

# EMERGENCY PREPAREDNESS INTEGRATION INTO THE COMMUNITY

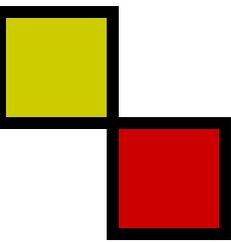

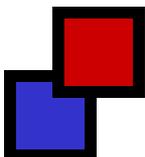

A MADISON AREA TECHNICAL COLLEGE  
VISION

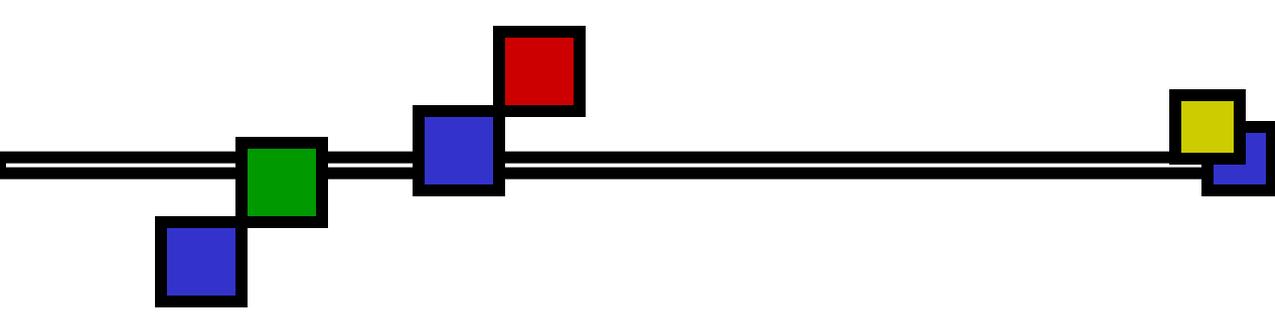

Kathleen Sellnow Emergency Preparedness  
Project Director

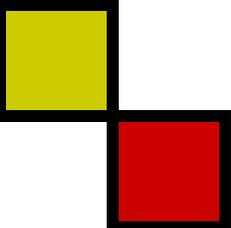

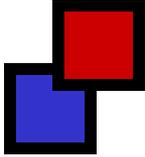

# Vision Statement

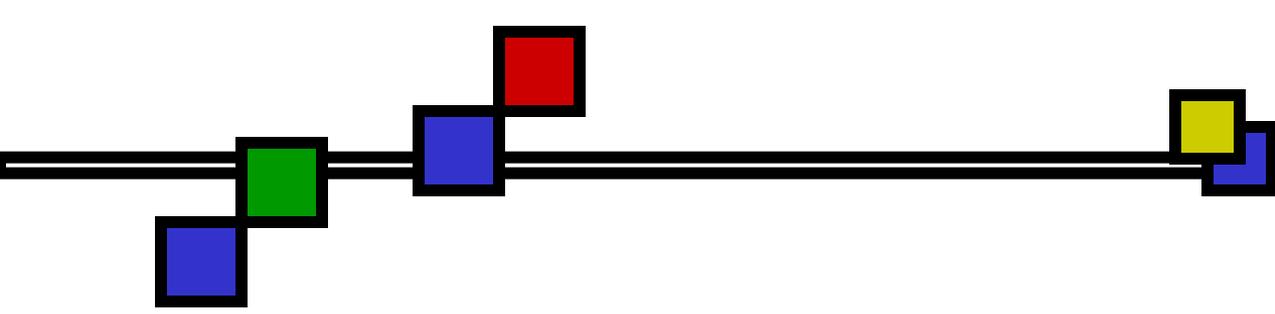

- MATC is identified as the leading provider of emergency preparedness training and education for our community.
  - Our training and education integrates the unified coordinated approach based on partnerships and collaborative relationships with our stakeholders.
- 

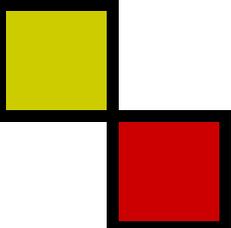

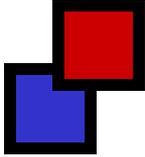

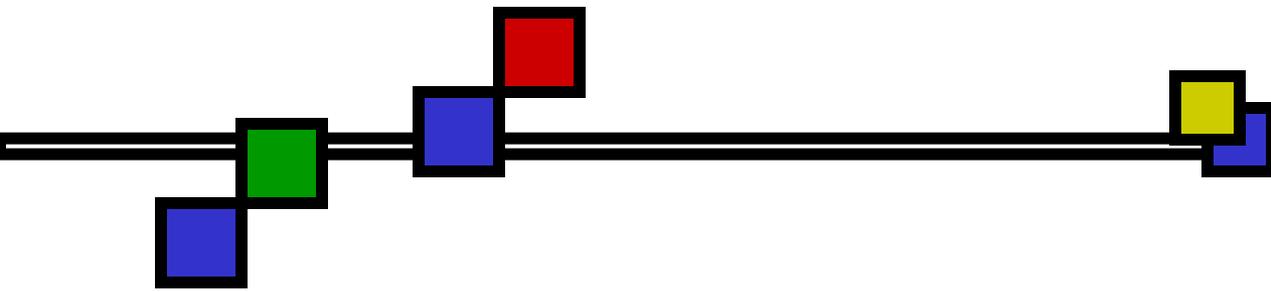

# Today's Situation

- 
- Second largest technical college in Wisconsin
  - Serves approx 50,000 students annually
  - Seven Campuses across 5 counties
  - 104 Programs including Health, Public Safety, Agriculture (only Vet Tech Program in the state), Bitotechnology, Electron Microscopy, Transportation and Cybersecurity
- 

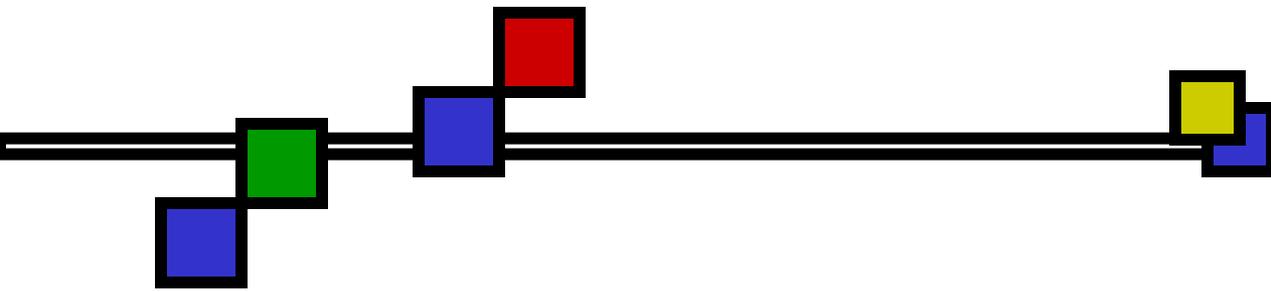

# Changing Times

- 
- Increasingly Diverse Population
  - Aging Population
  - Threat of Terrorism and Natural Disasters
  - Need for higher levels of education
  - Need to integrate training
  - Need to integrate college resources with the community
- 

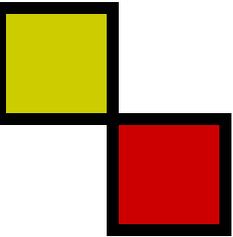

# PHASE ONE

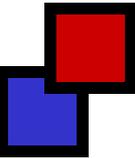

- CERT – Community Emergency Response Team Training
- NIMS/Incident Command Training
- Multi-Hazards in the School Training
- Protective Services WMD/Bioterrorism Training
- Network and IT Security Training

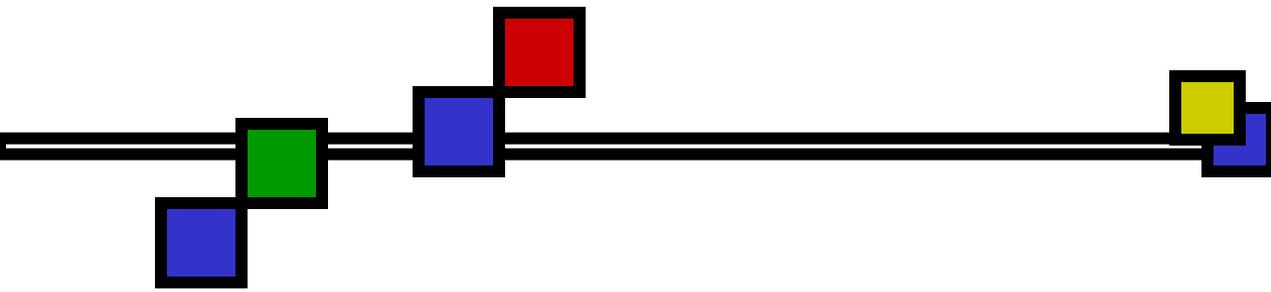

# PHASE TWO

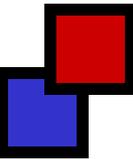

- Rescue Medic Certificate
- Incident and Disaster Preparedness Training – Transportation, Biotech, Agri-Science, Business and Health Programs
- Fuel Safety and Protection, Rapid Detection and Reporting of Hazards in Transportation
- Unusual Truck or trailer Operations or Modifications
- Infectious Disease Awareness and Monitoring- including Zoonotic Disease

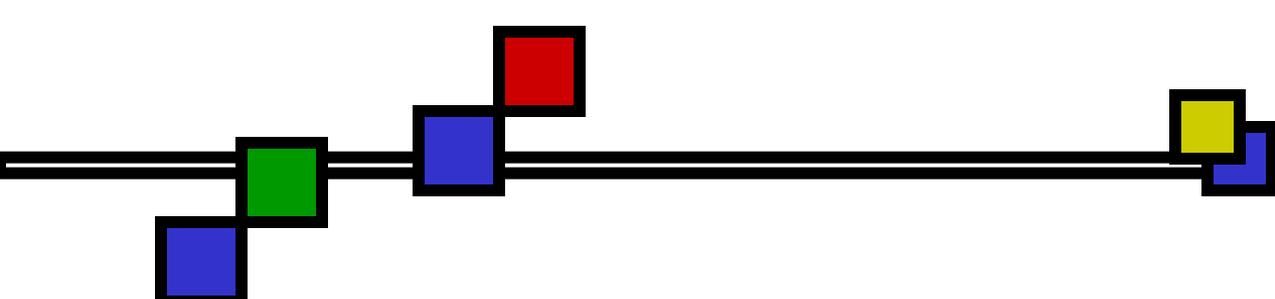

## PHASE THREE

- Health Information Management System
- Emergency Communications
- Failure Analysis and Imaging – EM
- Failure Analysis including Catastrophic and Casual Part Analysis
- Forensic Applications of Molecular Technologies

# What does MATC need to do?

- To continue our commitment to serving the community
  - To expand and modernize our education and training facilities
  - To integrate emergency preparedness curriculum across disciplines
  - To be a leader in “Best Practices”
-
