

RELEASE NOTES

External Mitigation Electronic Grants (MT eGrants)

Release 5.10

August 25, 2011

In order to improve the application process for the Hazard Mitigation Assistance grant programs in MT eGrants, FEMA reviewed and revised the *Planning, Project and Management Costs subgrant applications* to:

- Streamline the process
- Order the application fields to make the process more efficient
- Reduce redundancy
- Consolidate content
- Improve usability

The blank applications are available from the eGrants web page:

<http://www.fema.gov/government/grant/hma/egrants.shtm#3> as well as from the eGrants External system Home Page at <http://portal.fema.gov> by clicking on the [Print Blank Applications](#) link.

The specific changes to the online applications are outlined in order by section.

A few points regarding the impact of these changes to the FY 2012 application cycle:

- FY 2012 grant applications may include subgrants in both the old and new formats.
- FY 2012 grant applications may include 2010, 2011 and 2012 subgrant applications because subgrants can be up to 2 years older than the FY of the grant application.
- The date of a subgrant application is determined by the FY in which it is created.
- Older subgrant applications may be copied *in their entirety* into a new subgrant application to reflect the current year and latest version of the application.

Contents

Subapplicant section	3
Contact section	6
Community section	8
Scope of Work section	10
PLANNING:	10
PROJECT:	13
MANAGEMENT COSTS:	21
Properties section	23
Schedule section	31
Cost Share section.....	33
Cost Effectiveness section.....	35
Environmental and Historic Preservation section	40
Evaluation section.....	41
PLANNING:	41
PROJECT:	45

Subapplicant section

NOTE: FIPS Place Code field is for response by the Grant Applicant only)

- The section was previously named “Applicant Information”
- Revised fields
 - All references to Applicant were changed to “Subapplicant”
 - Name of Subapplicant
 - Type of Subapplicant
- Changed field properties
 - DUNS number is a required field
- Deleted fields
 - Congressional District
 - Are you the applicant preparer?
 - Is the application preparer the point of contact?
- Moved fields
 - “Is this a small, impoverished Community” was moved to the *Evaluation* section (for response by Grant Applicant)

Old format:

The screenshot shows a web browser window displaying the FEMA.gov Project Application form. The browser title is "Federal Emergency Management Agency E-Grants - Windows Internet Explorer" and the address bar shows "https://eservices.fema.gov/FEMAMitigation/processFemaRequest.do". The page header includes "FEMA.gov" and "Project Application" with a date "test 10-12-2010". The user is logged in as "Eric Jordan" with a session that expires in 30 minutes. The main heading is "Applicant Information" and the progress is "Application 33% complete". The form contains several fields: "Name of Applicant" (with a "Find Organization" button), "State" (set to "MI"), "Congressional District" (with a "Look up congressional district" link), "Type of Applicant" (a dropdown menu), and a text area for "Describe the legal status, function, and facilities owned:" (with a "(Maximum 4000 characters)" note). A "Note" states: "Fields marked with an * are required." A sidebar on the left lists 19 application steps, with "Applicant Information" selected. The Windows taskbar at the bottom shows the start button and several open applications.

Community section

- Deleted field
 - Enter Community Profile information

Old format:

The screenshot shows a web browser window displaying the FEMA.gov Project Application page. The page title is "Community Information" and it indicates that the application is 27% complete. The page contains a table with columns for County Code, Community Name, CD Number, CRS Community, CRS Rating, State Legislative District, US Congressional District, State, and Action. Below the table, there are two text input fields for entering community profile information and comments, each with a "Maximum 4000 characters" limit. There is also an "Attachments" button and a "Find Community" button. The page footer includes navigation links for "fema home", "e-grants home", "contact us", "frequently asked questions", "glossary", "help", and "Disclosures".

Community Information

Application 27% complete

Please provide the following information. When you are finished, click the *Save and Continue* button below. In case the congressional district number for your community is not showing up correctly then please contact your state NFIP coordinator.

Note: Fields marked with an * are required.

Please find the community that will benefit from this mitigation activity by clicking on the Find Community button. You shall modify Congressional District for each community by directly editing the textbox(es) provided. When you are finished, click the *Save and Continue* button below.

County Code	Community Name	CD Number	CRS Community	CRS Rating	State Legislative District	US Congressional District	State	Action
(If the benefit is statewide, the applicant should select "Statewide" in the community listing)								
* <input type="button" value="Find Community"/>								

Enter Community Profile information below. [Help](#)

Internet 100%

Scope of Work section

NOTE: This section differs for Planning, Project and Management Costs subgrant applications.

- Inserted fields from the *Mitigation Activity* section which was removed
 - Title of your proposed activity
 - What type of mitigation activity(ies) are you proposing?

PROJECTS only -

- Are you doing construction in this project?

PLANS only -

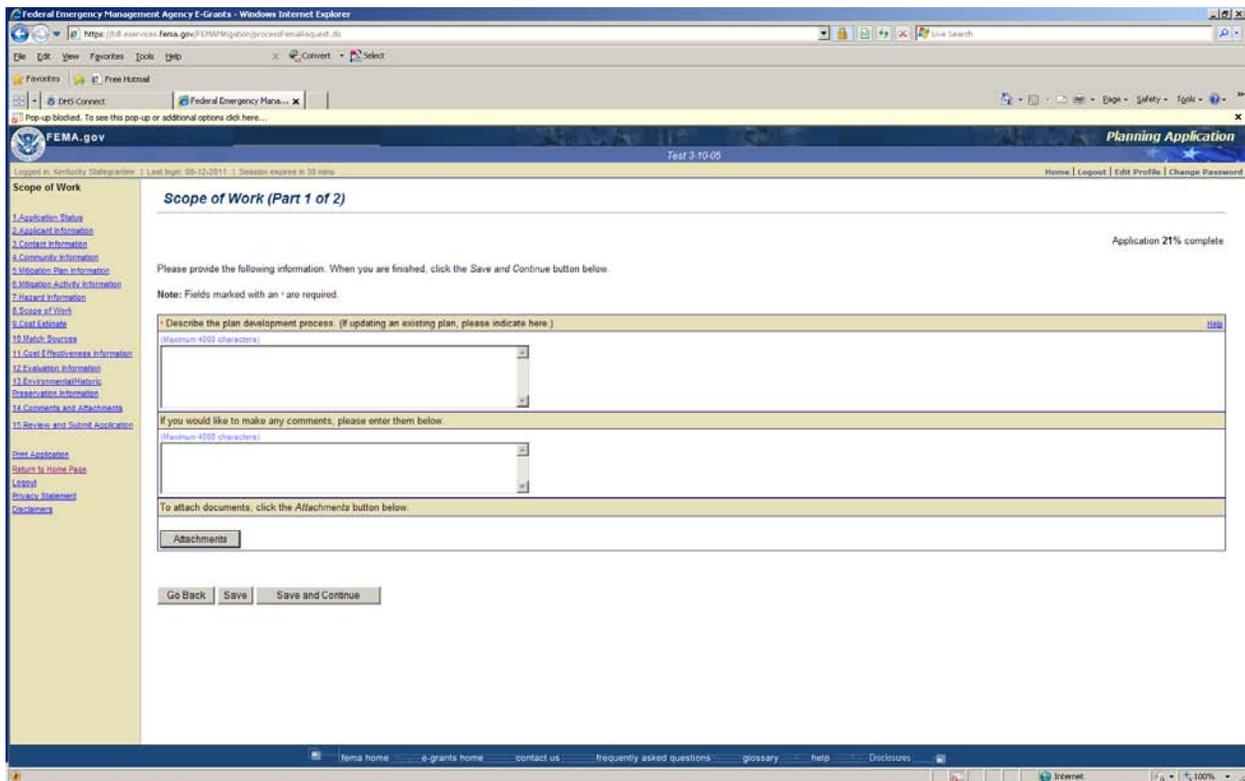

- Please select one of the following options to describe the intent of this planning application:
Develop a new plan
Update an existing plan

- Moved field
 - “Enter Work Schedule” moved to new *Schedule* section

PLANNING:

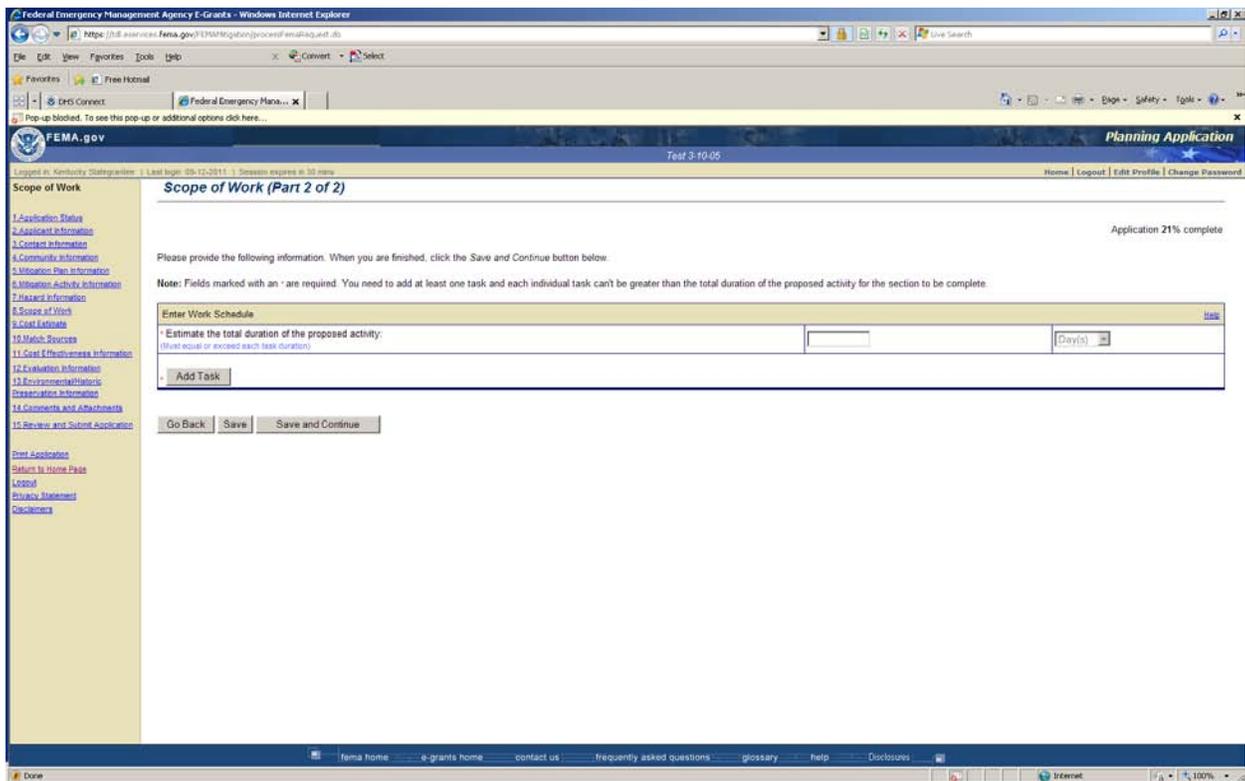

- Revised field
 - “Describe the plan development process” was revised as “Describe the process for implementing the planning activity, including the following plan development requirements: 1) participation of agencies, stakeholders and the public; 2) hazard identification and risk/vulnerability assessment; 3) mitigation strategy; 4) plan adoption; and 5) plan maintenance.”
- Inserted fields from the *Hazard Information* section which was removed
 - Describe the geographic area(s) to be covered by the plan. Attach geographical/topographical maps as necessary.
 - Identify Hazard(s) to be Mitigated
- New fields
 - What are the primary sources of information and data and how it will be incorporated into existing planning mechanisms?
 - What staff and resources will be used to implement this planning activity?

Old format:

This screenshot shows the 'Scope of Work (Part 1 of 2)' page in the FEMA.gov Planning Application. The browser is Internet Explorer, displaying the URL <https://fhs.asia.usda.gov/FEMA/Registration/process/ema/req/act.do>. The page header includes the FEMA.gov logo, the date 'Test 3-10-05', and the title 'Planning Application'. A navigation menu on the left lists 15 steps, with '1. Application Status' selected. The main content area contains the following elements:

- Application Status:** 'Application 21% complete'
- Instructions:** 'Please provide the following information. When you are finished, click the Save and Continue button below. Note: Fields marked with an * are required.'
- Form Fields:**
 - 'Describe the plan development process. (If updating an existing plan, please indicate here.)' (Maximum 4000 characters)
 - 'If you would like to make any comments, please enter them below.' (Maximum 4000 characters)
 - 'To attach documents, click the Attachments button below.'
- Buttons:** 'Go Back', 'Save', and 'Save and Continue'

This screenshot shows the 'Scope of Work (Part 2 of 2)' page in the FEMA.gov Planning Application. The browser is Internet Explorer, displaying the same URL as the previous page. The page header and navigation menu are identical. The main content area contains the following elements:

- Application Status:** 'Application 21% complete'
- Instructions:** 'Please provide the following information. When you are finished, click the Save and Continue button below. Note: Fields marked with an * are required. You need to add at least one task and each individual task can't be greater than the total duration of the proposed activity for the section to be complete.'
- Form Fields:**
 - 'Enter Work Schedule' (Maximum 4000 characters)
 - 'Estimate the total duration of the proposed activity: (Must equal or exceed each task duration)' with a text input field and a 'Day(s)' dropdown menu.
 - 'Add Task' button
- Buttons:** 'Go Back', 'Save', and 'Save and Continue'

PROJECT:

- Revised fields
 - “What are the goals and objectives of this activity?” was revised as “Provide a clear and detailed description of your proposed activity.”
 - Briefly describe the need for this activity.
New text added: “Why should this mitigation activity be completed?”
 - “Describe the methodology for implementing this activity” was revised as “How will the mitigation activity be implemented?”
- Deleted field
 - Describe the problems this activity will address
- Inserted fields from the *Hazard Information* section which was removed
 - Enter the Latitude and Longitude coordinates for the project area
 - Identify Hazard(s) to be Mitigated
 - Provide a detailed description of the proposed project's location (e.g. municipality, street address, major intersecting streets and other important landmarks). Please attach supporting documentation such as maps that clearly identify the location and critical features to the project such as topography, waterways, adjacent community boundaries, etc., and mark your project site on the FIRM/DFIRM/FHBM (even if it is out of the floodplain)
- Inserted fields from the *Decision Making Information* section which was removed
 - Explain why this project is the best alternative. What alternatives were considered to address the Risk and why was the proposed activity considered the best alternative?

- Inserted fields from the *Maintenance Schedule and Costs* section which was removed
 - Please identify the entity that will perform any long-term maintenance and provide a maintenance schedule and cost information. The subapplicant or owner of the area to be mitigated is responsible for maintenance (including costs of long-term care) after the project is completed:
- New fields
 - Who will the mitigation activity benefit and/or impact?
 - Describe how the project is technically feasible and will be effective in reducing the risk by reducing or eliminating damage to property and/or loss of life in the project area. Please include engineering design parameters and references to the following: preliminary schematic or engineering drawings/design; applicable building codes; engineering practices and/or best practices; level of protection (e.g., life safety, 100-yr floor protection with freeboard, 100-yr wind design, etc.):
 - Who will manage and complete the mitigation activity?
 - Will the project address the hazards identified and what risks will remain from all hazards after project implementation (residual risk)?
 - When will the mitigation activity take place?

Old format:

The screenshot shows a web browser window displaying the FEMA.gov Project Application interface. The page title is "Smoke test 08-25-2011" and the page is titled "Scope of Work (Part 1 of 2)". The application is 27% complete. The form contains several text input fields with the following prompts:

- *What are the goals and objectives of this activity? (Maximum 4000 characters)
- *Briefly describe the need for this activity. (Maximum 4000 characters)
- *Describe the problems this activity will address. (Maximum 4000 characters)
- *Describe the methodology for implementing this activity. (Maximum 4000 characters)
- If you would like to make any comments, please enter them below. (Maximum 4000 characters)

A sidebar on the left lists navigation options from 1 to 19, including "Application Status", "Applicant Information", "Contact Information", "Community Information", "Mitigation Plan Information", "Mitigation Activity Information", "Hazard Information", "Scope of Work", "Properties", "Decision Making Process", "Cost Estimate", "Match Sources", "Cost Effectiveness Information", "Environmental/Historic Preservation Information", "Maintenance Schedule", "Evaluation Information", "Comments and Attachments", "Assurances and Certifications", and "Review and Submit Application". Scope of Work (Page 2 of 3)

Enter the Latitude and Longitude coordinates for the project area.

Latitude: (e.g. 00.4301, should be between -90 to +90)

Longitude: (e.g. 05.4301, should be between -90 to +90)

Briefly describe the need for this activity. Why should this mitigation activity be completed?

Who will the mitigation activity benefit and/or impact?

How will the mitigation activity be implemented?

Describe how the project is technically feasible and will be effective in reducing the risk by reducing or eliminating damage to property and/or loss of life in the project area. Please include engineering design parameters and references to the following: preliminary schematic or engineering drawings/design; applicable building codes; engineering practices and/or best practices; level of protection (e.g., life safety, 100-yr floor protection with freeboard, 100-yr wind design, etc.).

Who will manage and complete the mitigation activity?

Scope of Work (Page 3 of 3)

Application 28% complete

Will the project address the hazards identified and what risks will remain from all hazards after project implementation (residual risk)?

xx

When will the mitigation activity take place?

xx

Explain why this project is the best alternative. What alternatives were considered to address the Risk and why was the proposed activity considered the best alternative?

xx

Please identify the entity that will perform any long-term maintenance and provide a maintenance schedule and cost information. The subapplicant or owner of the area to be mitigated is responsible for maintenance (including costs of long-term care) after the project is completed.

Properties (Page 1 of 4)

Application 28% complete

This section will enable you to add properties to be mitigated. To add a property, click the **Add Property** button below. To update or delete a property already added to your project, click the appropriate link under the **Action** column. Depending on the activity you selected from the **Scope Of Work** section, some activities may require additional information and some may not. If you do not want to add additional property information for an activity that has the option to, check the **Property Information Not Applicable** checkbox. When you are finished, click the **Save and Continue** button below.

Note: Fields marked with an * are required. Properties marked with an ** are incomplete.

Public Awareness and Education (Brochures, Workshops, Videos, etc.) (100.1) Property Information Not Applicable

Schedule section

- This is a new section.
- Fields moved from old *Scope of Work* section
 - Please include all tasks necessary to implement this mitigation activity, the estimated timeframe for each task, and who will complete it.

Old format:

[old *Scope of Work* section]

The screenshot shows a web browser window displaying the FEMA.gov Project Application interface. The page title is "Scope of Work (Part 2 of 2)". The user is logged in as Eric Jordan, with a session that expires in 28 minutes. The page indicates that the application is 27% complete. A note states: "Please provide the following information. When you are finished, click the Save and Continue button below. Note: Fields marked with an * are required. You need to add at least one task and each individual task can't be greater than the total duration of the proposed activity for the section to be complete." The main form area is titled "Enter Work Schedule" and contains a required field for "Estimate the total duration of the proposed activity:" with a sub-note "(Must equal or exceed each task duration)". There is an empty input box and a dropdown menu set to "Day(s)". Below this is an "Add Task" button. At the bottom of the form are "Go Back", "Save", and "Save and Continue" buttons. A left sidebar contains a navigation menu with 19 items, including "Application Status", "Applicant Information", "Contact Information", "Community Information", "Mitigation Plan Information", "Mitigation Activity Information", "Hazard Information", "Scope of Work", "Properties", "Decision Making Process", "Cost Estimate", "Match Sources", "Cost Effectiveness Information", "Environmental/Historic Preservation Information", "Maintenance Schedule", "Evaluation Information", "Comments and Attachments", "Assurances and Certifications", and "Review and Submit Application". A footer contains links for "fema home", "e-grants home", "contact us", "frequently asked questions", "glossary", "help", and "Disclosures".

Cost Share section

- This section was previously named “Match Sources”
- Revised field name from *Matching Funds* to *Non-Federal Funds*

Old format:

Match Sources

Application 33% complete

Please provide the following information. When you are finished, click the *Save and Continue* button below. For this section to be completed, please add the funding source records whose total amount should be greater than or equal to the proposed non-Federal share amount.

Note: Fields marked with an * are required.

Activity Cost Estimate (If you modify the Federal Share Percentage or Non-Federal Share amount, click the Recalculate Share button to compute the new Federal Share.)	\$ 125,000.00
Federal Share Percentage	100% Help
Non-Federal Share Percentage	0% Help
	Dollars Percentage
* Proposed Federal Share (Calculated based on the Federal Share Percentage) Notes: for L-PDM grants, Federal Share may be up to 90% for small, impoverished community. For SRL, Federal share may be up to 90% when the Applicant has an approved State Mitigation Plan that specifies how it intends to reduce the number of SRL properties.	\$ 125,000.00 100%
* Proposed Non-Federal Share (Calculated based on the Non-Federal Share Percentage) Notes: for FMA grants, 12.5% can be from 3rd party in-kind matches; ICC coverage up to \$30K as eligible non-Fed cost share.	\$ 0.00 0%

Cost Effectiveness section

NOTE: This section is for Project subgrant applications only. All fields are required for Grant Applicants but may be completed by Subgrant Applicants.

- Removed section from Planning and Management Costs subgrant applications.
- Inserted fields from *Evaluation Information* section
 - Net Present Value of Project Benefits (A)
 - Total Project Cost Estimate (B)
 - What is the Benefit Cost Ratio for the entire project (A/B)?
- Deleted fields
 - What is the source and type of the problem?
 - How frequent is the event?
 - How severe is the damage?
 - What kind of properties are at risk?
 - Are there better, alternative ways to solve the problem?
 - Are the mitigation project costs well documented and reasonable?
 - Damage History

Old format:

The screenshot displays the FEMA.gov Project Application interface. The main content area is titled "Cost Effectiveness Information (Part 1 of 2)". It includes instructions for providing information and a table for attaching Benefit Cost Analyses (BCAs). The table has columns for Name, Date Attached, and Action. Below the table are several text input fields for questions such as "What is the source and type of the problem?", "How frequent is the event?", "How severe is the damage?", "What kinds of property are at risk?", and "Are there better, alternative ways to solve the problem?". Each field has a "Maximum 4000 characters" limit. The page also features a navigation menu on the left and a footer with links like "fema home", "e-grants home", "contact us", "frequently asked questions", "glossary", "help", and "disclosure".

Start External Sub-grant Appl... Federal Emergency M... 2:56 PM

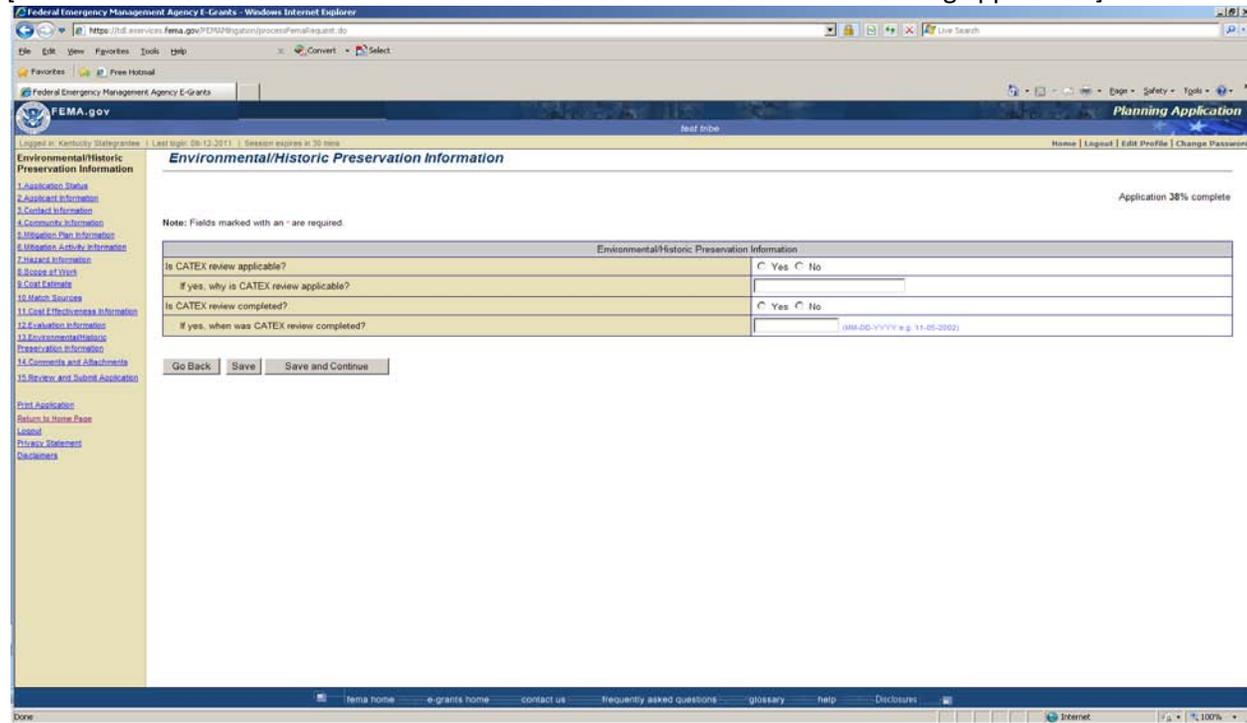

Environmental and Historic Preservation section

NOTE: This section is for Project subgrant applications only. No change to section.

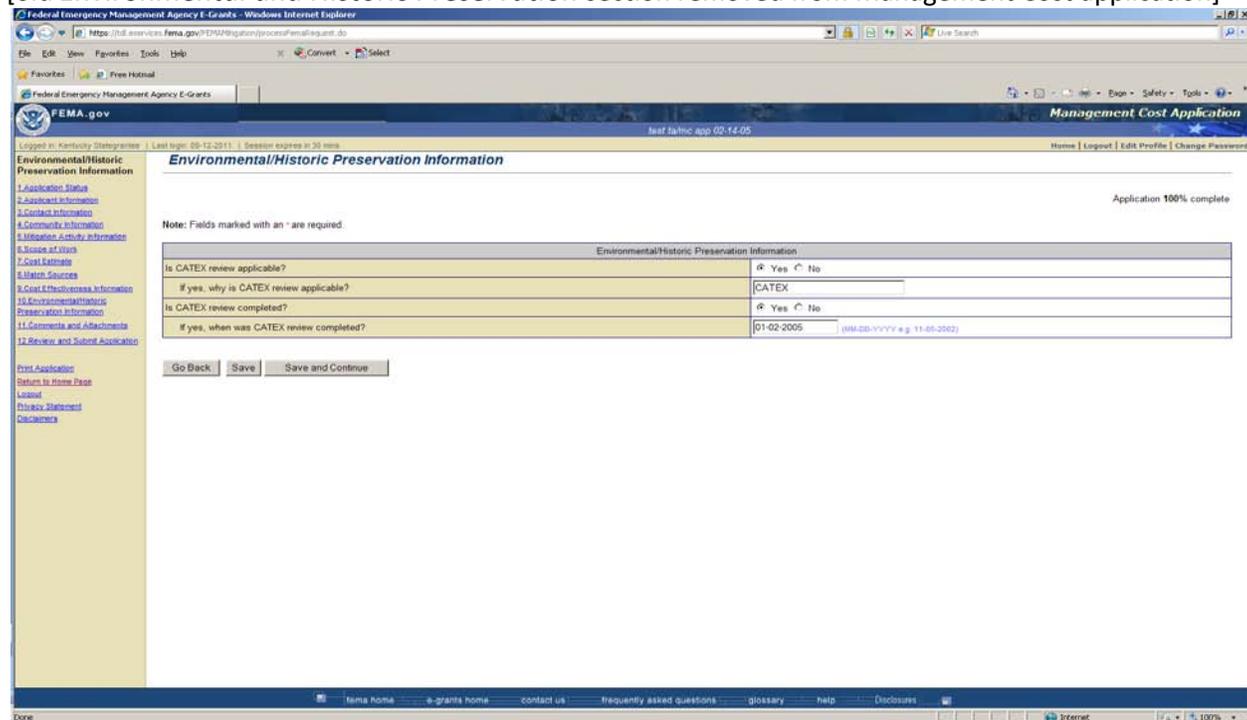

- Removed section from Planning and Management Costs subgrant applications.

Old format:

[old *Environmental and Historic Preservation* section removed from Planning application]

[old *Environmental and Historic Preservation* section removed from Management Cost application]

Evaluation section

NOTE: This section differs for Planning and Project subgrant applications. It is only required for the Pre-Disaster Mitigation grant program.

- Deleted fields
 - Is the recipient a Disaster Resistant Community?
 - Is the recipient a Historically Black College or University or Tribal College or University?
 - Describe the staff and resources needed to implement this mitigation activity and the applicant's ability to provide these resources.
 - Describe how you will manage the costs and schedule, and how you will ensure successful performance.
 - If applying for multiple mitigation activities, how do these activities relate?
 - What outreach activities are planned relative to this mitigation activity (e.g., signs, press releases, success stories, developing package to share with other communities, losses avoided analysis) and/or how will this mitigation activity serve as a model for other communities (i.e., Do you intend to mentor other communities, Tribes or States? Do you intend to prepare a description of the process followed in this activity so that others may learn from the example?)?
- Inserted fields from old *Applicant Information* section
 - “Is this a small, impoverished community?”
(This is for response by the Grant Applicant only)

PLANNING:

- Revised fields
 - “Describe how this activity will benefit your constituents” was revised as “Describe how this planning activity will benefit your community and how the plan/data will be used to promote resiliency.”
- Deleted fields
 - Describe the strategy for completing this planning activity, including the review process, adoption, and FEMA’s approval.
 - Please provide an assessment of the frequency (high, moderate, low, very low, not applicable) and severity (catastrophic, extensive, serious, minor) of an event for each of the following hazards

Old format:

This screenshot shows the 'Evaluation Information (Part 1 of 4)' form in the FEMA.gov Planning Application system. The browser is Internet Explorer, and the page is titled 'FEMA.gov Planning Application'. The user is logged in as 'Kentucky Stategrants' and the session expires in 30 minutes. The application is 100% complete. The form contains several questions with radio button options for 'Yes' and 'No'. The questions are:

- Is the recipient participating in the [Community Rating System \(CRS\)](#)?
If yes, what is their [CRS rating](#)? (Dropdown menu)
- Is the recipient a [Cooperating Technical Partner \(CTP\)](#)?
- Is the recipient a [FEMAwise Community](#)?
If yes, please provide their [FEMAwise Community](#) number (Text input)
- Has the recipient adopted building codes consistent with the [International Codes](#)? (Yes/No)
- Has the recipient adopted the [National Fire Protection Association \(NFPA\) 5000 Code](#)? (Yes/No)
- Have the recipient's building codes been assessed on the [Building Code Effectiveness Grading Schedule \(BCEGS\)](#)?
If yes, what is their [BCEGS](#) rating? (Dropdown menu)
- Is the recipient a [Disaster Resistant University](#)?
- Is the recipient a [Historically Black College or University or a Tribal College or University](#)?

Buttons at the bottom include 'Go Back', 'Save', and 'Save and Continue'.

This screenshot shows the 'Evaluation Information (Part 2 of 4)' form in the FEMA.gov Planning Application system. The browser is Internet Explorer, and the page is titled 'FEMA.gov Planning Application'. The user is logged in as 'Kentucky Stategrants' and the session expires in 30 minutes. The application is 100% complete. The form contains several text input fields for providing detailed information:

PROJECT:

- Revised field
 - How will this mitigation activity offer long-term financial and social benefits
New text added: “or promote resiliency for the community?”
- Moved fields to *Cost Effectiveness* section
 - Net Present Value of Project Benefits (A)
 - Total Project Cost Estimate (B)
 - What is the Benefit Cost Ratio for the entire project (A/B)?
- Deleted fields:
 - Describe the desired outcome and methodology of the mitigation activity in terms of mitigation objectives to be achieved.
 - Describe performance expectations and timeline for interim milestones and overall completion of mitigation activity.
 - How does this mitigation activity comply with Federal laws and Executive Orders, and how is it complementary to other Federal programs?
 - Analysis Type
 - What was the primary hazard data used for the BCA?
 - What secondary hazards were considered during the BCA?
