## **Fiscal Year (FY) 2016 Port Security Grant Program (PSGP) Frequently Asked Questions (FAQs)**

### **1. What is the purpose of the FY 2016 PSGP?**

The purpose of the FY 2016 PSGP is to directly support maritime transportation infrastructure security activities. The vast majority of U.S. maritime critical infrastructure is owned or operated by state, local, and private sector maritime industry partners.

PSGP funds available to these entities are intended to improve port-wide maritime security risk management; enhance maritime domain awareness; support maritime security training and exercises; and to maintain or reestablish maritime security mitigation protocols that support port recovery and resiliency capabilities.

PSGP investments must address U.S. Coast Guard (USCG) and Area Maritime Security Committee identified vulnerabilities in port security and support the prevention, protection against, response to, and recovery from attacks involving improvised explosive devices and other non-conventional weapons.

### **2. How much funding is available under the FY 2016 PSGP?**

The total amount of funds distributed under the FY 2016 PSGP will be \$100,000,000. All PSGP award recipients will be selected for funding through a competitive review process. All PSGP award recipients must provide a non-federal match (cash or in-kind) supporting *at least 25 percent of the total of all project costs* (subject to some exceptions). Cost share should be specifically identified for each proposed project. Cost match, whether cash or in-kind, has the same eligibility requirements as the federal share (e.g. operational costs for routine patrol is ineligible; operational costs for overtime to conduct an approved exercise as part of the investment justification may be eligible).

### **3. Who is eligible to apply for FY 2016 PSGP funds?**

All entities subject to an Area Maritime Transportation Security Plan, as defined by 46 U.S.C. § 70103(b), may apply for PSGP funding. Eligible applicants include, but are not limited to port authorities, facility operators, and state and local government agencies.
