal funding. Previously obligated funding is subject to de-obligation if a determination of ineligibility is made.
- Lead-Based Paint this project involves the demolition of a public structure that may contain surfaces coated with Lead-Based Paint (LBP). Activities involving abrading (sanding, scraping, etc.), heating, stripping, or otherwise concentrating LBP shall comply with applicable provisions of 29 CFR parts 1910 and 1926 (OSHA - worker safety), and 40 CFR 260 through 268 (EPA - hazardous waste). The applicant is responsible for ensuring that project activities are coordinated with the Louisiana Department of Environmental Quality for abatement activities and is also responsible for ensuring proper disposal in accordance with the previously referenced regulations.
- Demolition must follow the lower impact demolition stipulations & additional protocols which are attached. The stipulations and protocols should be explicit in the demolition contract. Failure to comply with these stipulations & additional protocols will jeopardize receipt of federal funding. If during the course of work, archaeological artifacts (prehistoric or historic) or human remains are discovered, the applicant shall stop work in the vicinity of the discovery and take all reasonable measures to avoid or minimize harm to the finds. The applicant shall inform their Public Assistance (PA) contacts at FEMA, who will in turn contact FEMA Historic Preservation staff. The applicant will not proceed with work until FEMA Historic Preservation staff have completed consultation with the

Louisiana State Historic Preservation Officer (SHPO). In addition, if unmarked graves are present, compliance with the Louisiana Unmarked Human Burial Sites Preservation Act (R.S. 8:671 et seq.) is required. The applicant shall notify the law enforcement agency of the jurisdiction where the remains are located within twenty-four hours of the discovery. The applicant shall also notify FEMA and the Louisiana Unmarked Burial Sites Board (call the Louisiana Division of Archeology at 225-342-8170) within seventy-two hours of the discovery. If this scope of work and/or the footprint/location of the new building changes, this project will need to be resubmitted for further Section 106 review prior to ground disturbing activities taking place outside of the pre-disaster footprint of the building.

Project is replacement of maintainance building, all new construction must coordinate and comply with local floodplain ordinances and be built to codes, standards and must be elevated to or above advisory base flood elevations. In compliance with EO 11988, an 8-step process was completed and is attached. Per 44 CFR 9.12, applicant must publish a final public notice 15 days prior to the start of construction activities. Final public notice is to be forwarded to the LAGOHS/OEP and FEMA for inclusion in the permanent project files.
