

FloodSmart Agent Referral Program

Highlights and Registration Guide

Agent Referral Program

FloodSmart, the marketing and education campaign of the National Flood Insurance Program (NFIP), was developed to alert customers to their flood risk and encourage them to contact their agent to purchase flood insurance. If they do not have an agent, they can visit FloodSmart.gov or call a toll-free number to be connected with an agent in the Agent Referral Program.

Agents.FloodSmart.gov offers agents a number of valuable tools and resources to help you communicate important messages about flood insurance to prospective and existing clients. But it all starts with the Agent Referral Program, which provides free, qualified leads to agents. These leads can turn into new clients, which will help to build your business.

How It Works

FloodSmart's marketing efforts include website, direct mail, online display, TV, and radio advertising, all of which feature a unique toll-free phone number consumers can call to reach the NFIP Referral Call Center. Our referral specialists can help callers in your area find you and transfer the call directly to you during business hours. A confirmation email will also be sent to you with the prospect's contact information.

Visitors to FloodSmart.gov are offered agent referrals in two ways. First, they can complete the **One-Step Flood Risk Profile** by entering their property address to determine their flood risk and estimated premium cost. Also included in their profile will be contact information for agents in their area. Visitors also can access our **Agent Locator** to find local insurance agents.

FloodSmart mails 8 to 10 million pieces of direct mail a year. Each acquisition piece provides two agent referrals based on the recipient's ZIP code and listed at random.

How to Enroll

1. Visit Agents.FloodSmart.gov to create your agent profile for the Agent Referral Program.
2. Submit proof of at least 2 hours of flood insurance training completed within the past 2 years by uploading it directly to your profile. All forms of training are accepted as long as the certificate shows the course name, instructor or organization name, and course length. Continuing Education training is not required to be eligible for registration.
3. Once a FloodSmart administrator has reviewed your proof of training, you will receive a welcome email and be activated as a FloodSmart Referral Agent.
4. To maintain eligibility, submit a new certification of completion every 2 years. FloodSmart will send a reminder notice approximately 6 months prior to expiration.

Step-by-Step FloodSmart Agent Profile Guide

Follow the steps in the following pages to create your FloodSmart Referral Agent profile. If you have questions or technical problems, please call 888-379-9531 or email support@nfipfloodsmart.com.

STEP 1:

Go to Agents.FloodSmart.gov and click on "Register Here."

The screenshot shows the homepage of Agents.FloodSmart.gov. At the top, there is a navigation bar with links for Home, News, Contact FloodSmart, Search, and a search input field. To the right of the search bar are links for Text Size and Quick Links. The main header features the Agents.FloodSmart.gov logo and two buttons: "Log In" for existing agents and "Register Here" for new users. A red arrow labeled "STEP 1" points to the "Register Here" button. Below the header is a horizontal menu with links for FloodSmart Agent Offerings, Selling Flood Insurance, Marketing Flood Insurance, Managing Policies, and Resource Library. The main content area has a large banner with the text "Get FloodSavvy" and "Protect your clients. Build your business. Learn to speak flood." An illustration of a house floating in water is shown. A "Register Now" button is prominently displayed. Below the banner are three columns of featured content: "Why Sell Flood Insurance?", "Become a FloodSmart Agent", and "News You Can Use".

STEP 2:

Fill out the requested information and click "Next."
