# I. Compliance Review for Environmental Laws (other than NEPA)

A. National Historic Preservation Act (NHPA)
Not type of activity with potential to affect historic properties.
Activity meets Programmatic Agreement, December 3, 2004. Appendix A: I,E
Are project conditions required?  \( \subseteq \text{Yes (see Section V)} \) \( \subseteq \text{No} \)
Programmatic Agreement not applicable, must conduct standard Section 106 Review.
HISTORIC BUILDINGS AND STRUCTURES
No historic properties that are listed or 45/50 years or older in project area. (Review Concluded)
Building or structure listed or 45/50 years or older in project area and activity not exempt from review.
Determination of No Historic Properties Affected (FEMA finding/SHPO/THPO concurrence on file)
Are project conditions required?  Yes (see Section V) No (Review Concluded)
Determination of Historic Properties Affected (FEMA finding/SHPO/THPO concurrence on file)
Property a National Historic Landmark and National Park Service was provided early notification
during the consultation process. If not, explain in comments
No Adverse Effect Determination (FEMA finding/SHPO/THPO concurrence on file).
Are project conditions required?
Adverse Effect Determination (FEMA finding/SHPO/THPO concurrence on file)
Resolution of Adverse Effect completed. (MOA on file)
Are project conditions required Yes (see Section V) No (Review Concluded)
ARCHEOLOGICAL RESOURCES  Project affects only previously disturbed ground. (Review Concluded)
Project affects undisturbed ground.
Project area has no potential for presence of archeological resources
Determination of no historic properties affected (FEMA finding/SHPO/THPO concurrence or
consultation on file). (Review Concluded)
Project area has potential for presence of archeological resources
Determination of no historic properties affected (FEMA finding/SHPO/THPO concurrence on file)
Are project conditions required Yes (see Section V) No (Review Concluded)
Determination of historic properties affected
NR eligible resources not present (FEMA finding/SHPO/THPO concurrence on file).
Are project conditions required Yes (see Section V) No (Review Concluded)
NR eligible resources present in project area. (FEMA finding/ SHPO/THPO concurrence on file)
☐ No Adverse Effect Determination. (FEMA finding/ SHPO/THPO concurrence on file)
Are project conditions required? Yes (see Section V) No (Review Concluded)
Adverse Effect Determination. (FEMA finding/ SHPO/THPO concurrence on file)
Resolution of Adverse Effect completed. (MOA on file)
Are project conditions required? Yes (see Section V) No
(Review Concluded)

Comments: Scope of work meets programmatic agreement (12/3/2004) allowance, appendix A, section I, E. If during the course of work, archaeological artifacts (prehistoric or historic) or human remains are discovered, the applicant shall stop work in the vicinity of the discovery and take all reasonable measures to avoid or minimize harm to the finds. The applicant shall inform their Public Assistance (PA) contacts FEMA, who will in turn contact FEMA historic preservation staff. The applicant will not proceed with work until FEMA historic preservation staff have completed consultation with the Louisiana State Historic Preservation Officer (SHPO). In addition, if unmarked graves are present, compliance with the Louisiana

Reviewer Name: Adam Borden, Environmental Specialist Project Name/Env. Database No: Boothville High School Onsite Single Unit Apt. FEMA-1603/1607-DR-LA Parish: Plaquemines Unmarked Human Burial Sites Preservation Act (R.S. 8:671 et seq.) is required. The applicant shall notify the law enforcement agency of the jurisdiction where the remains are located within twenty-four hours of the discovery. The applicant shall also notify FEMA and the Louisiana Unmarked Burial Sites Board (call the Louisiana Division of Archeology at 225-342-8170) within seventy-two hours of the discovery. Failure to comply with these stipulations may ieopardize receipt of FEMA funding. If the scope of work changes, this project will need to be resubmitted for further historic review. The structure does not meet the 50-year-criterion, nor does it possess the level of exceptional importance required by criteria consideration G of the national register guidelines to be considered eligible for the national register of historic places. Any change to the approved scope of work will require resubmission for re-evaluation under Section 106 and consultation with the SHPO. This concludes the Section 106 review for this project Correspondence/Consultation/References: - NHPA effect determinations made by Katherine Zeringue, Historic Preservation Specialist/Archaeologist **B. Endangered Species Act** No listed species and/or designated critical habitat present in areas affected directly or indirectly by the Federal action. (Review Concluded) Listed species and/or designated critical habitat present in the areas affected directly or indirectly by the Federal action. No effect to species or designated critical habitat. (See comments for justification) Are project conditions required? 

Yes (see Section V) 

No (Review Concluded) May affect, but not likely to adversely affect species or designated critical habitat (FEMA) determination/USFWS/NMFS concurrence on file) (Review Concluded) Are project conditions required? 

Yes (see Section V) 

No (Review Concluded) Likely to adversely affect species or designated critical habitat Formal consultation concluded. (Biological Assessment and Biological Opinion on file) Are project conditions required? YES (see Section V) NO (Review Concluded) Comments: Project is located in an urban or previously developed area. Neither listed species nor their habitat occur in or near this site, thus FEMA finds there will be no effect to threatened or endangered species. Correspondence/Consultation/References: USFWS emergency consultation provisions determined in letters dated September 15, 2005 for Katrina. C. Coastal Barrier Resources Act Project is not on or connected to CBRA Unit or Otherwise Protected Area (Review Concluded). Project is on or connected to CBRA Unit or Otherwise Protected Area. (FEMA determination/USFWS consultation on file) Proposed action an exception under Section 3505.a.6 (Review Concluded) Proposed action not excepted under Section 3505.a.6. Are project conditions required? YES (see Section V) NO (Review Concluded) Comments: Project is not within a CBRA zone.

Correspondence/Consultation/References: Louisiana Coastal Barrier Resource System Maps referenced 06/27/06.

#### D. Clean Water Act

$\boxtimes$	Project would not affect any	waters of the U.S.	(Review Concluded)
	Project would affect waters,	including wetlands	s, of the U.S.

Project exempted as in kind replacement or other exemption. (Review Concluded)

Project requires Section 404/401/or Section 9/10 (Rivers and Harbors Act) permit, including qualification under Nationwide Permits.

Comments: No jurisdictional waters of the U.S., including wetlands, occur in or near the project area. Correspondence/Consultation/References: USFWS National Wetlands Inventory map (http://www.fws.gov/nwi/) queried

#### IV. Extraordinary Circumstances

Based on the review of compliance with other environmental laws and Executive Orders, and in consideration of other environmental factors, review the project for extraordinary circumstances.

\* A "Yes" under any circumstance may require an Environmental Assessment (EA) with the exception of (ii) which should be applied in conjunction with controversy on an environmental issue. If the circumstance can be mitigated, please explain in comments. If no, leave blank.

(i) Greater scope or size than normally experienced for a particular category of action
(ii) Actions with a high level of public controversy
(iii) Potential for degradation, even though slight, of already existing poor environmental
conditions;
(iv) Employment of unproven technology with potential adverse effects or actions involving
unique or unknown environmental risks;
(v) Presence of endangered or threatened species or their critical habitat, or archaeological,
cultural, historical or other protected resources;
(vi) Presence of hazardous or toxic substances at levels which exceed Federal, state or local
regulations or standards requiring action or attention;
(vii) Actions with the potential to affect special status areas adversely or other critical resources
such as wetlands, coastal zones, wildlife refuge and wilderness areas, wild and scenic rivers,
sole or principal drinking water aquifers;
(viii) Potential for adverse effects on health or safety; and
(ix) Potential to violate a federal, state, local or tribal law or requirement imposed for the
protection of the environment.
(x) Potential for significant cumulative impact when the proposed action is combined with
other past, present and reasonably foreseeable future actions, even though the impacts of the
proposed action may not be significant by themselves.

# V. Environmental Review Project Conditions

### **Project Conditions:**

## The following conditions apply as a condition of FEMA funding reimbursement:

• This project involves the demolition or renovation of a public structure. Regardless of the asbestos content, the applicant is responsible for ensuring that renovation or demolition activities are coordinated with the Louisiana Department of Environmental Quality (LDEQ) in accordance with the LDEQ "Fifth Amended Declaration of Emergency and Administrative Order" dated March 31, 2006, and the LESHAP protocol dated March 1, 2006, incorporating the provisions of EPA's National Emission Standards for Hazardous Air Pollutants (NESHAP) and the Louisiana Administrative Code (LAC) 33.III.5151 and Chapter 27. Should Asbestos Containing Materials (ACMs) be present at the project site, the applicant is also responsible for ensuring proper disposal in accordance with the previously referenced administrative orders.

Parish: Plaquemines

- Applicant shall handle, manage, and dispose of potentially hazardous waste, universal waste, and hazardous materials in accordance with the requirements of local, state, and federal regulations. These materials may include but are not limited to asbestos, lead-based paint, laboratory reagents, propane cylnders, paints and solvents, coolants containing chlorofluorocarbons (cfcs), used oil, polychlorinated biphenyls (pcbs), other petroleum products, used oil filters, fuel filters, cleaning chemicals, pesticides, batteries, and unlabeled tanks and containers. Equipment that may include these materials are ice machines, refrigerators, generators, computers, televisions, mercury switches, fluorescent lights, fluorescent light ballasts, sandblast units, paint sprayers, etc.
- If during the course of work, archaeological artifacts (prehistoric or historic) or human remains are discovered, the applicant shall stop work in the vicinity of the discovery and take all reasonable measures to avoid or minimize harm to the finds. The applicant shall inform their public assistance (pa) contacts FEMA, who will in turn contact FEMA historic preservation staff. The applicant will not proceed with work until FEMA historic preservation staff have completed consultation with the Louisiana State Historic Preservation Officer (SHPO). In addition, if unmarked graves are present, compliance with the Louisiana Unmarked Human Burial Sites Preservation Act (R.S. 8:671 et seq.) is required. The applicant shall notify the law enforcement agency of the jurisdiction where the remains are located within twenty-four hours of the discovery. The applicant shall also notify FEMA and the Louisiana Unmarked Burial Sites Board (call the Louisiana Division of Archaeology at 225-342-8170) within seventy-two hours of the discovery. Failure to comply with these stipulations may jeopardize receipt of FEMA funding. If the scope of work changes, this project will need to be resubmitted for further historic review.
- Project is located within an "A99" zone, areas of 100-year flood to be protected by flood protection system under construction, base flood elevations and flood hazard factors not determined. This project is to repair building, where possible, all electrical equipment should be elevated at least 3 ft. Above the highest grade elevation.
