Project Name/Number: George W. Carver Junior and High School
Demolition of Ball Field Bathroom Building
FIPS#: 033-UA9M2-00/ **AI No. 1655**

Applicant Name: Recovery School District

Project Locations: George W. Carver Junior and High School - Location: 29.99668, -90.03754
3059 Higgins Blvd., New Orleans, LA 70126

Project Description:

On August 29, 2005, Hurricane Katrina and its aftermath caused wind and flood damages to facilities at the Recovery School District George W. Carver Junior and High School, New Orleans. Based on the Recovery School District and Orleans Parish School Board 2008 "School Facilities Master Plan" to restore school facilities, the Applicant plans to demolish the 800 square foot one-story ball field bathroom building.

The Department of Homeland Security (DHS) and the Council on Environmental Quality (CEQ) have established Alternative Arrangements to meet the requirements of the National Environmental Policy Act (NEPA) and the CEQ Regulations for Implementing the Procedural Requirements of NEPA to Reconstruct Critical Infrastructure in the New Orleans Metropolitan Area. These alternative arrangements will enable FEMA, as a component of DHS, to consider the potential for significant impacts to the human environment from its approval to fund the reconstruction of critical physical infrastructure in NOMA. This project qualifies as an Alternative Arrangement for the Reconstruction of Critical Infrastructure in the New Orleans Metropolitan Area. For more information visit www.fema.gov/plan/ehp/noma/index.shtm

The Federal Emergency Management Agency (FEMA), Environmental and Historic Preservation (EHP) Division at the Louisiana Recovery Office has determined through its Special Considerations review that Facility Planning and Control (Applicant) public involvement process meets the requirements of the National Environmental Policy Act (NEPA) Alternative Arrangements (AA). Those requirements comply with the programmatic agreement between the White House Council on Environmental Quality, the Department of Homeland Security, and FEMA.

Comments: Based on documentation provided by the sub-applicant, FEMA's Environmental / Historic Preservation Section and Alternatives Arrangement team determined that the Recovery School District and the Orleans Parish School Board provided sufficient documentation to demonstrate a satisfactory public involvement process for rebuilding schools in Orleans Parish, LA. Any changes to the scope of work will

require re-submission through the state to FEMA and requires re-evaluation for compliance with national environmental policies. The applicant is responsible for obtaining and complying with all local, state and federal permits. Non-compliance with this requirement may jeopardize receipt of federal funds.

Project is Non-Compliant (see attached documentation justifying selection).
