Preliminary Damage Assessment Report

Cheyenne River Sioux Tribe – Severe Storms and Straight-line Winds Denial

Denied on September 18, 2018

On August 17, 2018, Chairman Harold C. Frazier requested a major disaster declaration due to severe storms and straight-line winds during the period of June 29 to July 4, 2018. The Chairman requested Individual Assistance, Public Assistance, and Hazard Mitigation for the Cheyenne River Sioux Tribe. During the period of July 30 to August 1, 2018, joint federal, tribal, and local government Preliminary Damage Assessments (PDAs) were conducted in the requested areas and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the tribe and the affected local governments, and that Federal assistance is necessary.

On September 18, 2018, the Chairman’s request for a major disaster declaration was denied based on the determination that the damage was not of such severity and magnitude as to warrant supplemental federal disaster assistance under the Stafford Act.¹

Summary of Damage Assessment Information Used in Determining Whether to Declare a Major Disaster

Individual Assistance

- Total Number of Residences Impacted:² 82
  - Destroyed - 4
  - Major Damage - 6
  - Minor Damage - 28
  - Affected - 44

- Percentage of insured residences:³ 25.0%
- Percentage of low income households:⁴ 85.0%
- Percentage of ownership households:⁵ 56.90%
- Total Individual Assistance cost estimate: $463,992

Public Assistance

- Primary Impact: Emergency protective measures
- Total Public Assistance cost estimate: $152,447
- Per capita impact: ⁶ $18.84
When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

Degree of damage to impacted residences:
- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

By law, Federal disaster assistance cannot duplicate insurance coverage. 42 U.S.C. § 5155 and 44 C.F.R. § 206.48(b)(5).

Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance. 44 C.F.R. § 206.48(b)(3).

Ibid. 44 C.F.R. § 206.48(b)(3).

Based on State population in the 2010 Census.
