**REVISED FOR FEMA ENVIRONMENTAL -- LOUISIANA -- 2006**

See 44 Code of Federal Regulation Part 10

**Project Name/Number:** Weight/Video Room Bldg. / PW#15655  
FIPS#071-U1Z17-00

**Project Location:** 4950 Dauphine Street, New Orleans, LA. 70117  
Latitude: 29.95853, Longitude: -90.02437

**Project Description:** Heavy rains and high winds from Hurricane Katrina (DR-1603) caused significant exterior and interior damage to Weight/Video Room Bldg. of Holy Cross School. This pw reimburses the eligible applicant for repair work to damaged building elements. The new building material will be replaced according to codes and standards upgrades. All work will be performed in a previously disturbed area with no indication of nearby waterways or other bodies of water. The applicant intends to use the eligible funding towards an improved project to construct a new school campus on property purchased from the archdiocese of New Orleans. The proposed campus will have the same function and equivalent capacity as pre-disaster. The NEPA determination is for repair to pre-disaster footprint only at its current location. If an alternate or improved project is proposed, project must be re-submitted for re-evaluation under the national environmental policy act. This approval is not for an alternate or improved project.
