

Homeland Security

FY 2012 PORT SECURITY GRANT PROGRAM (PSGP)

Overview

As appropriated by the *Consolidated Appropriations Act, 2012, Division D* (Public Law 112-74), the Port Security Grant Program (PSGP) is one of the Department of Homeland Security's (DHS) FY 2012 grant programs which directly supports transportation infrastructure security activities. The PSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration

to strengthen the Nation's critical infrastructure against risks associated with potential terrorist attacks. The FY 2012 PSGP provides funds for transportation infrastructure security activities to implement Area Maritime Security Plans and facility security plans among port authorities, facility operators, and state and local government agencies required to provide port security services. The FY 2012 PSGP plays an important role in the implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of core capabilities to fulfill the *National Preparedness Goal* (NPG).

In Fiscal Year 2012, DHS will award \$97,500,000 to promote sustainable, risk-based efforts to protect critical port infrastructure

Funding Guidelines

In FY 2012, the total amount of funds distributed under the FY 2012 PSGP is \$97,500,000. The FY 2012 PSGP focused on enhancing Maritime Domain Awareness (MDA); enhancing Improvised Explosive Device (IED) and Chemical, Biological, Radiological, Nuclear, Explosive (CBRNE) prevention, protection, response, and recovery capabilities; port resilience and recovery capabilities; training and exercises; and Transportation Worker Identification Credential (TWIC) Implementation. Grantees were authorized to use up to five percent for Management and Administration (M&A) purposes. The period of performance for the PSGP is 24 months from the date of award.

What is the authorizing statute?

Section 102 of the Maritime Transportation Security Act of 2002, as amended, (46 U.S.C. § 70107), and The Consolidated Appropriations Act, 2012, Division D (Public Law 112-74)

Who is eligible?

Seven port areas were selected as Group I (highest risk), 48 port areas were selected as Group II, and 35 port areas were selected as Group III. Ports not identified in Group I, II, or III competed for the funding identified for the "All Other Port Areas" Group. Ports that qualified under the "All Other Port Areas" category that were located within Group I, II, or III port areas were eligible to receive grant funds from their geographically proximate higher group if the project had regional impact across the entire port area, but were not able to receive funding from both groups for the same project.

What are the FY 2012 PSGP Key Changes?

- Prioritized the implementation of PPD-8 and the NPG. FY 2012 PSGP aligned to the five mission areas and supported core capabilities within the NPG
- Reduced the period of performance for PSGP from 36 months to 24 months
- Removed the Semi-Annual Assistance Progress Report (SAPR) reporting requirement in lieu of the Standard Form-Performance Progress Report (SF-PPR) to report on progress towards implementing program-specific performance measures
- Expanded the scope of maintenance and sustainment by allowing the support of equipment that has previously been purchased with both federal and other sources of funding as long as direct linkage can be provided to one of the core capabilities within the NPG

- Funding was competitively awarded within designated Port Groupings (Groups I, II, III, and All Other Port Areas)
- The Fiduciary Agent process was not utilized for FY 2012. Eligible applicants applied directly to FEMA for funding
- PSGP applicants were required to provide a cost match. Private sector applicants provided at least 50 percent of the total project cost; public sector applicants provided at least a 25 percent match

Application Process and Evaluation Criteria

All port areas were assigned to groups based on relative risk rankings. The highest risk ports were designated as Group I, lower risk ports were assigned to Group II, and the lowest risk ports were assigned to Group III. Those ports that were not assigned to a specific group fell into the “All Other Port Areas” category. To ensure that the highest risk ports received the bulk of available funds, the majority of funding was allocated to those port areas in Group I. Port areas competed for the funds allocated to their respective groups.

FEMA conducted an initial review of all FY 2012 PSGP applications for completion. Field-level reviews were conducted by the applicable Captain of the Port (COTP) in coordination with the Director of the U.S. Department of Transportation’s Maritime Administration’s Gateway Office and appropriate personnel from the Area Maritime Security Committee (AMSC), as identified by the COTP. Field review project scores and prioritized lists were submitted to FEMA for the national review process. The National Review Panel (NRP) convened with subject matter experts from DHS and other federal partners to identify a final, prioritized list of eligible projects for funding. The NRP conducted an initial review of the prioritized project listings for each port area submitted by the USCG’s COTP to ensure that the proposed projects accomplish intended risk mitigation goals. The NRP validated and normalized the Field Review COTP Project Priority List and provided a master list of prioritized projects by port area. A risk-based algorithm was applied to the NRP’s validation and prioritized lists for each port area in all groups. The NRP evaluated and validated the consolidated and ranked project list that resulted from application of the algorithm and submitted their determinations to FEMA and then to the Secretary of DHS for final approval.

PSGP Resources

There are a variety of resources available to address programmatic, technical, and financial questions which can assist with the PSGP application process.

- The FY 2012 PSGP FOA is located online at: <http://www.fema.gov/grants> as well as on <http://www.grants.gov>.
- For additional program-specific information, please contact the Centralized Scheduling and Information Desk (CSID) help line at (800) 368-6498 or AskCSID@dhs.gov. CSID hours of operation are from 9:00 a.m. to 5:30 p.m. EST, Monday through Friday.
- For financial-related questions, including pre-and post-award administration and technical assistance, applicants may contact the FEMA Grant Programs Directorate Call Center at (866) 927-5646 or via e-mail to ASK-GMD@dhs.gov.

FY 2012 PSGP Funding Table

Group	State	Port Area	Entity	Allocation
I	CA	Los Angeles-Long Beach	City of Long Beach, Fire Department	\$527,534
			City of Los Angeles Harbor Department	\$6,900,000
			International Transportation Service	\$320,000
			Long Beach Container, Inc.	\$3,335,988
			Long Beach Police Department	\$73,500
			Los Angeles County Sheriff's Department	\$450,000
			Los Angeles Police Department	\$784,119
			Port of Long Beach	\$2,880,135
			Seaside Transportation Services, LLC	\$150,000
			TraPac, Inc.	\$1,005,155
		San Francisco Bay	Alameda County Sheriff's Office	\$975,000
			City of Alameda Fire Department	\$375,000
			City of Richmond Police Department	\$596,226
