1-877-336-1839

Access Code: 8242672#

Agenda

- **Introductions**
- **Purpose**
- **Alerts**
- **Workflow**

DISASTER MANAGEMENT
INTEROPERABILITY SERVICES

Introductions

- **Carmen Graver**
- **Vanessa Dover**
- **Analyst Team Overview**

Purpose

- **To discuss Alerts and gather ideas from Operators so that we can:**
 - **Improve the interface for Alerts**
 - **Make Alerts easy and quick to enter**
 - **Make Alert navigation intuitive**
 - **Ensure CAP 1.1 compliance**

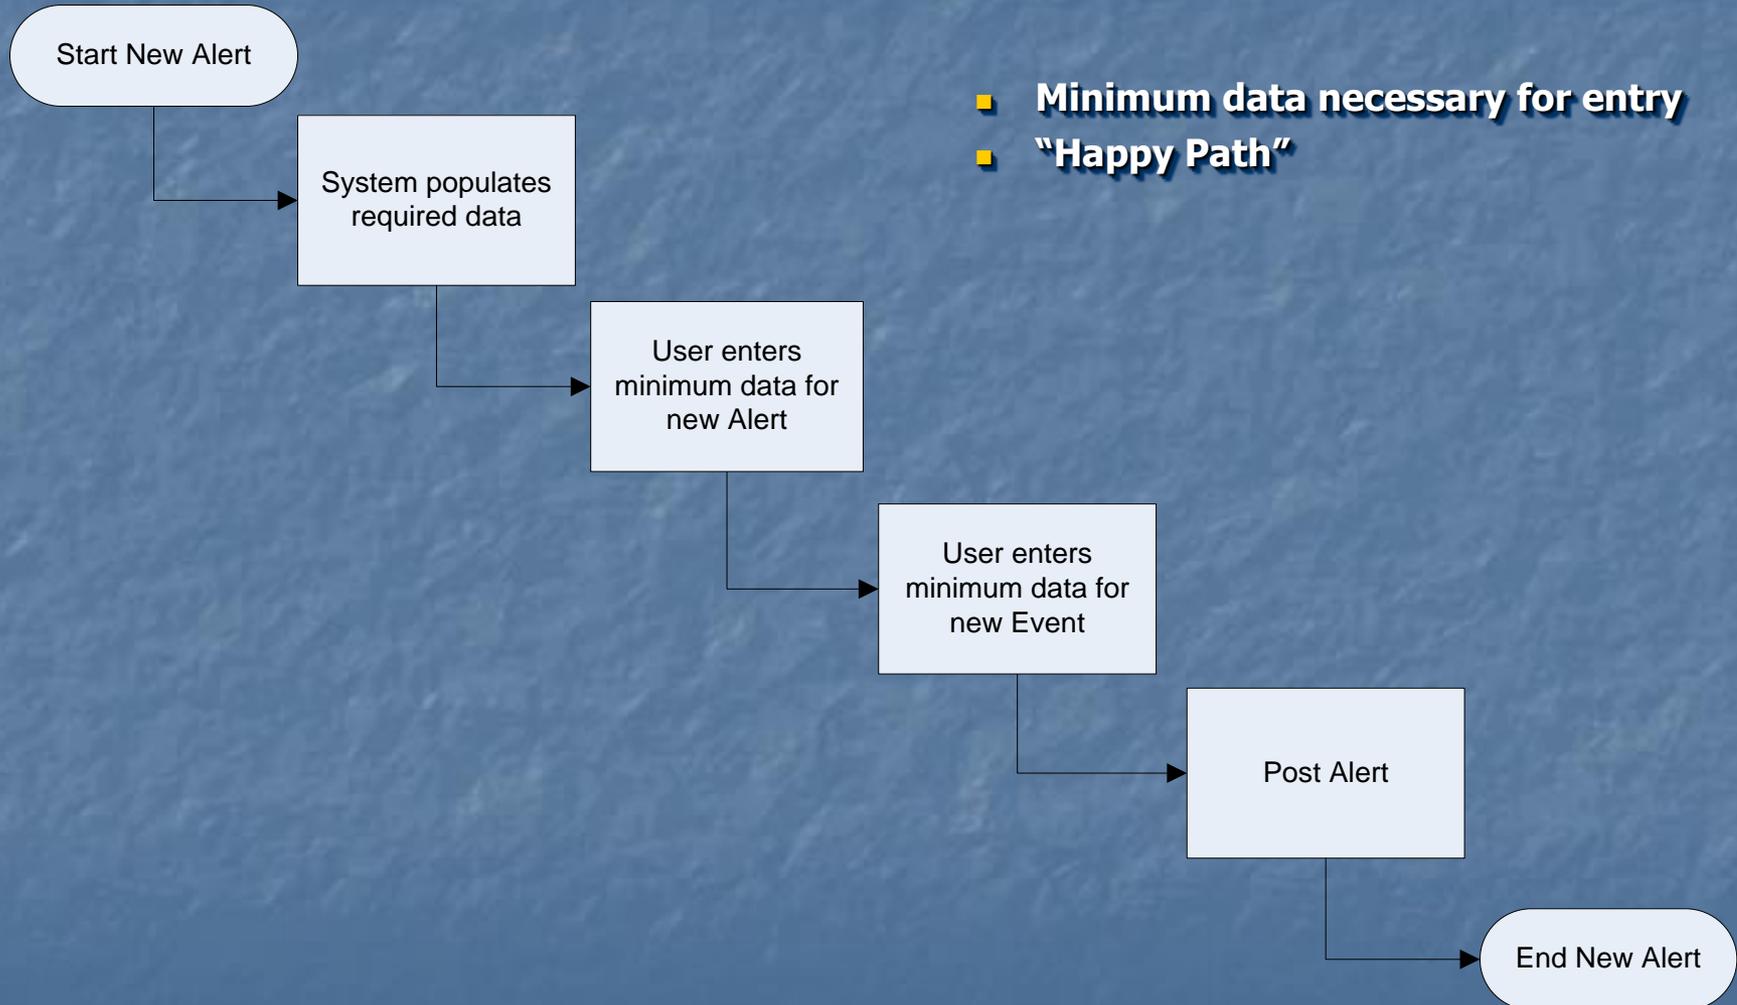

Alerts

- **What information do you need to quickly create an Alert?**
- **Business Rules and/or Wizards - Pros & Cons?**
- **New Alert Workflow Review**

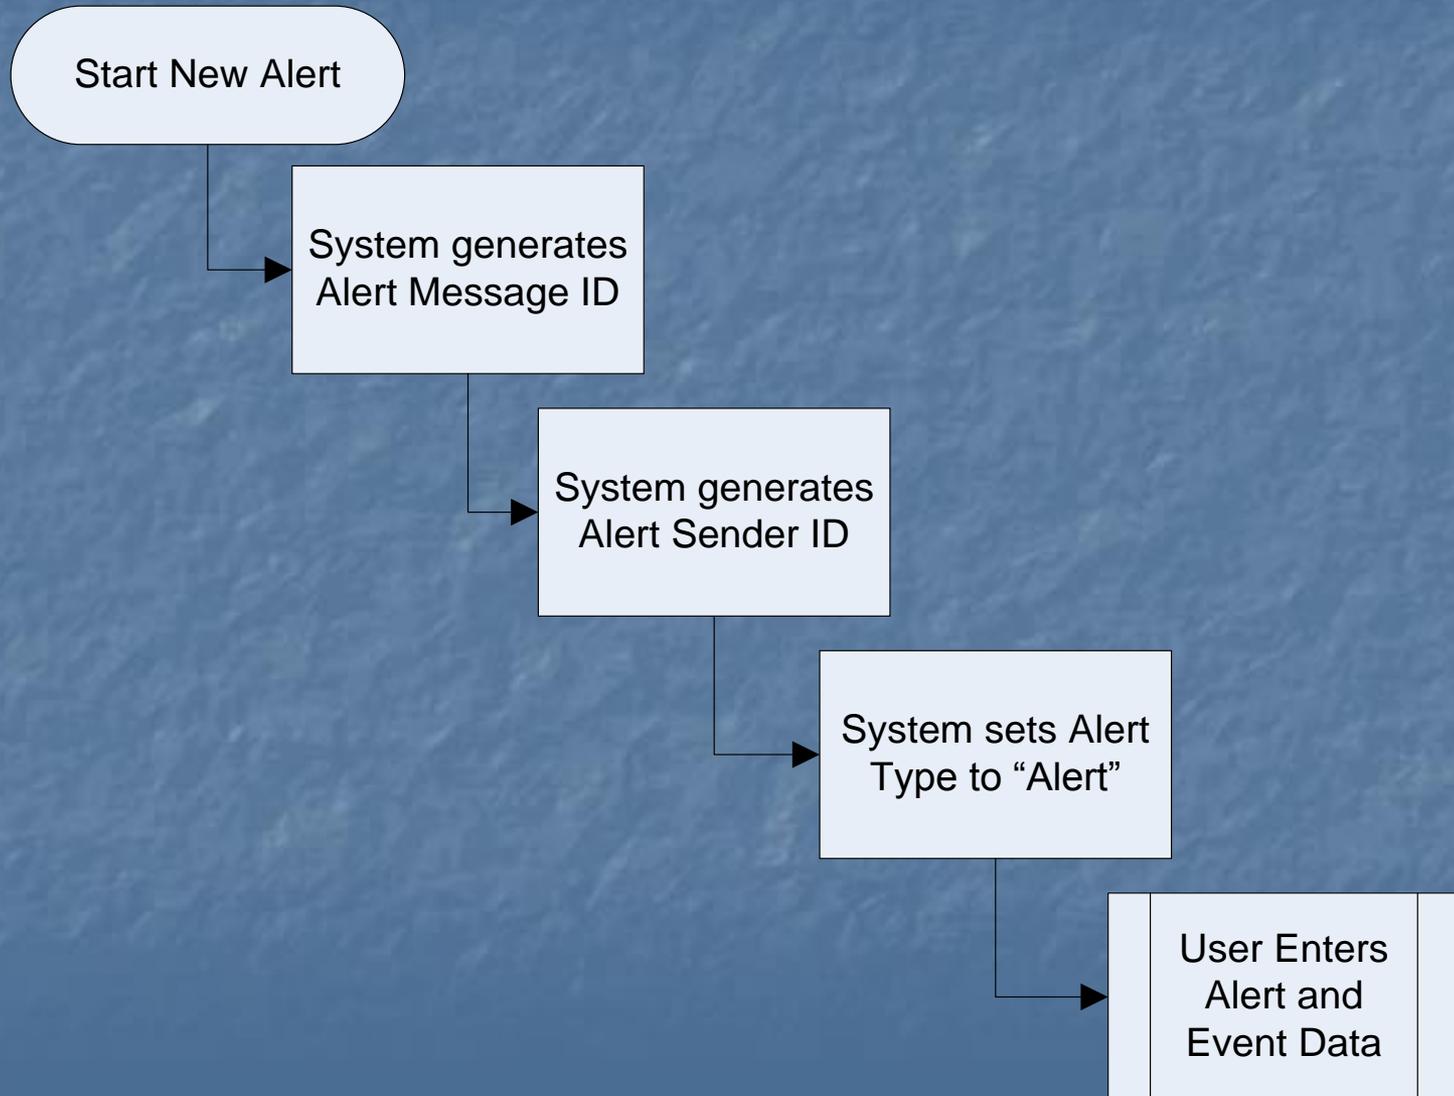

Create New Alert – Draft Workflow

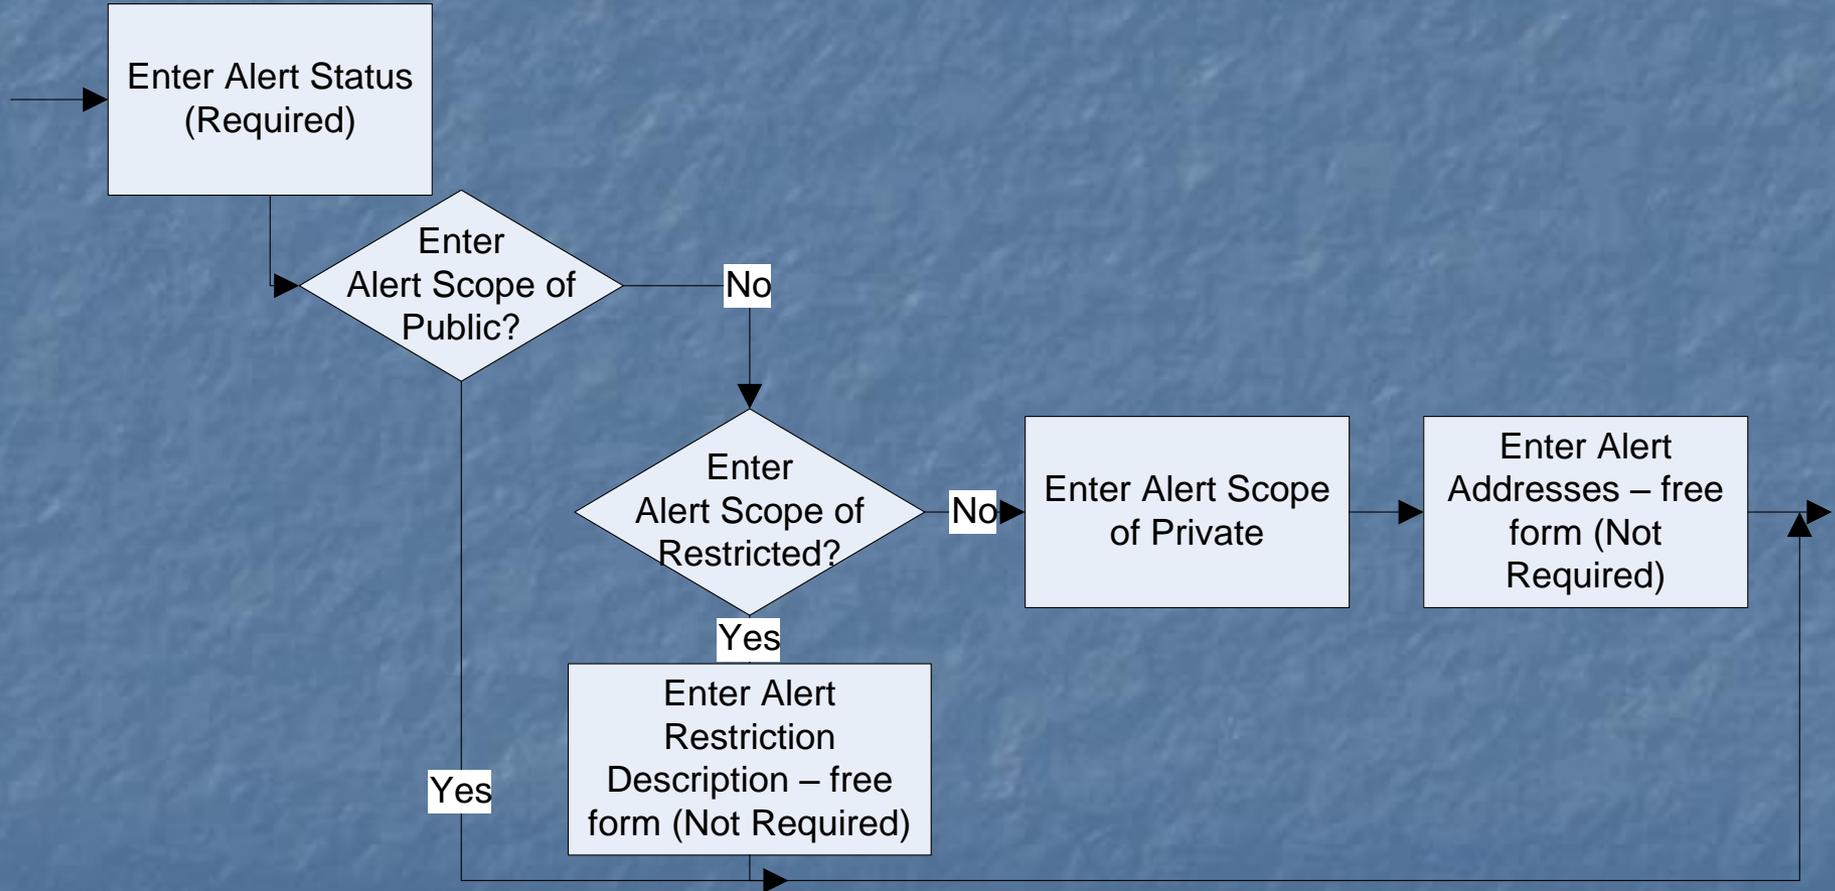

System Populates Required Data

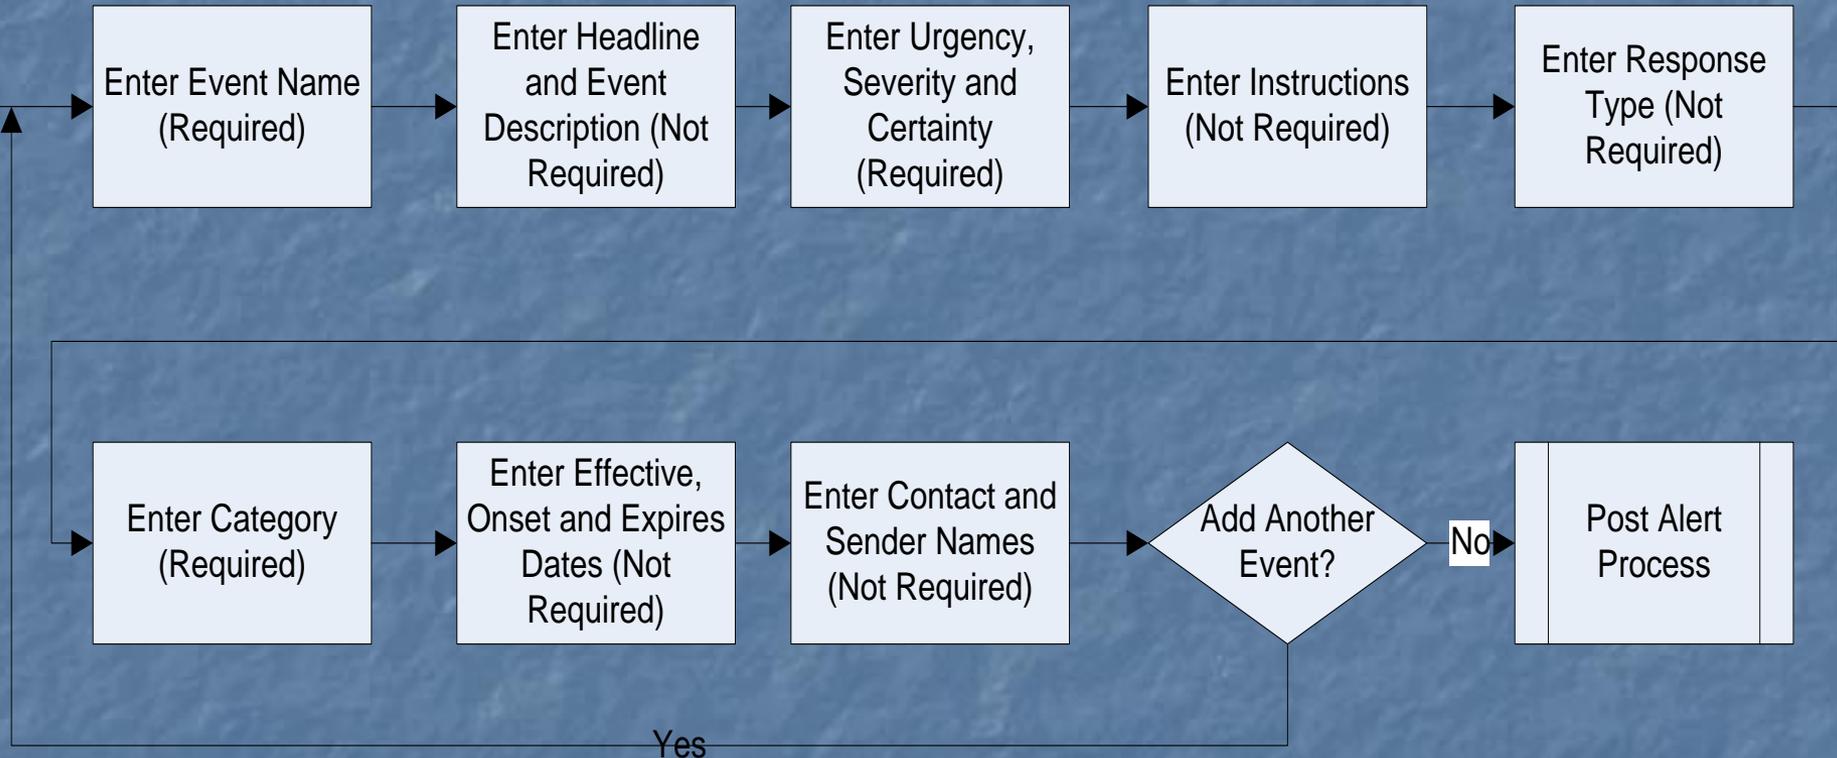

Operator enters minimum data for new Alert

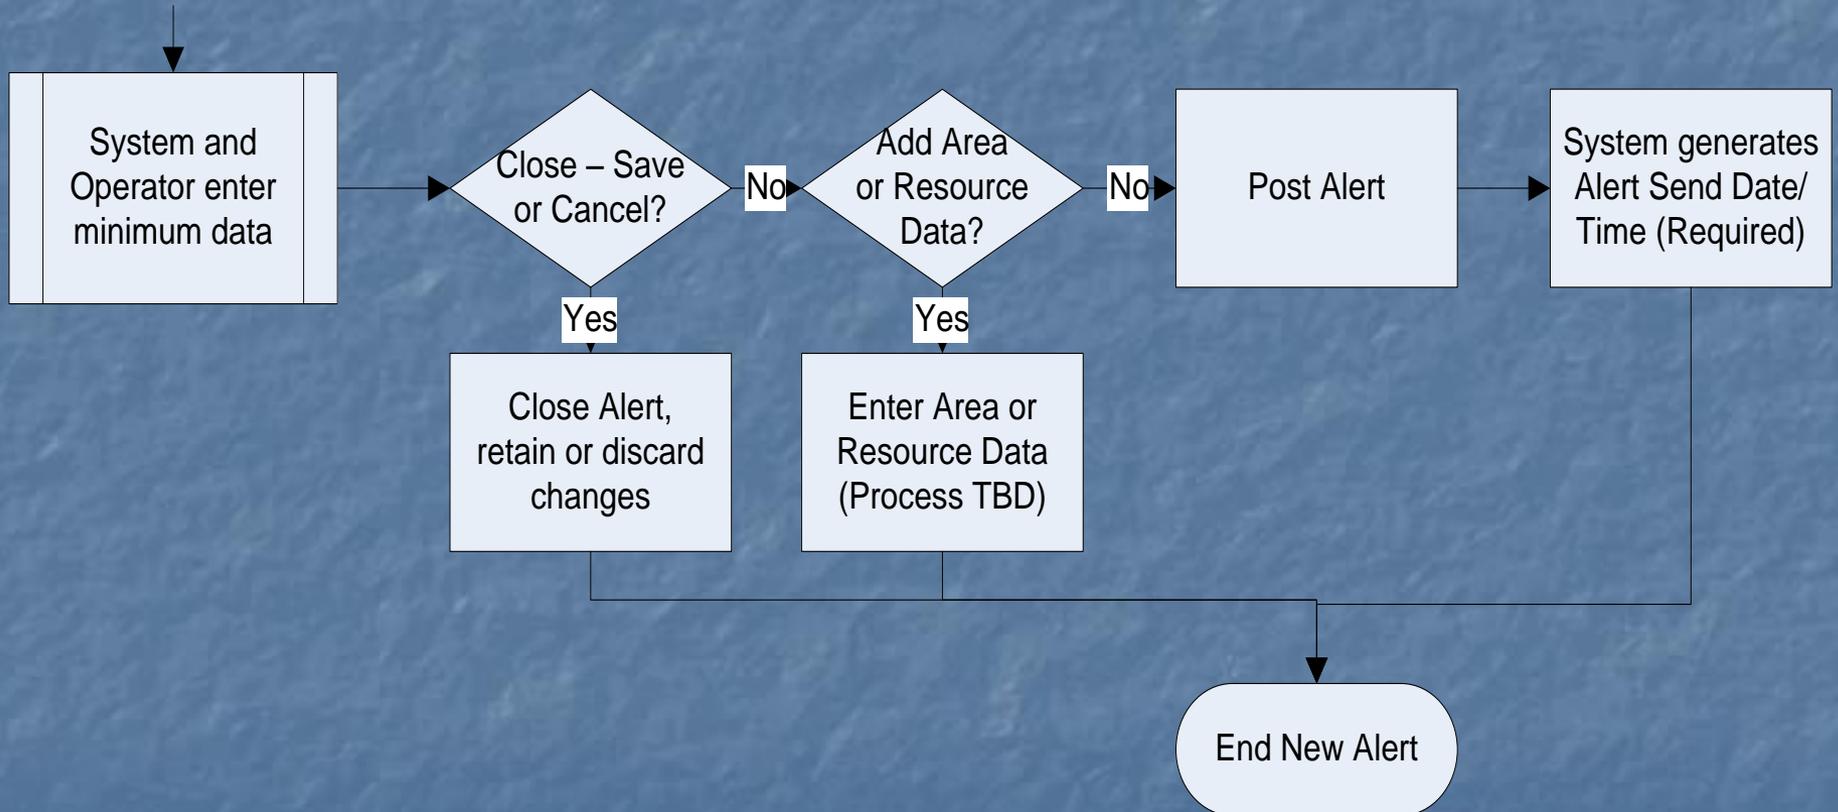

Operator enters minimum data for new Event

Post Alert

Additional Questions for Discussion

- **What data do you need first?**
- **How often do you/would you need to enter multiple Events?**
- **How often do you/would you need to enter an Area? Multiple Areas?**
- **How do you feel about creating templates then creating Alerts from those templates?**
- **What criteria would you like to help you post?**
- **How would you use an Error? What data would you expect to see when receiving an error?**
