

Recovery Centers

Got a question about disaster recovery? If a federal disaster declaration is declared in your area you may be eligible for federal assistance. Visit a State Disaster Recovery Center (DRC) to help! A DRC is a readily accessible temporary facility or mobile office in your community where you can apply for federal assistance to cover damage sustained during a disaster. FEMA, Small Business Administration and state officials will help you submit an individual assistance application. Some of the services may include:

- Guidance regarding disaster recovery;
- Clarification of any written correspondence received;
- Housing Assistance and Rental Resource information; and
- Answers to questions, resolution to problems and referrals to agencies that may provide further assistance.
