- One exercise session each week
- Team AAR

OBJECTIVES

- Log in
- Messaging within the COG
- Open an incident
- Update an incident
- Post an incident
- Generate a SNR
- Use the mapping tool

JOHNSTOWN IEOC DMIS INDIVIDUAL TRAINING SESSION 1 OF 4

Log on to DMIS with your assigned password.

Message to Paul Neatrou that are signed on and ready to begin the exercise.

Paul will acknowledge your message.

You will authenticate with your initials in all caps.

STOP

Task 1

A severe weather advisory is issued for all of Cambria County. Heavy snow is anticipated form 1700 until 0600.

Create an incident report to begin a log of incidents related to a winter storm. Use your initials and a number to label the incident.

Message to Paul that you have completed task 1 and are ready for task 2.

Task 2

The previous weather advisory is changed to a winter warning effective midnight until 0600.

Update the previous incident report with this new information using the journal.

Message to Paul that you are ready for task 3.

Task 3

Cambria County 911 received a call reporting carbon monoxide detected at the Housing Authority apartments in the Eighth Ward.

Create a new incident and locate the apartment building on the mapping tool. The location is 300 Osborne Street, 15905. Message to Paul that you are ready for task4.

Task 4

The carbon monoxide in the above task has been verified. Twenty three people must be evacuated.

Update the incident recorded in task 3 using the casualty tool. Message to Paul that you are ready for task 5.

Task 5

Word is received from the on scene commander that two of the people will require ambulance transport. The rest are ambulatory.

Update the incident recorded in task 3 and message to Paul Neatrou that ambulance support will have to be requested.

Use the casualty tool and the additional information tool. Message to Paul that you are ready for task 6.

Task 6

Draw an evacuation route on the map to the East Side Elementary School gym. East Side is located at Messenger and Pine.

Don't use the Horner Street Bridge. Update the map, put a symbol at the elementary school and at the apartment building.

Also label the route as route Trojan.

Update the incident with this route and map information. Notify Paul by message that you have completed the exercise, log out, and report to the conference room for an After Action Review (AAR).

ENDEX SESSION 1
