## FEMA 395, *Earthquake Safety and Mitigation for Schools*

### TRAINING DESCRIPTION

School buildings in many states and U.S. territories are vulnerable to earthquake damage that threatens safety and continued operations. This course teaches participants how to: (1) assess and analyze seismic risks typical to school buildings; (2) develop actionable plans for reducing and managing these risks; (3) secure nonstructural components in school facilities; and (4) implement incremental seismic rehabilitation as an affordable approach for protecting existing school buildings and ensuring occupant safety.

### TARGET AUDIENCE

The target audience for this training includes school officials, school administrators, teachers, facility managers, engineers and other stakeholders interested in reducing earthquake risks in school facilities.

### GENERAL INFORMATION

- Time:** x:xx am – x:xx pm
- Date:** Month, Day, Year
- Location:** Facility Name, Room #, Street Address, City, State, Zip
- Instructor:** First Name, Last Name, Title, Organization
- Materials:** FEMA 395, *Incremental Seismic Rehabilitation of School Buildings (K-12)* (hard copy)

### REGISTRATION

To register for this training, please provide your name, organization, address, phone number, and e-mail address to [xxxxx@xxxx.com](mailto:xxxxx@xxxx.com). For questions or additional information, please contact [xxx-xxx-xxxx](tel:xxx-xxx-xxxx).

This training is supported by National Earthquake Hazards Reduction Program (NEHRP) National Earthquake Technical Assistance Program (NETAP). For more information visit: <http://www.fema.gov/earthquake-training/national-earthquake-technical-assistance-program>
