

FEMA Awards South Broward Hospital District (Memorial Healthcare System) Over \$7.1 Million for Wind Retrofit

Release Date: May 29, 2019

Orlando, Fla. – FEMA is awarding the South Broward Hospital District (doing business as Memorial Healthcare System) a \$7,160,065 Hazard Mitigation grant to fund a wind retrofit project at the East Tower at the Memorial Regional Hospital South and the cooling towers located at 3600 Washington Street, Hollywood, FL 33021.

Funding for this HMGP project is authorized under Section 404 of the Robert T. Stafford Act.

HMGP dollars help strengthen communities by improving buildings, facilities and infrastructure that people use every day. A 2018 report from the National Institute of Building Sciences found that one dollar spent on hazard mitigation will save more than six dollars of recovery and rebuilding costs.

Florida has a FEMA-approved Enhanced Mitigation Plan, making the state eligible for HMGP funding not to exceed 20 percent of the estimated total amount of money spent by FEMA on disaster grants in the Hurricane Irma disaster. From this amount, HMGP reimburses the state up to 75 percent of eligible costs for mitigation projects. The remaining amount comes from other sources such as state and local assets and a combination of cash and in-kind sources.

###Helping people before, during, and after disasters.
