The National Preparedness Goal defines the 32 Core Capabilities and can be found at http://www.fema.gov/national-preparedness-goal.

**Protection**

Protect our citizens, residents, visitors and assets against the greatest threats and hazards in a manner that allows our interests, aspirations and way of life to thrive.

1. **Planning**
2. **Public Information and Warning**
3. **Operational Coordination**
4. **Intelligence and Information Sharing**
5. **Interdiction and Disruption**
6. **Screening, Search, and Detection**
7. **Access Control and Identity Verification**
8. **Cybersecurity**
9. **Physical Protective Measures**
10. **Risk Management for Protection Programs and Activities**
11. **Supply Chain Integrity and Security**

PrepTalks showcase thought leaders with innovative ideas and approaches to improve many of the Core Capabilities. Each PrepTalk includes a video, discussion slides, and additional resources. For a full list of PrepTalks, visit www.fema.gov/preptalks.
**Description**

Conduct a systematic process engaging the whole community, as appropriate, in the development of executable strategic, operational, and/or tactical-level approaches to meet defined objectives.

1. Develop protection plans that identify critical objectives based on planning requirements, provide a complete and integrated picture of the sequence and scope of the tasks to achieve the planning objectives, and implement planning requirements within the timeframe contemplated within the plan using available resources for protection-related plans.

2. Implement, exercise, and maintain plans to ensure continuity of operations.

**Training**

Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at [www.firstrespondertraining.gov/frt/npccatalog](http://www.firstrespondertraining.gov/frt/npccatalog).

<table>
<thead>
<tr>
<th>COURSE</th>

</tr>
</tbody>
</table>
**Capability Targets**

Communities use standardized language to set targets that reflect the level of capability they plan to build and sustain. Communities use the same standardized language to measure how much capability they have. Not all standardized targets may be required for all communities. The standardized target for this Core Capability is provided below.

Within every (#) (time), update all emergency operations plans that define the roles and responsibilities of (#) partner organizations involved in incident management across (#) jurisdictions affected, and the sequence and scope of tasks needed to prevent, protect, mitigate, respond to, and recover from events.

**Resource Types**

The Resource Typing Library Tool (https://rtlt.preptoolkit.fema.gov) is a searchable database of national resource typing definitions and position qualifications, which can be sorted by primary capability. Examples for this Core Capability are below.

<table>
<thead>
<tr>
<th>NAME</th>
<th>TYPE</th>
<th>CATEGORY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Planning Section Chief</td>
<td>Job Title/Position Qualification</td>
<td>Incident Management</td>
</tr>

</tr>
<tr>
<td>Geographic Information Systems Field Data Collection Team</td>
<td>Resource Typing Definition</td>
<td>Geographic Info Systems and Info Technology</td>
</tr>
</tbody>
</table>

**Partners**

Responsibility for capabilities is often shared between many partner organizations, including federal, state, local, tribal, territorial, international and the private sector. More information is available in the National Protection Framework at www.fema.gov/media-library/assets/documents/117782.

- Information Sharing and Analysis Centers—Gather and facilitate the sharing of data and analysis between partners.
- Protective Security Advisors—Regionally located Department of Homeland Security subject matter experts who engage with stakeholders to protect the Nation’s critical infrastructure.
- Sector Coordinating Councils—Private sector councils consisting of owners and operators that interact on a wide range of sector-specific strategies, policies, activities, and issues.

**Validating**

Exercises and real-world events validate capabilities and are opportunities to identify areas of success or needs for improvement. Tools to validate your capabilities include:

- **Homeland Security Exercise and Evaluation Program:** Fundamental principles that frame a common approach. [https://preptoolkit.fema.gov/web/hseep-resources](https://preptoolkit.fema.gov/web/hseep-resources)
- **National Exercise Program:** The principal mechanism for validating the Core Capabilities. Jurisdictions can receive technical assistance and support from subject matter experts. [www.fema.gov/national-exercise-program](http://www.fema.gov/national-exercise-program)
- **Homeland Security Digital Library:** A collection of documents related to homeland security policy, strategy, and organizational management. [www.hsdl.org](http://www.hsdl.org)

**Additional Information**

MISSION AREA
BUILD AND SUSTAIN THE CORE CAPABILITY
PUBLIC INFORMATION AND WARNING

Description
Deliver coordinated, prompt, reliable, and actionable information to the whole community through the use of clear, consistent, accessible, and culturally and linguistically appropriate methods to effectively relay information regarding any threat or hazard and, as appropriate, the actions being taken and the assistance being made available.

1. Use effective and accessible indication and warning systems to communicate significant hazards to involved operators, security officials, and the public (including alerts, detection capabilities, and other necessary and appropriate assets).

Training
Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at www.firstrespondertraining.gov/frt/npccatalog.

<table>

The National Preparedness Goal defines the 32 Core Capabilities and can be found at http://www.fema.gov/national-preparedness-goal.
 Capability Targets

Communities use standardized language to set targets that reflect the level of capability they plan to build and sustain. Communities use the same standardized language to measure how much capability they have. The standardized target for this Core Capability is provided below.

Within (#) (time) notice of an incident, deliver reliable and actionable information to (#) people affected, including (#) people with access and functional needs (affected) and (#) people with limited English proficiency affected.

Resource Types

The Resource Typing Library Tool (https://rtlt.preptoolkit.fema.gov) is a searchable database of national resource typing definitions and position qualifications, which can be sorted by primary capability. An example for this Core Capability is below.

<table>
<thead>
<tr>
<th>NAME</th>
<th>TYPE</th>
<th>CATEGORY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Public Information Officer</td>
<td>Job Title/Position Qualification</td>
<td>Incident Management</td>
</tr>
</tbody>
</table>

Partners

Responsibility for capabilities is often shared between many partner organizations, including federal, state, local, tribal, territorial, international and the private sector. More information is available in the National Protection Framework at www.fema.gov/media-library/assets/documents/117782.

- Agency/office responsible for emergency alerts—Public communication tools used to disseminate information about serious emergencies. These include the Emergency Alert System, Wireless Emergency Alerts, the Integrated Public Alert & Warning System, and others.
- Information Sharing and Analysis Centers—Gather and facilitate the sharing of data and analysis between partners.
- State and Major Urban Area Fusion Centers—Focal points for the receipt, analysis, gathering, and sharing of threat-related information between partners.

Validating

Exercises and real-world events validate capabilities and are opportunities to identify areas of success or needs for improvement. Tools to validate your capabilities include:

- **Homeland Security Exercise and Evaluation Program:** Fundamental principles that frame a common approach. https://preptoolkit.fema.gov/web/hseep-resources
- **National Exercise Program:** The principal mechanism for validating the Core Capabilities. Jurisdictions can receive technical assistance and support from subject matter experts. www.fema.gov/national-exercise-program
- **Homeland Security Digital Library:** A collection of documents related to homeland security policy, strategy, and organizational management. www.hsdl.org

Additional Information

- National Council of Information Sharing and Analysis Centers: www.nationalisacs.org
- Comprehensive Preparedness Guide (CPG) 201: www.fema.gov/media-library/assets/documents/165308
Description
Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical stakeholders and supports the execution of Core Capabilities.

1. Establish and maintain partnership structures among Protection elements to support networking, planning, and coordination.

Training
Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at www.firstrespondertraining.gov/frt/npcatalog.

<table>
<thead>
<tr>

For more Core Capability Development Sheets, visit [www.fema.gov/fema-technical-assistance-program](http://www.fema.gov/fema-technical-assistance-program).
Description

Provide timely, accurate, and actionable information resulting from the planning, direction, collection, exploitation, processing, analysis, production, dissemination, evaluation, and feedback of available information concerning threats to the United States, its people, property, or interests; the development, proliferation, or use of WMDs; or any other matter bearing on U.S. national or homeland security by local, state, tribal, territorial, Federal, and other stakeholders. Information sharing is the ability to exchange intelligence, information, data, or knowledge among government or private sector entities, as appropriate.

1. Anticipate and identify emerging and/or imminent threats through the intelligence cycle.
2. Share relevant, timely, and actionable information and analysis with local, state, tribal, territorial, Federal, private sector, and international partners, and develop and disseminate appropriate classified/unclassified products.
3. Provide local, state, tribal, territorial, Federal, and private sector partners with or access to a mechanism to submit terrorism-related information and/or suspicious activity reports to law enforcement.

Training

Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at www.firstrespondertraining.gov/frt/npcatalog.

The National Preparedness Goal defines the 32 Core Capabilities and can be found at http://www.fema.gov/national-preparedness-goal.
BUILD AND SUSTAIN THE CORE CAPABILITY

**Capability Targets**

Communities use standardized language to set targets that reflect the level of capability they plan to build and sustain. Communities use the same standardized language to measure how much capability they have. Not all standardized targets may be required for all communities. The standardized targets for this Core Capability are provided below.

During steady state, and in conjunction with the fusion center and/or Joint Terrorism Task Force (JTTF), every (#) (time), review ability to effectively execute the intelligence cycle, including the planning, direction, collection, exploitation, processing, analysis, production, dissemination, evaluation, and feedback of available information, and identify the (#) personnel assigned to support execution of the intelligence cycle.

Then, within (#) (time) of the identification or notification of a credible threat, identify/analyze local context of the threat for the respective area of responsibility, and facilitate the sharing of threat information with (#) priority intelligence stakeholder agencies/entities in accordance with the intelligence cycle, and all dissemination protocols.

**Resource Types**

The Resource Typing Library Tool (https://rtlt.preptoolkit.fema.gov) is a searchable database of national resource typing definitions and position qualifications, which can be sorted by primary capability. Examples for this Core Capability are below.

<table>
<thead>
<tr>
<th>NAME</th>
<th>TYPE</th>
<th>CATEGORY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Intelligence/Investigations Section Chief</td>
<td>Job Title/Position Qualification</td>
<td>Emergency Management</td>
</tr>
<tr>
<td>Fusion Liaison Officer</td>
<td>Job Title/Position Qualification</td>
<td>Law Enforcement Operations</td>
</tr>
</tbody>
</table>

**Partners**

Responsibility for capabilities is often shared between many partner organizations, including federal, state, local, tribal, territorial, international and the private sector. More information is available in the National Protection Framework at www.fema.gov/media-library/assets/documents/117782.

- Homeland Security Information Network—Partners analyze data, send alerts and notices, and share information.
- Information Sharing and Analysis Centers—Gather and facilitate the sharing of data and analysis between partners.
- State and Major Urban Area Fusion Centers—Focal points for the receipt, analysis, gathering, and sharing of threat-related information between partners.

**Validating**

Exercises and real-world events validate capabilities and are opportunities to identify areas of success or needs for improvement. Tools to validate your capabilities include:

- **Homeland Security Exercise and Evaluation Program:** Fundamental principles that frame a common approach. https://preptoolkit.fema.gov/web/hseep-resources
- **National Exercise Program:** The principal mechanism for validating the Core Capabilities. Jurisdictions can receive technical assistance and support from subject matter experts. www.fema.gov/national-exercise-program
- **Homeland Security Digital Library:** A collection of documents related to homeland security policy, strategy, and organizational management. www.hsdl.org

### Mission Area

**Description**

Delay, divert, intercept, halt, apprehend, or secure threats and/or hazards.

1. Deter, detect, interdict, and protect against domestic and transnational criminal and terrorist activities that threaten the security of the homeland across key operational activities and critical infrastructure sectors.

2. Intercept the malicious movement and acquisition/transfer of chemical, biological, radiological, nuclear, and explosive (CBRNE) materials and related technologies.

### Training

Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at [www.firstrespondertraining.gov/frt/npcatalog](http://www.firstrespondertraining.gov/frt/npcatalog).

<table>

BUILD AND SUSTAIN THE CORE CAPABILITY

SCREENING, SEARCH, AND DETECTION

MISSION AREA

PREVENTION    PROTECTION    MITIGATION    RESPONSE    RECOVERY

Description

Identify, discover, or locate threats and/or hazards through active and passive surveillance and search procedures. This may include the use of systematic examinations and assessments, biosurveillance, sensor technologies, or physical investigation and intelligence.

1. Screen cargo, conveyances, mail, baggage, and people using information-based and physical screening technology and processes.
2. Detect WMD, traditional, and emerging threats and hazards of concern using:
   a. A laboratory diagnostic capability and the capacity for food, agricultural (plant/animal), environmental, medical products, and clinical samples
   b. Biosurveillance systems
   c. CBRNE detection systems
   d. Trained healthcare, emergency medical, veterinary, and environmental laboratory professionals

Training

Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at www.firstrespondertraining.gov/frt/npcatalog.

BUILD AND SUSTAIN THE CORE CAPABILITY

MISSION AREA

Description

Protect (and, if needed, restore) electronic communications systems, information, and services from damage, unauthorized use, and exploitation.

1. Implement risk-informed guidelines, regulations, and standards to ensure the security, reliability, integrity, and availability of critical information, records, and communications systems and services through collaborative cybersecurity initiatives and efforts.

2. Implement and maintain procedures to detect malicious activity and to conduct technical and investigative-based countermeasures, mitigations, and operations against malicious actors to counter existing and emerging cyber-based threats, consistent with established protocols.

Training

Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at [www.firstrespondertraining.gov/frt/npcatalog](http://www.firstrespondertraining.gov/frt/npcatalog).

The National Preparedness Goal defines the 32 Core Capabilities and can be found at [http://www.fema.gov/national-preparedness-goal](http://www.fema.gov/national-preparedness-goal). Updated: 11/05/19
**Capability Targets**

Communities use standardized language to set targets that reflect the level of capability they plan to build and sustain. Communities use the same standardized language to measure how much capability they have. The standardized target for this Core Capability is provided below.

```
Every (#) (time), appropriate authorities review and update cyber incident plans/annexes based on evolving threats covering (#) publicly managed and/or regulated critical infrastructure facilities.
```

**Resource Types**

The Resource Typing Library Tool (https://rtlt.preptoolkit.fema.gov) is a searchable database of national resource typing definitions and position qualifications, which can be sorted by primary capability. Examples for this Core Capability are below.

<table>
<thead>
<tr>
<th>NAME</th>
<th>TYPE</th>
<th>CATEGORY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cyber Incident Response Team</td>
<td>Resource Typing Definition</td>
<td>Cybersecurity</td>
</tr>
<tr>
<td>Computer Network Defense Analyst</td>
<td>Job Title/Position Qualification</td>
<td>Cybersecurity</td>
</tr>
</tbody>
</table>

**Partners**

Responsibility for capabilities is often shared between many partner organizations, including federal, state, local, tribal, territorial, international and the private sector. More information is available in the National Protection Framework at [www.fema.gov/media-library/assets/documents/117782](http://www.fema.gov/media-library/assets/documents/117782).

- **Cyber Security Advisors**—Regionally located Department of Homeland Security personnel that offer immediate and sustained assistance to prepare and protect state, local, tribal, territorial, and private entities to promote resilience of key cyber infrastructures.
- **Multi-State Information Sharing & Analysis Center**—Improve the overall cyber security posture of state, local, tribal, territorial, and private governments.
- **State and Major Urban Area Fusion Centers**—Focal points for the receipt, analysis, gathering, and sharing of threat-related information between partners.

**Validating**

Exercises and real-world events validate capabilities and are opportunities to identify areas of success or needs for improvement. Tools to validate your capabilities include:

- **Cyber Storm Exercise Series**: Strengthens cyber preparedness in the public and private sectors. [https://www.dhs.gov/cyber-storm](https://www.dhs.gov/cyber-storm). To participate, contact CEP@hq.dhs.gov.
- **Homeland Security Exercise and Evaluation Program**: Fundamental principles that frame a common approach. [https://preptoolkit.fema.gov/web/hseep-resources](https://preptoolkit.fema.gov/web/hseep-resources).
- **National Exercise Program**: The principal mechanism for validating the Core Capabilities. Jurisdictions can receive technical assistance and support from subject matter experts. [www.fema.gov/national-exercise-program](http://www.fema.gov/national-exercise-program).

**Additional Information**

- National Cyber Awareness System: [www.us-cert.gov/ncas](http://www.us-cert.gov/ncas)

For more Core Capability Development Sheets, visit [www.fema.gov/fema-technical-assistance-program](http://www.fema.gov/fema-technical-assistance-program).
Description
Implement and maintain risk-informed countermeasures and policies protecting people, borders, structures, materials, products, and systems associated with key operational activities and critical infrastructure sectors.

1. Identify, assess, and mitigate vulnerabilities to incidents through the deployment of physical protective measures.
2. Deploy protective measures commensurate with the risk of an incident and balanced with the complementary aims of enabling commerce and maintaining the civil rights of citizens.

Training
Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at www.firstrespondertraining.gov/frt/npccatalog.

The National Preparedness Goal defines the 32 Core Capabilities and can be found at http://www.fema.gov/national-preparedness-goal.
BUILD AND SUSTAIN THE CORE CAPABILITY

Capability Targets
Communities use standardized language to set targets that reflect the level of capability they plan to build and sustain. Communities use the same standardized language to measure how much capability they have. Not all standardized targets may be required for all communities. The standardized target for this Core Capability is provided below.

> Within (#) (time) of completing a risk and vulnerability assessment, appropriate authorities review and update physical security plans covering (#) publicly managed and/or regulated critical infrastructure facilities to incorporate new information from the assessment.

Resource Types
The Resource Typing Library Tool (https://rtlt.preptoolkit.fema.gov) is a searchable database of national resource typing definitions and position qualifications, which can be sorted by primary capability. An example for this Core Capability is below.

<table>
<thead>
<tr>
<th>NAME</th>
<th>TYPE</th>
<th>CATEGORY</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mobile Field Force</td>
<td>Resource Typing Definition</td>
<td>Law Enforcement Operations</td>
</tr>
</tbody>
</table>

Partners
Responsibility for capabilities is often shared between many partner organizations, including federal, state, local, tribal, territorial, international and the private sector. More information is available in the National Protection Framework at www.fema.gov/media-library/assets/documents/117782.

- Key strategic personal protective equipment providers—Manufacturers and distributors of security, medical, and safety resources.
- Protective Security Advisors—Regionally located Department of Homeland Security subject matter experts who engage with stakeholders to protect the Nation’s critical infrastructure.
- State law enforcement, local law enforcement, and public safety offices—Valuable information and data, specialized resources, threat assessments, and subject matter experts.

Validating
Exercises and real-world events validate capabilities and are opportunities to identify areas of success or needs for improvement. Tools to validate your capabilities include:

- **Homeland Security Exercise and Evaluation Program**: Fundamental principles that frame a common approach. [https://preptoolkit.fema.gov/web/hseep-resources](https://preptoolkit.fema.gov/web/hseep-resources)
- **National Exercise Program**: The principal mechanism for validating the Core Capabilities. Jurisdictions can receive technical assistance and support from subject matter experts. [www.fema.gov/national-exercise-program](http://www.fema.gov/national-exercise-program)
- **Homeland Security Digital Library**: A collection of documents related to homeland security policy, strategy, and organizational management. [www.hsdl.org](http://www.hsdl.org)

Additional Information
- Protective Security Advisor Program: [www.dhs.gov/protective-security-advisors](http://www.dhs.gov/protective-security-advisors)

BUILD AND SUSTAIN THE CORE CAPABILITY

RISK MANAGEMENT FOR PROTECTION PROGRAMS AND ACTIVITIES

MISSION AREA

PREVENTION  PROTECTION  MITIGATION  RESPONSE  RECOVERY

Description

Identify, assess, and prioritize risks to inform Protection activities, countermeasures, and investments.

| 1. Ensure critical infrastructure sectors and Protection elements have and maintain risk assessment processes to identify and prioritize assets, systems, networks, and functions. | 2. Ensure operational activities and critical infrastructure sectors have and maintain appropriate threat, vulnerability, and consequence tools to identify and assess threats, vulnerabilities, and consequences. |

Training

Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at www.firstrespondertraining.gov/frt/npcatalog.

<table>
<thead>
<tr>
<th>COURSE</th>
<th>DELIVERY</th>

For more Core Capability Development Sheets, visit www.fema.gov/fema-technical-assistance-program.
**SUPPLY CHAIN INTEGRITY AND SECURITY**

**MISSION AREA**

**Description**

Strengthen the security and resilience of the supply chain.

1. Secure and make resilient key nodes, methods of transport between nodes, and materials in transit.

**Training**

Build or sustain this Core Capability with the example trainings below. Additional trainings for this Core Capability can be found at [www.firstrespondertraining.gov/frt/npcatalog](http://www.firstrespondertraining.gov/frt/npcatalog).

<table>
<thead>
<tr>
<th>COURSE</th>
<th>DELIVERY</th>
<th>DURATION</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGT-447: Managing Food Emergencies: Strategies for a Community Response</td>
<td>Mobile/Non-Resident</td>
<td>16 Hours</td>
