## COMMUNITY ASSISTANCE PROGRAM – STATE SUPPORT SERVICES ELEMENT

Projected Flood Insurance Rate Map  
Effective Dates in Wyoming\*

\*Currently includes both participating and non-participating communities from Multi-Year Flood Hazard Identification Plan (MHIP) sequencing, Version 1.5, June 2005.

### PURPOSE

This report is an outcome of the review of the Federal Fiscal Year (FY) 2005-2009 Floodplain Management Work Plans by the Department of Homeland Security's Federal Emergency Management Agency (FEMA). It is intended to show the relationship of Community Assistance Program – State Support Services Element (CAP-SSSE) activities, and resource allocation, the State is undertaking in response to the flood mapping production schedule of Flood Map Modernization, and to highlight the efforts that are underway to achieve the flood loss reduction goals of the National Flood Insurance Program (NFIP).

### STATE VISION FOR FLOODPLAIN MANAGEMENT

The goal of the State is to reduce the risk to life, property, and protect communities and environment from flood loss through sound floodplain management.

### STATE FLOODPLAIN MANAGEMENT AUTHORITY

In partnership with FEMA and the Code of Federal Regulations 44, this State is achieving the flood loss goals of the NFIP. Additionally, through the National Flood Insurance Act of 1968, as amended;

42 U.S.C. 4001et seq.; Flood Disaster Protection Act of 1973, as amended; 42 U.S.C. 40002 et seq.; and National Flood Insurance Reform Act of 1994, the CAP-SSSE provides this State additional authority.

### SIGNIFICANT ACCOMPLISHMENTS, STRENGTHS, OR SUCCESS STORIES OF THE FLOODPLAIN MANAGEMENT PROGRAM

A goal of the Wyoming Office of Homeland Security/Emergency Management (WOHS/EM) is to provide assistance to communities after a disaster. This agency has procedures in place to assist communities after a flood. During the last flood in Kaycee, Wyoming, WOHS/EM representatives responded within hours. With the assistance of the FEMA Region VIII Office, the WOHS/EM conducted a Preliminary Damage Assessment on the community. An in-depth checklist was completed to ensure all critical tasks were addressed. Additionally, WOHS/EM has a traveling kit/equipment to assist the team—Advance Wyoming Assessment and Recovery Team (AWAY Team). After each event, the AWAY Team is deployed to the disaster, a “hot wash” is conducted to learn, pass-on, and improve the process.

# Wyoming Five-Year Plan Summary

## COMMUNITY ASSISTANCE PROGRAM – STATE SUPPORT SERVICES ELEMENT

This procedure has worked well in the past and WOHS/EM will continue with the process.

### SIGNIFICANT COOPERATIVE EFFORTS WITH FEDERAL, STATE, OR LOCAL PARTNERS IN SUPPORT OF FLOODPLAIN MANAGEMENT

Joining forces with the Wyoming State Geological Survey team, the WOHS/EM are assisting communities throughout the State at

a mid-level participation. WOHS/EM are performing a majority of the mapping needs assessment and assisting with outreach, and community coordination on mapping projects. As funds become available, the State of Wyoming, through the Wyoming State Geological Survey, will assist in Map Modernization Management Support activities.
