

FEMA Reimburses Gulf Coast Electric \$1.5M for Hurricane Michael Expenses

Release Date: Août 28, 2019

TALLAHASSEE, Fla. — FEMA has approved \$1,579,876 to the state of Florida to assist Gulf Coast Electric Cooperative with reimbursement for management costs following Hurricane Michael in October 2018 under FEMA's Public Assistance Program.

The grant is funded by FEMA's Public Assistance program, an essential source of funding for communities recovering from a federally declared disaster or emergency. FDEM works with FEMA during all phases of the PA program and reviews these projects prior to FEMA final approval.

Applicants work directly with FEMA to develop projects and scopes of work. FEMA obligates funding for the project after its final approval.

Once a project is obligated by FEMA, FDEM works closely with the applicant to finalize the grant and begin making payments. FDEM has implemented new procedures designed to ensure grant funding is provided to local communities as quickly as possible.

FEMA's Public Assistance program provides grants to state, tribal, and local governments, and certain types of private non-profit organizations, including houses of worship, so that communities can quickly respond to and recover from major disasters or emergencies.
