Preliminary Damage Assessment Report

Washington – Severe Winter Storms, Straight-line Winds, Flooding, Landslides, Mudslides, and a Tornado
FEMA-4418-DR

Declared March 4, 2019

On February 19, 2019, Governor Jay Inslee requested a major disaster declaration due to severe winter storms, straight-line winds, flooding, landslides, mudslides, and a tornado during the period of December 10-24, 2018. The Governor requested a declaration for Public Assistance for 14 counties and Hazard Mitigation statewide. During the period of January 30 to February 7, 2019, joint federal, state, and local government Preliminary Damage Assessments (PDAs) were conducted in the requested areas and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the state and the affected local governments, and that Federal assistance is necessary.¹

On March 4, 2019, President Trump declared that a major disaster exists in the State of Washington. This declaration made Public Assistance requested by the Governor available to state and eligible local governments and certain private nonprofit organizations on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by severe storms, straight-line winds, flooding, landslides, mudslides, and a tornado in Clallam, Grays Harbor, Island, Jefferson, Mason, Pacific, Snohomish, and Whatcom Counties. This declaration also made Hazard Mitigation Grant Program assistance requested by the Governor available for hazard mitigation measures statewide.²

Summary of Damage Assessment Information Used in Determining Whether to Declare a Major Disaster

Individual Assistance – (Not requested)

- Total Number of Residences Impacted:³ -
  - Destroyed - -
  - Major Damage - -
  - Minor Damage - -
  - Affected - -

- Percentage of insured residences:⁴ -
- Percentage of low income households:⁵ -
- Percentage of ownership households:⁶ -
- Total Individual Assistance cost estimate: N/A
Public Assistance

- **Primary Impact:** Damage to utilities
- **Total Public Assistance cost estimate:** $17,779,710
- **Statewide per capita impact:** $2.64
- **Statewide per capita impact indicator:** $1.50
- **Countywide per capita impact:** Clallam County ($17.78), Grays Harbor County ($8.37), Island County ($26.12), Jefferson County ($10.32), King County ($0.96), Kitsap County ($1.80), Lewis County ($1.60), Mason County ($4.13), Pacific County ($6.83), Pierce County ($0.40), Skagit County ($0.31), Snohomish County ($7.13), Thurston County ($0.44), and Whatcom County ($25.71).

Countywide per capita impact indicator: $3.78

---

1. The Preliminary Damage Assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor’s request for a major disaster or emergency declaration, and by the President in determining a response to the Governor’s request (44 CFR § 206.33).

2. When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

3. Degree of damage to impacted residences:
   - Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
   - Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
   - Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
   - Affected – some damage to the structure and contents, but still habitable.

5. Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance. 44 C.F.R. § 206.48(b)(3).

6. Ibid. 44 C.F.R. § 206.48(b)(3).

7. Based on State population in the 2010 Census.
