

Tactical Component of DM Framework Incident Management System

Mission:

- Enable government organizations at all levels to collaborate and share a common operating picture in order to enhance emergency or disaster response.
- Support dynamic collaboration among organizations working together to manage the consequences of an incident.
- Enable rapid alerting, sharing a map-centric common operating picture, and managing your resource needs.

▼	 Operational/Accepting Patients						
<input type="checkbox"/>		NOVA Hospital	Hospital	NR	NR	Fairfax	12/01/2009 at 14:43 PST

IMS Common Functions

- Can Alert both users and non-users
- Can easily geo-locate incidents on a map
- Can attach additional supporting incident documentation
