Subcommittee Mission

To advise and provide recommendations to the FEMA National Advisory Council regarding the missions of FEMA National Preparedness & Protection including those specifically addressed in the Post-Katrina Emergency Management Reform Act (PKEMRA) ensuring that all public needs are represented.
Previous Charges

1. Monitor the NAC recommendations related to the NRF Revision process and provide input as appropriate. CLEARED

2. Continue engagement with EMTES and provide input as appropriate. REVISITING
3. The Subcommittee will request of FEMA to provide for a briefing on the new draw down and spending guidance, as announced in guidance from DHS Secretary on February 13, 2012. Clarity on details in flexibility, guidelines, and intent? CLEARED

4. The Subcommittee will request of FEMA to provide for a briefing on the National Training & Education System (NTES) for purposes of identifying the intersection of PPD-8 core competencies between NTES and EMTES. REVISING
Recommendation 1

The NAC recommends that FEMA utilize the upcoming NIMS revision roll out to clear up various topics such as:

- what “NIMS compliant” means;
- clarify overarching issues about NIMS vs. ICS;
- and, distinctly show any differences between the NIMS revisions through proper implementation and marketing communications to states, tribes, territories and local jurisdictions, taking into consideration the whole of community.

The NAC further recommends that FEMA provide the NAC with the marketing/implementation plan for comment prior to the roll out.
Recommendation 2

The NAC supports and recommends that the proposed mid-level training of the Emergency Management Professional Program or EMPP (previously known as EMTES) focus on the five mission areas of PPD-8 (Prevent, Protect, Respond, Recover and Mitigate) through crosswalk and curriculum. Additionally, during the development and delivery, the NAC recommends that FEMA bring forward specific areas of question or challenge to the NAC.
Charges 1

Continue engagement with FEMA on NTES and the development / implementation of EMPP to include revisiting with an overall strategic perspective and ensuring the intersection of the PPD-8 core competencies with NTES & EMPP.
Charges 2

The Subcommittee would like to engage with FEMA to determine whether health care organizations are procedurally being left out of the planning process with regards to capabilities-building funding

- The Subcommittee would request of FEMA to have a grants briefing with DHS FEMA and DHHS with specific consideration on health care organizations on the cross walk of capabilities building and grant process and terminology to determine if health care organizations have appropriate opportunities to build such.
Charges 3

The Subcommittee will review previous NAC recommendations on NIMS to determine which ones are still relevant and which ones were implemented and how the recommendations fit within the NIMS revision.
