LEGEND

- SPECIAL FLOOD HAZARD AREAS INUNDATED BY 100-YEAR FLOOD**
 - ZONE A** No base flood elevations determined.
 - ZONE AE** Base flood elevations determined.
 - ZONE AH** Flood depths of 1 to 3 feet (usually areas of ponds); base flood elevations determined.
 - ZONE AO** Flood depths of 1 to 3 feet (usually sheet flow on sloping terrain); average depths determined; base flood elevations determined.
 - ZONE A99** To be protected from 100-year flood by Federal flood protection system under construction; no base flood elevations determined.
 - ZONE V** Coastal flood with velocity hazard (wave action); no base flood elevations determined.
 - ZONE VE** Coastal flood with velocity hazard (wave action); base flood elevations determined.
- FLOODWAY AREAS IN ZONE AE**
- OTHER FLOOD AREAS**
 - ZONE X** Areas of 100-year flood; areas of 100-year flood with average depths of less than 1.00 feet; and areas protected by levees from 100-year flood.
 - ZONE D** Areas in which flood hazards are undetermined.
- UNDEVELOPED COASTAL BARRIERS**
 - Identified
 - Other
- OTHER AREAS**
 - ZONE X** Areas determined to be outside 500-year floodway.
 - ZONE D** Areas in which flood hazards are undetermined.
- BOUNDARIES**
 - Identified
 - Other
- BOUNDARY TYPES**
 - Coastal barrier areas are normally located within or adjacent to Special Flood Hazard Areas.
 - Floodway Boundary
 - Zone D Boundary
 - Zone A Boundary
 - Boundary (Including Special Flood Hazard Zones) and Boundary (Including Areas of Different Flood Hazard) Within Special Flood Hazard Zone
 - Base Flood Elevation Line; Elevation in Feet; See Map Index for Elevation Datum.
 - Base Flood Elevation Line; Elevation in Feet; See Map Index for Elevation Datum.
 - Cross Section Label
 - Base Flood Elevation in Foot Where Unlike Within Zone; See Map Index for Elevation Datum.
 - Elevation Reference Mark
 - River Mile

NOTES

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all potential features capable of causing flood hazard areas. The community map repository should be consulted for more detailed data on BEFs, and for any information on floodway elevations, prior to use of this map for property purchase or construction purposes.

Areas of Special Flood Hazard (100-year flood) include Zones A, AE, A1, A2, A3, A4, A5, A6, V, VE, and V1-V9.

Certain areas not in Special Flood Hazard Areas may be protected by flood control structures.

Boundaries of the Floodway were compiled at cross sections and measurements were made. The Floodway was compiled in accordance with requirements of the Federal Emergency Management Agency.

Floodway widths in some areas may be too narrow to show to scale. Refer to Floodway Data Table where Floodway width is shown at 1:20 scale.

Corporate limits shown are current as of the date of this map. The user should contact appropriate corporate officials to determine if corporate limits have changed subsequent to the issuance of this map.

This map may incorporate approximate boundaries of Coastal Boundaries (Insurance System Units) and/or Otherwise Protected Areas established under the Coastal Barrier Improvement Act of 1972 (16 USC 1621).

For adjusting map panels and base map sources see separately printed Map Index.

MAP REPOSITORY
City of San Jose
300 East Santa Clara Street, 2nd Floor
San Jose, CA 95131-1900
(Maps available for reference only, not for distribution)

INITIAL IDENTIFICATION:
JANUARY 24, 1975

FLOOD HAZARD BOUNDARY MAP REVISION:
APRIL 5, 1976 APRIL 1, 1979
NOVEMBER 20, 1979

FLOOD INSURANCE RATE MAP EFFECTIVE:
AUGUST 2, 1982

FLOOD INSURANCE RATE MAP REVISIONS:
For descriptions of Elevation Reference Marks see panel 060390002 D.

Note: In the FLOOD INSURANCE RATE MAP EFFECTIVE date shown on this map to determine when actual rates apply to structures in the zones where elevations or depths have been established.

To determine if flood insurance is available in this community, contact your insurance agent or the National Flood Insurance Program at (800) 638-6622.

APPROXIMATE SCALE IN FEET
0 100 200

LEGEND

To obtain more detailed information in areas where Base Flood Elevations (BFE's) and/or Floodway Data have been determined, users are encouraged to consult the Flood Profiles and Floodway Data Tables contained within the Flood Insurance Study (FIS) report for the community. The FIS report should be made available to the FIS manager, provided whole-foot elevations and therefore may not exactly reflect the flood elevations presented on the FIS report. Users on the FIS are intended for flood insurance purposes only and should not be used as the sole source of flood elevation information. Accordingly, flood elevations shown on the FIS should be used in conjunction with the FIS for purposes of construction and/or floodplain management.

Elevation information on this map was obtained and/or developed by the community for administration of flood insurance and floodplain management purposes. Users should be aware that these FIS elevations may have changed since the publication of this map. In such specific situations, users should contact the community for more information on the FIS at (408) 733-2743, and for more information on the FIS at (408) 733-2743.

Users should be aware that the FIS report should be used for flood insurance purposes only and should not be used as the sole source of flood elevation information. Accordingly, flood elevations shown on the FIS should be used in conjunction with the FIS for purposes of construction and/or floodplain management.

Users should be aware that the FIS report should be used for flood insurance purposes only and should not be used as the sole source of flood elevation information. Accordingly, flood elevations shown on the FIS should be used in conjunction with the FIS for purposes of construction and/or floodplain management.
