

**Federal Emergency Management Agency
PUBLIC NOTICE**

Notice of Availability of the Draft Environmental Assessment for the City of Carencro Flood Control and Drainage Project, Lafayette Parish, Louisiana
HMGP DR-4015-LA Project #2

Interested persons are hereby notified that the City of Carencro has applied to the Federal Emergency Management Agency (FEMA), through the Louisiana Governor's Office of Homeland Security and Emergency Management, for Hazard Mitigation Grant Program (HMGP) funding under Section 404 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act. FEMA's Hazard Mitigation Grant Program provides grants to states and local governments to implement long-term hazard mitigation measures that reduce the loss of life and property due to natural disasters and to enable mitigation measures to be implemented during the immediate recovery from a disaster.

FEMA proposes to provide funding to the City of Carencro for improvements to the channel at the Post Road Wastewater Treatment Plant (WWTP). The project would include the installation of AB matting along the existing channel which would correct current erosion issues and extend erosion protection further west.

The draft EA is available for review and comment at Carencro City Hall, P.O. Drawer 10, 210 East St. Peter Street, Carencro, LA 70520, from Monday through Thursday 7:30 am to 5 pm and Friday 7:30 am to noon; from May 5, 2016 to June 3, 2016. An electronic version of the draft EA can be requested from Sarah Carrino, FEMA Region 6, at sarah.carrino@fema.dhs.gov or viewed on FEMA's website at <https://www.fema.gov/library>.

The comment period will end 30 days from the initial notice publication date. Written comments on the draft EA can be mailed, emailed, or faxed to Sarah Carrino, Environmental Specialist, FEMA Region 6, 800 N Loop 288, Denton, TX 76209, Fax: 940-297-0152; sarah.carrino@fema.dhs.gov. If no substantive comments are received, the draft EA will become final and a Finding of No Significant Impact (FONSI) will be issued for the project. Substantive comments will be addressed as appropriate in the final documents.
