11.2 APPENDIX B

11.2A FAA DETERMINATION OF NO HAZARD TO
AIR NAVIGATION, 2010-ANM-679-OE

Federal Aviation Administration
Air Traffic Airspace Branch, ASW-520
2601 Meacham Blvd.
Fort Worth, TX 76137-0520

Aeronautical Study No.
2010-ANM-679-OE

Issued Date: 04/19/2010

John Zwosta
1422 112th Street East
Tacoma, WA 98445

**** DETERMINATION OF NO HAZARD TO AIR NAVIGATION ****

The Federal Aviation Administration has conducted an aeronautical study under the provisions of 49 U.S.C., Section 44718 and if applicable Title 14 of the Code of Federal Regulations, part 77, concerning:

Structure:	Antenna Tower CMF
Location:	Spanaway, WA
Latitude:	47-04-38.02N NAD 83
Longitude:	122-21-48.36W
Heights:	177 feet above ground level (AGL) 602 feet above mean sea level (AMSL)

This aeronautical study revealed that the structure does not exceed obstruction standards and would not be a hazard to air navigation provided the following condition(s), if any, is(are) met:

It is required that FAA Form 7460-2, Notice of Actual Construction or Alteration, be completed and returned to this office any time the project is abandoned or:

- At least 10 days prior to start of construction (7460-2, Part I)
 Within 5 days after the construction reaches its greatest height (7460-2, Part II)

To coordinate frequency activation and verify that no interference is caused to FAA facilities, prior to beginning any transmission from the site you must contact Khoat Nguyen @ 425-227-1172.

Based on this evaluation, marking and lighting are not necessary for aviation safety. However, if marking and/or lighting are accomplished on a voluntary basis, we recommend it be installed and maintained in accordance with FAA Advisory circular 70/7460-1 K Change 2.

While the structure does not constitute a hazard to air navigation, it would be located within or near a military training area and/or route.

This determination is based, in part, on the foregoing description which includes specific coordinates, heights, frequency(ies) and power. Any changes in coordinates, heights, and frequencies or use of greater power will void this determination. Any future construction or alteration, including increase to heights, power, or the addition of other transmitters, requires separate notice to the FAA.

This determination does include temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the structure. However, this equipment shall not exceed the overall heights as

Re: No Historic Properties Affected

Dear Mr. Baughman:

Thank you for contacting the Washington State Department of Archaeology and Historic Preservation (DAHP). We have received and reviewed the cultural resources survey report completed by Western Shore Heritage Services, Inc. for the project.

We concur that no historic properties will be affected by the current project as proposed. If additional information on the project becomes available, or if any archaeological resources are uncovered during construction, please halt work in the area of discovery and contact the appropriate Native American Tribes and DAHP for further consultation.

Thank you for the opportunity to review and comment. Should you have any questions, please contact me.

Sincerely,

Matthew Sterner, M.A., RPA
Transportation Archaeologist

Painting and Lighting Requirements: NONE Paint and Light in Accordance with FAA Circular Number							
Conditions:							

This registration is effective upon completion of the described antenna structure and notification to the Commission. **YOU MUST NOTIFY THE COMMISSION WITHIN 24 HOURS OF COMPLETION OF CONSTRUCTION OR CANCELLATION OF YOUR PROJECT, please file FCC Form 854.** To file electronically, connect to the antenna structure registration system by pointing your web browser to <http://wireless.fcc.gov/antenna>. Electronic filing is recommended. You may also file manually by submitting a paper copy of FCC Form 854. Use purpose code "NT" for notification of completion of construction; use purpose code "CA" to cancel your registration.

The Antenna Structure Registration is not an authorization to construct radio facilities or transmit radio signals. It is necessary that all radio equipment on this structure be covered by a valid FCC license or construction permit.

You must immediately provide a copy of this Registration to all tenant licensees and permittees sited on the structure described on this Registration (although not required, you may want to use Certified Mail to obtain proof of receipt), and *display* your Registration Number at the site. See reverse for important information about the Commission's Antenna Structure Registration rules.

11.3 APPENDIX C

11.3A PUBLIC NOTICE-FEDERAL EMERGENCY
MANAGEMENT AGENCY

PUBLIC NOTICE

Federal Emergency Management Agency Draft Environmental Assessment Central Maintenance Facility Radio Tower Project, Pierce County, Washington

The U.S. Department of Homeland Security's Federal Emergency Management Agency (FEMA) proposes to provide construction funding to Pierce County for a radio/communications tower. Funding would be provided through the Homeland Security Grant Program consistent with the Implementing Recommendations of the 9/11 Commission Act of 2007 (Public Law 110-53).

A draft Environmental Assessment (EA) has been prepared for the proposed project pursuant to the National Environmental Policy Act (NEPA) of 1969 and FEMA's implementing regulations found in 44 Code of Federal Regulations (CFR) Part 10. The EA evaluates alternatives for compliance with applicable environmental laws, including Executive Orders #11990 (Protection of Wetlands), #11988 (Floodplain Management), and #12898 (Environmental Justice). The alternatives evaluated in the EA are the no action; and proposed action, construction of a radio/communications tower at the County's Central Maintenance Facility near Spanaway, Pierce County.

The EA is available for review online at the FEMA environmental web site at: <http://www.fema.gov/plan/ehp/envdocuments> under Region X. If no significant issues are identified during the comment period, FEMA will finalize the EA, issue a Finding of No Significant Impact (FONSI), and fund the project. Unless substantive comments are received, FEMA will not publish another notice for this project. However, should a FONSI be issued, it will be available for public viewing at <http://www.fema.gov/plan/ehp/envdocuments> under Region X.

The draft EA is also available for review on May 19, 2010 at the Pierce County Planning and Land Services Offices, 2401 South 35th Street, Suite 175, Tacoma, WA 98409-7490 from 8 am to 4:30 pm Monday through Friday.

Written comments on the draft EA should be directed no later than 5 p.m. on June 16, 2010 to Mark G. Eberlein, Regional Environmental Officer, FEMA Region X, 130 228th Street SW, Bothell, WA 98021, or by e-mail at mark.eberlein@dhs.gov. Comments also can be faxed to 425-487-4613.

Notice is hereby given that the Puyallup City Council did, on May 11, 2010, pass Ordinance No. 2954. This ordinance amends various sections of the Puyallup Municipal Code relating to land use in Chapters 18, 19, 20, 21 and adding a new section, 20.60.047, entitled, "Special provisions for the CMX zone." Anyone desiring a copy of the full text of the ordinance may obtain the same, without charge, by contacting Barbara J. Price, City Clerk, 333 South Meridian, Puyallup, Washington, 98371. Published: May 19, 2010 Effective: May 24, 2010

Bids Requests

May 4, 2010
Interested Contractors:
The Pierce County Housing Authority (PCHA) has established a Small Works Roster to expedite the solicitation and award of bids up to \$100,000.00 on construction and repair projects on our federally funded public housing units and up to \$300,000.00 on our public works projects. Public works include all work, construction, alteration, repair, or improvement other than ordinary maintenance, executed at the cost of the PCHA, or which is by law a lien or charge upon PCHA property. The purpose of the Small Works Roster is to form a pool of contractors for various small construction projects. The projects will require in general that:
• Prevailing wages be paid and documented in compliance with RCW 39.12.
• A Performance Bond be executed in compliance with RCW 39.08 before beginning work.
• The contractor holds a Washington State Contractor's License.
• Before commencing work, the Contractor and each subcontractor shall furnish the PCHA with certificates of insurance showing the following insurance is in force and will insure all operations under the Contract:
(1) Workers' Compensation, in accordance with state or Territorial Workers' Compensation laws.
(2) Commercial General Liability with a combined single limit for bodily injury and property damage of not less than \$1,000,000.00 per occurrence to protect the Contractor and each subcontractor against claims for bodily injury or death and damage to the property of others. This shall cover the use of all equipment, hoists, and vehicles on the site(s) not covered by Automobile Liability under (3) below. If the Contractor has a "claims-made" policy, then the following additional requirements apply: the policy must provide a "retroactive date" which must be on or before the execution date of the Contract; and the extended reporting period may not be less than five years following the completion date of the Contract.
(3) Automobile Liability on owned, and non-owned motor vehicles used on the site(s) or in connection therewith for a combined single limit for bodily injury and property damage of not less than \$500,000.00 per occurrence.
a) All insurance shall be carried with companies, which are financially responsible and admitted to do business in the State in which the project is located. If any such insurance is due to expire during the service period, the Contractor (including subcontractors, as applicable) shall not permit the coverage to lapse and shall furnish evidence of coverage to the Contracting Officer. All certificates of insurance, as evidence of coverage, shall provide that no coverage may be canceled or non-renewed by the insurance company until at least 30 days prior written notice has been given to the Contracting Officer.
Contractor must have or be able to obtain a city Business License before beginning work in jurisdiction.
