FEMA 232, Homebuilders' Guide to Earthquake Resistant Design and Construction

TRAINING DESCRIPTION

This course will present seismic design and construction guidance for one- and two-family houses in a manner that can be utilized by homebuilders, knowledgeable homeowners, and other non-engineers. It incorporates and references the prescriptive provisions of the 2003 *International Residential Code* as well as the results of the FEMA-funded CUREE-Caltech Woodframe Project. The training will discuss the FEMA 232 report, which includes prescriptive building detail plans based on state-of-the-art earthquake-resistant design for use by homebuilders and others in the construction of a non-engineered residential structure. Instruction includes discussion of the results of recent loss investigations as well as current research and analysis results to identify a number of specific above-code measures for improved earthquake performance along with their associated costs. A typical modern house is used to illustrate the application and benefits of above-code measures,

TARGET AUDIENCE

The target audience for these trainings includes building officials, engineers, architects, building owners, emergency managers, risk analysts, and other interested citizens and volunteers.

GENERAL INFORMATION

- Time:** x:xx am – x:xx pm
- Date:** Month, Day, Year
- Location:** Facility Name, Room #, Street Address, City, State, Zip
- Instructor:** First Name, Last Name, Title, Organization
- Materials:** FEMA 232, *Homebuilders' Guide to Earthquake Resistant Design and Construction* (hard copy)

REGISTRATION

To register for this training, please provide your name, organization, address, phone number, and e-mail address to xxxxx@xxxx.com. For questions or additional information, please contact [xxx-xxx-xxxx](tel:xxx-xxx-xxxx).

This training is supported by National Earthquake Hazards Reduction Program (NEHRP) National Earthquake Technical Assistance Program (NETAP). For more information visit: <http://www.fema.gov/earthquake-training/national-earthquake-technical-assistance-program>
