Release Date: July 15, 2021

WASHINGTON -- FEMA announced that federal disaster assistance has been made available to the state of Michigan to supplement state, tribal and local recovery efforts in the areas affected by severe storms, flooding and tornadoes from June 25-26, 2021.

The President's action makes federal funding available to affected individuals in the counties of Washtenaw and Wayne. Assistance can include grants for temporary housing and home repairs, low-cost loans to cover uninsured property losses and other programs to help individuals and business owners recover from the effects of the disaster.

Federal funding is also available to the state, tribal and local governments and certain private nonprofit organizations on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged in Washtenaw and Wayne counties.

Federal funding is also available on a cost-sharing basis for hazard mitigation measures statewide.

Scott A. Burgess has been named the Federal Coordinating Officer for federal recovery operations in the affected area. Additional designations may be made at a later date if warranted by the results of damage assessments.
