

FEMA Authorizes Funds to Fight the Milo McIver Fire in Oregon

Release Date: Septanm 11, 2022

BOTHELL, Wash. - The Federal Emergency Management Agency (FEMA) authorized the use of federal funds to help with firefighting costs for the Milo McIver Fire burning in Clackamas County, Oregon.

The state of Oregon's request for a federal [Fire Management Assistance Grant](#) (FMAG) was approved by FEMA Region 10 Administrator Willie G. Nunn on Saturday, September 10, 2022, at 5:05 p.m. PT. He determined that the Milo McIver Fire threatened to cause such destruction as would constitute a major disaster. This is the second FMAG declared in 2022 to help fight Oregon wildfires.

At the time of the state's request, the wildfire threatened homes in and around the communities of Estacada and Springwater. The fire also threatened Milo McIver State Park, commercial businesses, Estacada water and sewer plant, five dams, fish hatcheries, Bonneville Power Authority transmission lines, and the Valley View airport.

FMAGs are provided through the President's Disaster Relief Fund and are made available by FEMA to assist in fighting fires that threaten to cause a major disaster. Eligible items can include expenses for field camps; equipment use, repair, and replacement; mobilization and demobilization activities; and tools, materials, and supplies. This authorization makes FEMA funding available to pay 75 percent of the state's eligible firefighting costs under an approved grant for managing, mitigating, and controlling designated fires. These grants do not provide assistance to individual home or business owners and do not cover other infrastructure damage caused by the fire.

In addition to the firefighting funds authorized under this FMAG, another \$786,552 will be available to Oregon through the [Hazard Mitigation Grant Program \(HMGP\) Post Fire](#) for the mitigation of future wildfires and related hazards, such as flood after fire or erosion. Some eligible wildfire project types include defensible space measures, ignition-resistant construction, and hazardous fuels reduction. The

[Disaster Recovery Reform Act of 2018](#) authorizes FEMA to provide [HMGP Post-Fire](#) funds to eligible states and territories that receive Fire Management Assistance declarations and federally recognized tribes that have land burned within a designated area.
