Complete your application today at <http://www.fema.gov/e-grant-application-access>

APPLICATION REVIEW CHECKLIST

*** Applications cannot be edited once submitted ***

- **Proofread your application:** Mistakes or errors on your SAFER application can disqualify your organization for grant award consideration.
- If you included any "filler" or placeholder text while filling out your application, update the application fields with your final and complete answers
- Do the sequences of your sentences and paragraphs present clear thoughts and ideas?
- Does your narrative explain your organizations needs in a way that someone would easily understand?
- Check your inventory amounts and costs for all items that you are requesting and confirm that there are no discrepancies between the **Request Details** Information section of the application and the **Narrative**.
- Have all application fields, or questions, been answered?
- Make sure that you have described **your organizations** needs in **your** voice, **do not** use boilerplate language or copy from vendors, manufacturers, etc.
- Ask a colleague who is not involved with the actual writing of the grant to proofread your application.
- Make sure that all facts and figures are accurate throughout the entire application.

WEB BROWSER REMINDERS

- For best results, use Internet Explorer when completing your online SAFER application. Alternate browsers, such as Chrome, Firefox and Safari, may have limited functionality in the application.
- Avoid opening multiple web browsers or multiple windows when completing and submitting your SAFER application; this has caused technical problems for some users.

Internet Explorer users, please do the following before logging into the site:

- Click on tools, and then click on Internet Options.
- Under the **Advanced** tab, in the Security subsection, make sure "Use TLS 1.2" is checked.
- Under the **General** tab click on the settings button under Browsing History.
- Make sure it is set to "Check for newer versions of stored pages: Every time I visit the web page."
- Then click the "delete" button and delete your temporary internet files, cookies, history and form data.
- Then close and click ok. Close the browser and any other open browsers then open up a new one.

If you must use Firefox in order to make the right choice from the dropdown, you will need to use your up and down arrow key on your keyboard instead of your mouse to make the selection. Once you have chosen using your up and down key, then press enter.

THE FY 2014 FIRE PREVENTION AND SAFETY (FP&S) APPLICATION PERIOD WILL OPEN ON MONDAY, MARCH 16, 2015 AT 8:00AM EST AND WILL CLOSE ON FRIDAY, APRIL 17, 2015 AT 5:00 P.M. EST

Begin preparing your application now by reviewing the guidance materials that are available now. It is important to read the Funding Opportunity Announcement (FOA) thoroughly. The FOA contains the key programmatic updates and application requirements necessary, for all eligible applicants.

Additional Technical Assistance Tools will be posted soon.
