

Walt Disney World's Epcot is StormStruck!

Ever wonder what it would be like to get caught in a hurricane? StormStruck: The Tale of Two Homes is Epcot's new interactive weather experience, allowing visitors to experience a "spectacular 4-D wind storm" and work together to build a home ready to experience a severe weather situation!

Designed to help guests learn about their risks for natural disasters and local hazards, StormStruck helps people understand their property and their protection and safety options. Epcot and the Federal Alliance for Safe Homes (FLASH) have come together to stress the importance of taking action today to protect families and homes in order to prevent further disaster in the future.

The [StormStruck website](#) even includes a [section](#) where you can read about and prepare for natural disasters that occur in your state.

The non-profit FLASH is a leading consumer advocate for strengthening homes and safeguarding families from natural and manmade disasters. Read more about other FLASH initiatives at www.flash.org/.
