500-Year Flood Boundary	Zone B
100-Year Flood Boundary	Zone A1
Zone Designations	Zone A5
100-Year Flood Boundary	Zone B
500-Year Flood Boundary	Zone B
Base Flood Elevation Line With Elevation In Feet	513
Base Flood Elevation In Feet Where Uniform Within Zone	(EL 987)
Elevation Reference Mark	RM7X
Zone D Boundary	
River Mile	•M15

**Referenced to the National Geodetic Vertical Datum of 1929

EXPLANATION OF ZONE DESIGNATIONS

ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations and flood hazard factors not determined.
A0	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
A1	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

NOTES TO USER

This map is for use in administering the National Flood Insurance Program. It does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas.

Areas of special flood hazard (100-year flood) include Zones A, A1, A0, AE, AH, AD, A99, V, V1-30 AND VE.

Certain areas not in the Special Flood Hazard Areas (Zones A and V) may be protected by flood control structures.

Coastal base flood elevations apply only landward of the shoreline shown on this map.

For additional map panels, see separately printed index to Map Panels.

FLOOD HAZARD BOUNDARY MAP REVISIONS:

FLOOD INSURANCE RATE MAP EFFECTIVE:
AUGUST 24, 1973

FLOOD INSURANCE RATE MAP REVISIONS:

Map revised July 1, 1974 to change zone designations.

Map revised February 27, 1976 to reflect curvilinear flood boundary and change community boundary and to add shallow flood hazard area.

Map revised April 2, 1976 to change zone designations and adjust curvilinear flood boundary.

Map revised September 29, 1986 to change flood plain boundaries, zone designations, base flood elevations, corporate limits, scale, cultural features, or map format.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program, at (800) 638-6629.

ELEVATION REFERENCE MARKS

REFERENCE MARK	ELEVATION (FT. NGVD)	DESCRIPTION OF LOCATION
RM10	462.241	U.S. Coast and Geodetic Survey disk stamped "P 348 1953" located 0.7 mile east along the Denver and Rio Grande Western Railroad from the Union Station at Pueblo, 287 feet east of the crossing of the Missouri Pacific Railroad, 7.5 feet north of the north rail of the Atchison, Topeka and Santa Fe Railroad, 23.4 feet north of the north rail of the Denver and Rio Grande Western Railroad, set in the top of the north end of the west concrete abutment of the Santa Fe Avenue underpass.

NOTES TO USER

Boundaries of the floodways were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the Federal Emergency Management Agency.

This map was prepared to facilitate flood plain management activities only; it may not show all special flood hazard areas in the community or all planimetric features outside of the flood plain. Refer to the latest official Flood Insurance Rate Map for any additional areas of special flood hazard.

Floodway widths in some areas may be too narrow to show to scale. Refer to Floodway Data Table where floodway width is shown at 1/20 inch.

For adjoining map panels, see separately printed Index To Map Panels.
