**REVISED FOR FEMA ENVIRONMENTAL -- LOUISIANA -- April 2007**

See 44 Code of Federal Regulation Part 10

**Project Name/Number:** Lake Forest Montessori School Building B  
PW# 13098 Version 2 FIPS#: 071-UFTI3-00

**Applicant Name:** Orleans Parrish School Board

**Project Location:** 8258 Lake Forest Blvd., New Orleans 70127, Orleans Parish,  
Latitude: 30.02604, Longitude: -89.99311

## **Project Description:**

Hurricane Katrina generated hurricane force winds, wind driven rains, storm surge, and flooding resulted in up to 10 feet of floodwater inundating Building B, the school's cafeteria. Approximately 60 inches of contaminated brackish floodwater stood in the Building B facility for up to three weeks. Inspection revealed that the walls and entire wood frame of the building required replacement. Building B is a 25'X59" single story wood frame building constructed on a concrete slab. Repair vs. replacement cost was calculated at 63.4% therefore the building will be demolished and replaced.

Version 2 of the PW is to add foundation pilings to the scope of work and to correct the size of the building which was understated by 225 square feet in Versions 0 and 1. Version 2 also identified project management fees for the project.

### **V. Environmental Review Project Conditions**

**The following conditions apply as a condition of FEMA funding reimbursement:**

- 1) This project is located within the Louisiana Coastal Management Zone. Projects within the coastal zone may require a coastal use permit or other authorization from DNR. Prior to initiation of work, projects

should be coordinated by contacting LA DNR at (225) 342-9232. If a permit or other authorization is required, applicant shall comply with all conditions of the permit.

- 2) Unusable equipment, debris and material shall be disposed of in an approved manner and location. In the event significant items (or evidence thereof) are discovered during implementation of the project applicant shall handle, manage, and dispose of petroleum products, hazardous materials and/or toxic waste in accordance to the requirements and to the satisfaction of the governing local, state and federal agencies.
- 3) In accordance with the Formosan termite initiative act, (LA R.S. 3:3391.1 thru 3391.13) the Louisiana Parishes of Calcasieu, Cameron, Jefferson Davis, Orleans, Jefferson, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany, Tangipahoa and Washington are under quarantine. The movement of wood or cellulose material, temporary housing or architectural components (e.g. beams, doors and other wood salvaged from a structure) may not leave the quarantined parishes without written authorization from the commissioner of the Louisiana Department of Agriculture and Forestry or his designee(s)
- 4) As per 44 CFR 9.11, mitigation or minimization standards must be applied. Where possible, building contents, materials, and equipment (mechanical or electrical) must be elevated to or above advisory base flood elevations.
- 5) If during the course of work, archaeological artifacts (prehistoric or historic) or human remains are discovered, the applicant shall stop work in the vicinity of the discovery and take all reasonable measures to avoid or minimize harm to the finds. The applicant shall inform their Public Assistance (PA) contacts at FEMA, who will in turn contact FEMA historic preservation staff. The applicant will not proceed with work until FEMA historic preservation staff have completed consultation with the Louisiana State Historic Preservation Officer (SHPO). In addition, if unmarked graves are present, compliance with the Louisiana unmarked human burial sites preservation act (R.S. 8:671 et seq.) Is required. The applicant shall notify the law enforcement agency of the jurisdiction where the remains are located within twenty-four hours of the discovery. The applicant shall also notify FEMA and the Louisiana Unmarked Burial Sites Board (call the Louisiana Division of Archeology at 225-342-8170) within seventy-two hours of the discovery. If this scope of work and/or the footprint/location of the new building changes, this project will need to be resubmitted for further Section 106 review prior to ground disturbing activities taking place outside of the pre-disaster footprint of the building.
- 6) Based on information provided by the applicant, the scope of work for this project is categorically excluded from the preparation of an environmental impact statement or environmental assessment under 44 CFR part 10.8 (d)(2)(xii)(xv). Any changes to this approved scope of work will require submission to, and evaluation and approval by, the state and FEMA prior to initiation of any work, for compliance with the national environmental policy act. The applicant is required to obtain and comply with all local, state and federal permits and requirements. Non-compliance with the requirements noted above may jeopardize the receipt of federal funding.
