

FEMA approves nearly \$1.3 million for Florida Department of Financial Services

Release Date: 3? 17, 2020

PANAMA CITY, Fla. — FEMA has approved \$1,252,171 to reimburse the Florida Department of Financial Services for emergency measures taken following Hurricane Michael.

Grant funds reimburse the department for response and recovery efforts, such as search and rescue operations, firefighting and local emergency operations center support for Bay, Calhoun, Franklin, Gadsden, Gulf, Holmes, Jackson, Liberty and Washington counties.

This grant is funded by FEMA's Public Assistance program, an essential source of funding for communities recovering from a federally declared disaster or emergency. The Florida Division of Emergency Management (FDEM) works with FEMA during all phases of the PA program and reviews projects prior to FEMA final approval.

Applicants work directly with FEMA to develop projects and scopes of work. FEMA obligates funding for projects after final approval.

Once a project is obligated by FEMA, FDEM works closely with applicants to finalize grants and begin making payments. FDEM has implemented new procedures designed to ensure grant funding is provided to local communities as quickly as possible.
