DMIS Special Interest Group

DMIS New Features, DMIS Tools 2.2

Presenter Tom Ferrentino
(540) 288-5615
ferrentinot@battelle.org

New Features

- Quick Start Screen
- Save a Copy
- Most Recently Used (MRU) List
- Distribution Lists
- Map symbols follow FGDC & HSWG standards *
- CAP Alerts

- FGDC – Federal Geographic Data Committee
- * HSWG – Homeland Security Working Group

Quick Start Menu

When you have the need for speed!

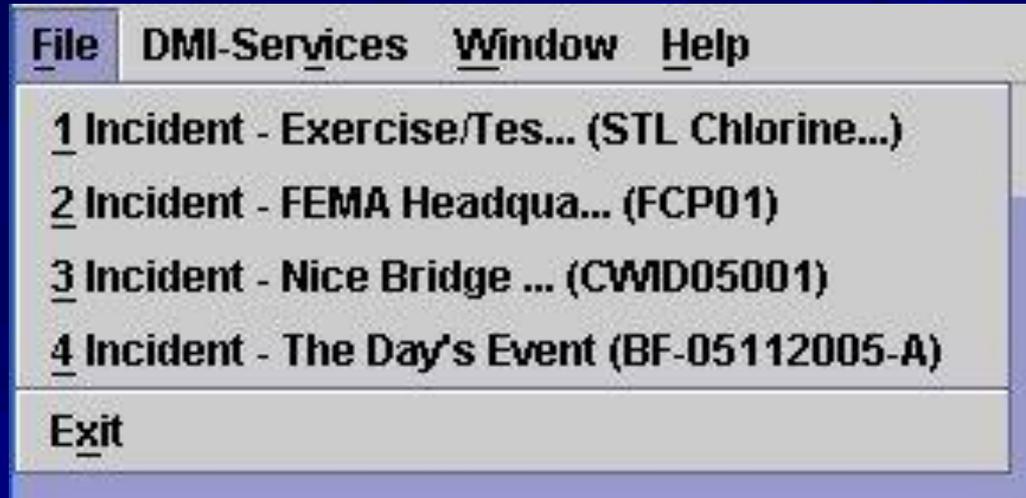

Copy an Incident Record

To save a copy of an existing Incident Record:

1. Open the selected Incident Record in DMI-Services.
2. Select **Save Copy** from the **File** drop-down menu. DMI-Services will display a **Save Copy** dialog box to allow the Operator to specify the name of the copied file and **Save** or **Cancel** the file.
3. Click the **Save** button to save the copied incident record, or click **Cancel** to cancel the process. Once saved, a confirmation window will display.
4. Click the **OK** button to acknowledge the Incident has been copied.

Most Recently Used List

To use the **MRU List**:

1. Select the **File** drop-down menu to display the **MRU List**. The **MRU List** displays the four most recently used Incidents or Alerts, showing the most recent item first.
2. Click on the desired Incident or Alert from the MRU List. The selected Incident or Alert displays on the screen for viewing and/or editing.

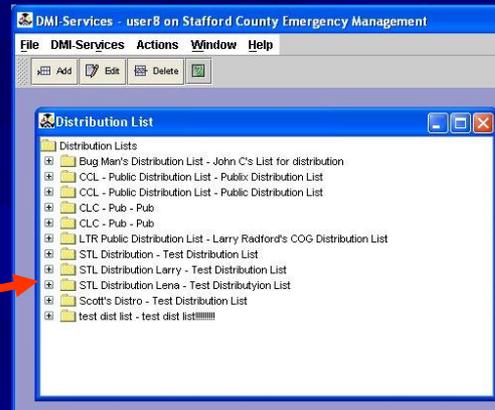

Distribution Lists

View a Distribution List

1. Select **Disaster Management Tools** from the **DMI-Services** menu, then select **Distribution List**.

2. The **Distribution List** screen appears.

3. To view all the COGs within a given **Distribution List**, select the expand icon (the small plus-sign) adjacent to the folder icon and name of the **Distribution List**. This bulleted list of **COGs** will display vertically beneath the **Distribution List Name**.

Map Symbols according to FGDC and HSWG Standards

Groupname	Old Symbol Name	ID	Old Image	New Image	HSWG Symbol Name	Comments
Medical	EMS Station	3101			EMT Station Location	
Medical	EMS Unit	3100			Ambulance	
Medical	Hospital	3102			Hospital	
Medical	Evacuation Area	3103			Medical Evacuation Helicopter Station	
Medical	Triage Area	3104			Triage	
Medical	Morgue	3105			Morgue	
Incident	Incident Location	3201			N/A	Doesn't exist in HSWG.
Incident	Multi-Incident Location	3202			N/A	Doesn't exist in HSWG.
Incident	Emergency Operations Center	3203			Emergency Operations Center	
Incident	Incident Command Post	3204			Emergency Incident Command Center	
Incident	Command Post	3205			N/A	Doesn't exist in HSWG.
Incident	Headquarters	3206			N/A	Doesn't exist in HSWG.

Map Symbols according to FGDC and HSWG Standards

Groupname	Old Symbol Name	ID	Old Image	New Image	HSWG Symbol Name	Comments
Incident	Landing Zone	3214			Helicopter Landing Site	
Incident	Meal Area	3215			Emergency Food Distribution Center	
Incident	Rest Area	3216			N/A	Doesn't exist in HSWG.
Hazard	Biological	3402			Toxic and Infectious	
Hazard	Radiation	3401			Radioactive Material	
Hazard	Explosion	3403			Explosive	
Hazard	HAZMAT	3407			Hazardous Material Incident	
Hazard	Civil Support Team	3405			Emergency Teams	
Hazard	Decon Point	3406			N/A	Doesn't exist in HSWG.
Police/Fire	Fire Unit	3000			Fire Suppression Operation	DMIS symbol is different from HSWG.
Police/Fire	Fire Station	3001			Fire Station	DMIS symbol is different from HSWG.

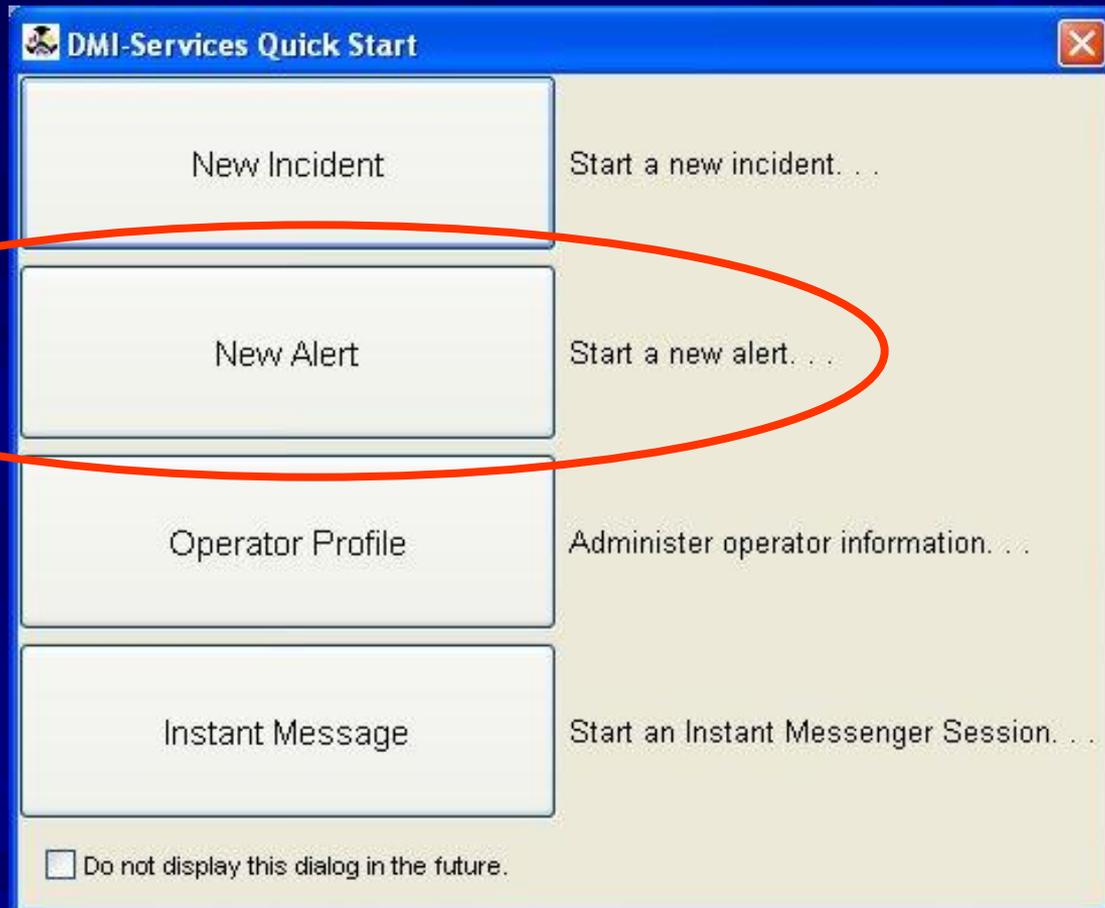

Map Symbols according to FGDC and HSWG Standards

Groupname	Old Symbol Name	ID	Old Image	New Image	HSWG Symbol Name	Comments
Police/Fire	Fire Hydrant	3002			Fire Hydrant	
Police/Fire	Police Unit	3015			Police	
Police/Fire	Police Station	3016			N/A	Doesn't exist in HSWG.
Police/Fire	Road Block	3026			N/A	Doesn't exist in HSWG.
Infrastructure	Public Works	3025			Water Supply Infrastructure	
Infrastructure	School	3301			School	
Infrastructure	Church	3302			Religious Institution	
Infrastructure	Shelter	3303			Emergency Shelter	DMIS symbol is different from HSWG.
Infrastructure	Property Damage	3304			N/A	Doesn't exist in HSWG.

Common Alerting Protocol (CAP)

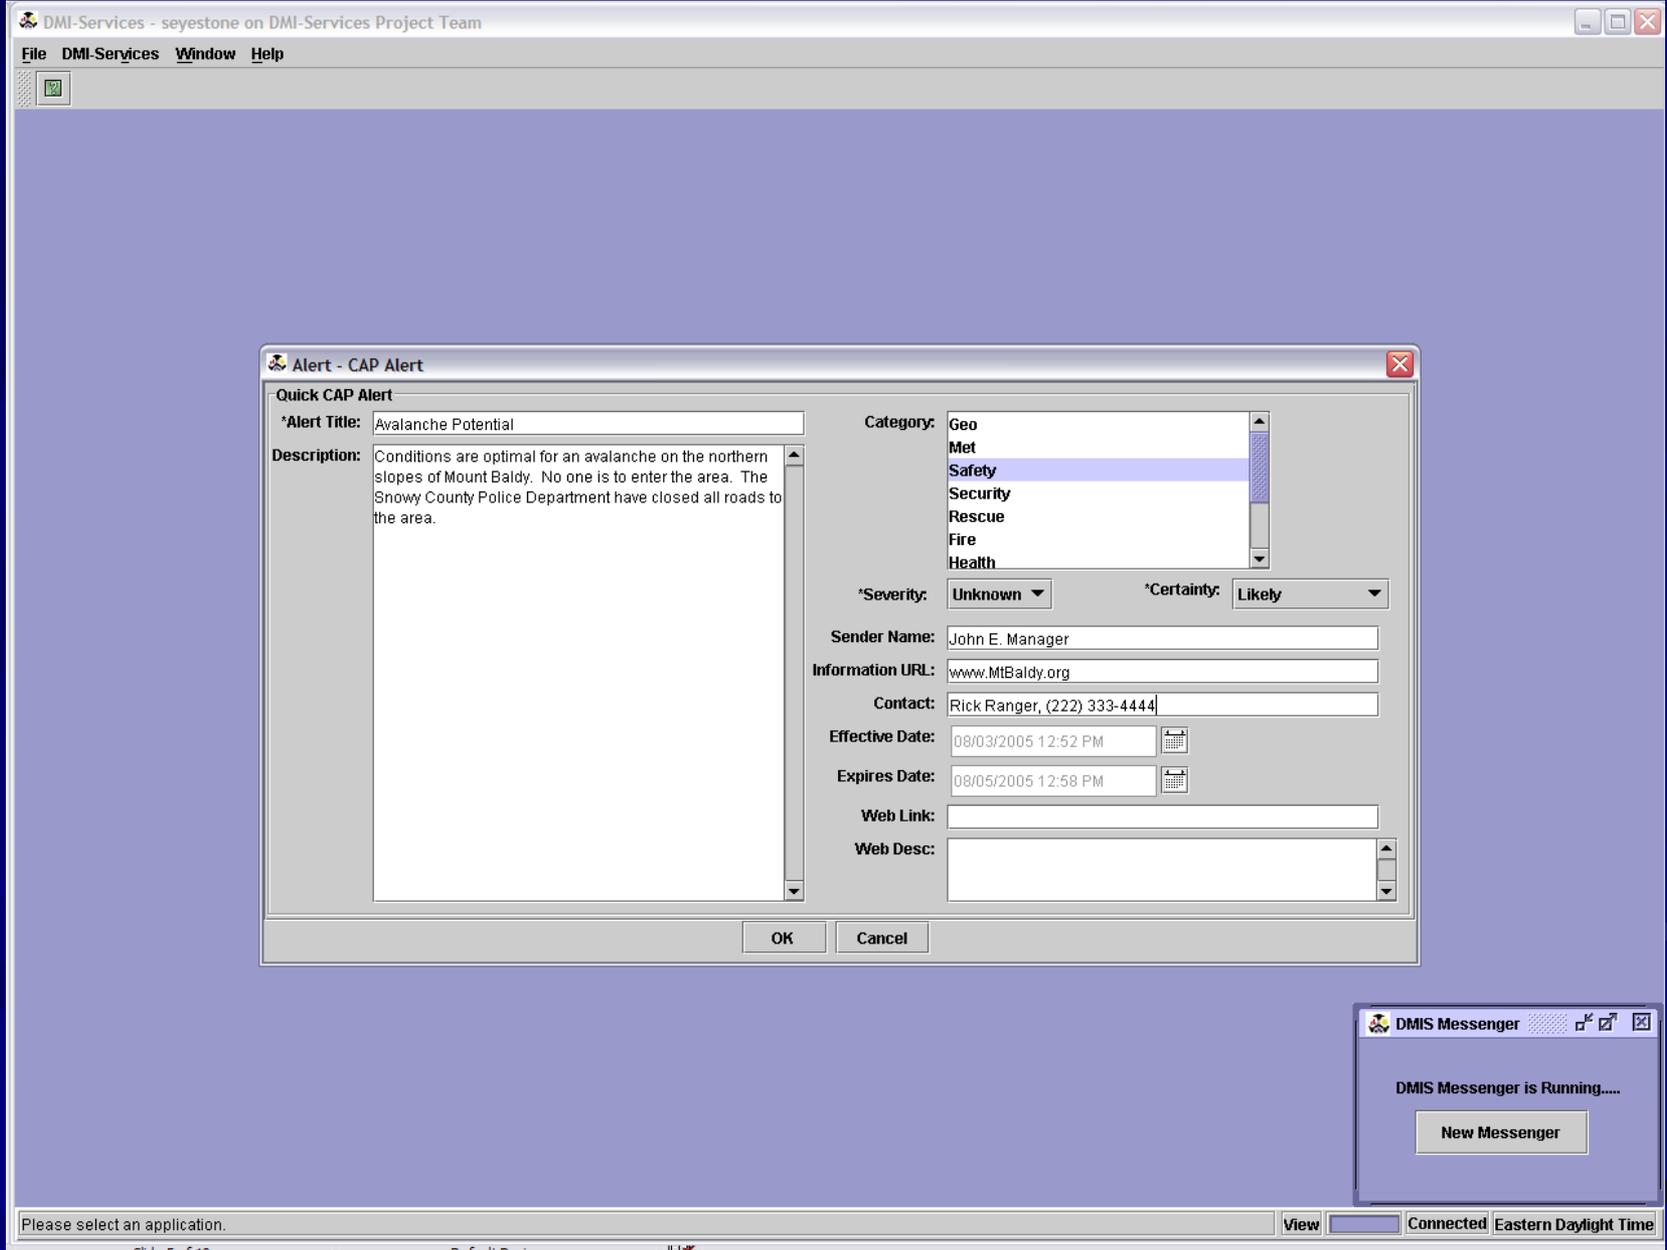

- Universal data format for exchanging all-hazard emergencies
- One warning message disseminated over multiple warning systems
- Help emergency personnel respond more efficiently and effectively
- Major step in bridging the communication gap among agencies at all levels

Generating a Full CAP Alert Authoring

The screenshot shows the 'DMI-Services - seystone on DMI-Services Project Team' application window. The 'File' menu is open, and the 'New' button is circled in red. A red arrow points from the 'New' button to the text 'Select the "New" button'. Below the menu, the 'Alerts List' is visible, featuring a table with columns for COG, Ver., Name, Sent/Created, Status, Scope, and Type. The table contains numerous alert entries. At the bottom of the window, the 'Posted To' section is visible, showing a 'COG Name' field.

Select the "New" button
