

APPENDIX B

Section 106 Programmatic Agreement

1 DRAFT
2 PROGRAMMATIC AGREEMENT
3 AMONG
4 THE US DEPARTMENT OF VETERANS AFFAIRS,
5 THE FEDERAL EMERGENCY MANAGEMENT AGENCY,
6 THE CITY OF NEW ORLEANS,
7 THE LOUISIANA STATE HISTORIC PRESERVATION OFFICER,
8 AND
9 THE ADVISORY COUNCIL ON HISTORIC PRESERVATION
10 REGARDING THE FUNDING TO REPAIR OR REPLACE
11 HEALTHCARE FACILITIES COMPRISING THE VA MEDICAL CENTER
12 AND
13 THE MEDICAL CENTER OF LOUISIANA AT NEW ORLEANS
14
15

16 **WHEREAS**, Hurricanes Katrina and Rita (Disaster) resulted in significant damage to
17 healthcare infrastructure and severely limited medical training opportunities in New
18 Orleans, Southern Louisiana, and the Gulf South area; and
19

20 **WHEREAS**, re-establishing healthcare infrastructure and medical training opportunities
21 is critical to the recovery and vitality of New Orleans, Southern Louisiana, and the Gulf
22 South area; and
23

24 **WHEREAS**, the Federal Emergency Management Agency (FEMA) of the Department of
25 Homeland Security, pursuant to Section 406 of the Robert T. Stafford Disaster Relief
26 and Emergency Assistance Act (42 U.S.C. §5121-5206) and implementing regulations in
27 Title 44 of the Code of Federal Regulations (44 CFR Part 206), proposes to provide
28 Federal disaster assistance (Public Assistance) to the State of Louisiana, Division of
29 Administration, Office of Facility Planning and Control (FP&C), through the Governor's
30 Office of Homeland Security and Emergency Preparedness (GOHSEP), in response to
31 damages to the Medical Center of Louisiana at New Orleans (MCLNO) caused by the
32 Disaster (DR-1603-LA); and
33

34 **WHEREAS**, the U.S. Department of Veterans Affairs (VA) proposes to replace the VA
35 Medical Center of New Orleans (VAMC) addressed at 1601 Perdido Street, New
36 Orleans, LA that were damaged as a result of the Disaster; and
37

38 **WHEREAS**, the City of New Orleans (City), was invited to participate in the current
39 Section 106 process at its initiation; and, if the Regional Planning Commission (RPC)
40 Site is selected by the VA, the City will perform various actions to include but not be
41 limited to acquisition, demolition, and site preparation, described in this Programmatic
42 Agreement (PA), including mitigation, and the City, as the recipient of Community
43 Development Block Grant (CDBG) funds, will be the Responsible Entity for complying
44 with environmental and historic preservation legal requirements (24 CFR §58) for the
45 Department of Housing and Urban Development (HUD); and, the City is participating in
46 this consultation and will execute the PA as a Signatory; and

47
48 **WHEREAS** the City, in compliance with HUD regulations (24 CFR §58), intends to
49 adopt the findings of the Section 106 consultation process upon the conclusion of the
50 current study being conducted by the Federal Lead Agencies in cooperation with the
51 Louisiana State Historic Preservation Office (SHPO); and

52
53 **WHEREAS**, FEMA, VA, and the City, in the event the CDBG funds are used
54 (collectively referred to as the “Responsible Agencies”) have agreed to jointly fulfill their
55 responsibilities under Section 106 of the National Historic Preservation Act (16 U.S.C.
56 §470f) (NHPA) for the MCLNO (FEMA Undertaking), the VAMC (VA Undertaking), and
57 the use of CDBG funding (City Undertaking) required to repair or replace medical
58 facilities in Orleans Parish damaged as a result of the Disaster through the development
59 and implementation of a PA under 36 CFR §800.14(b) of the Advisory Council on
60 Historic Preservation’s (ACHP) regulation; and

61
62 **WHEREAS**, the project alternatives under analysis by FEMA and FP&C are (1)
63 Repair/Renovation of Existing Facilities, New Orleans, LA; and (2) Relocation to an area
64 bounded by Tulane Avenue, Canal Street, South Galvez Street, and South Claiborne
65 Avenue, New Orleans, LA (Proposed New LSU Site); and

66
67 **WHEREAS**, the project alternatives under analysis by VA are (1) Relocation of VAMC
68 to the RPC Site bounded by Tulane Avenue, Canal Street, South Galvez Street, and
69 South Rocheblave Street, New Orleans, LA; (2) Relocation of VAMC to the Ochsner
70 Site bounded by Earhart Expressway, Jefferson Highway, Osterly Street, Betz Street,
71 and Coolidge Street, Jefferson Parish, LA; and (3) Relocation of VAMC to the Lindy
72 Boggs Site bounded by North Carrollton Avenue, Conti Street, North Pierce Street,
73 Bienville Street, North Jefferson Davis Parkway, Saint Louis Street, North Telemachus
74 Street, and Toulouse Street, New Orleans, LA; and

75
76 **WHEREAS**, VA and FEMA have defined the Undertakings’ Area of Potential Effect
77 (APE) for the various alternatives as illustrated in Appendix 1; and

78
79 **WHEREAS**, VA and FEMA have consulted with the SHPO and determined that the
80 Undertakings have the potential to affect historic properties that may be eligible for
81 listing in the National Register of Historic Places (Historic Properties) as illustrated in
82 Appendix 2; and

83
84 **WHEREAS**, the Chitimacha Tribe of Louisiana, Coushatta Tribe of Louisiana, Jena
85 Band of Choctaw Indians, Mississippi Band of Choctaw Indians (MBCI), and Tunica
86 Biloxi Tribe of Louisiana are federally recognized sovereign Indian Nations that have a
87 government-to-government relationship with the United States and an interest in the
88 lands included in the Undertakings, and VA and FEMA have notified these Indian tribes
89 of the development of this Agreement and invited the Tribes to participate in the
90 consultation and MBCI has requested Consulting Party status and is invited by the
91 Responsible Agencies to execute this PA as a Concurring Party; and

92

93 **WHEREAS**, FEMA has consulted with FP&C, the Subgrantee of FEMA Public
94 Assistance, and in recognition that FP&C will assume responsibilities to perform various
95 actions described by this PA, FEMA has invited FP&C to participate in this consultation
96 and sign this PA as an Invited Signatory; and
97

98 **WHEREAS**, FEMA has invited GOHSEP, the Grantee of FEMA Public Assistance, to
99 participate in this consultation and sign this PA as a Concurring Party; and
100

101 **WHEREAS**, the Responsible Agencies have invited the City of New Orleans, Historic
102 District Landmarks Commission (HDLC), and the Louisiana State University (LSU) to
103 participate in this consultation and sign this PA as Concurring Parties; and
104

105 **WHEREAS**, 2400 Canal LLC; City of New Orleans, City Council; City of New Orleans,
106 Mayor's Office; City of New Orleans, Office of Recovery Management; Committee to
107 Reopen Charity; Common Knowledge; Deutsches Haus; Downtown Development
108 District of New Orleans; Foundation for Historical Louisiana; Friends of New Orleans
109 Cemeteries; Friends of the Lafitte Corridor; Louisiana Chapter of the International
110 Working Party for Documentation and Conservation of Building Sites and
111 Neighborhoods of the Modern Movement (DOCOMOMO/NOLA); Louisiana Landmarks
112 Society; Lower Mid-City Residents and Business Owners; LSU Site United Property
113 Owners; Mid-City Neighborhood Organization; National Trust for Historic Preservation
114 (NTHP); Orleans Parish School Board; Parkview Neighborhood Association; Phoenix of
115 New Orleans; Preservation Resource Center; RPC; Sewerage & Water Board; State of
116 Louisiana, Office of Community Development; and Tulane/Canal Neighborhood
117 Development Corporation have been invited by the Responsible Agencies to participate
118 in this consultation as Consulting Parties; and
119

120 **WHEREAS**, VA and FEMA notified Allard Boulevard Association; American Institute of
121 Architects, Louisiana Chapter; Archdiocese of New Orleans, Cemetery Office; Charity
122 School of Nursing, Delgado Community College; Churchill Downs; District 5
123 Neighborhood Recovery Group; Esplanade Ridge and Treme Civic Association;
124 Faubourg St. John Neighborhood Association; Historic Resources Inc.; Jefferson
125 Historical Society of Louisiana; Jefferson Parish Historical Commission; Louisiana
126 Recovery Authority; Save Our Cemeteries; Tulane University School of Medicine; and
127 Victory Real Estate of the Undertaking and the opportunity to participate in this
128 consultation, but they either did not respond or declined to participate; and
129

130 **WHEREAS**, in keeping with 36 CFR §800.2(d), VA and FEMA have sought and
131 considered the views of the public, and the Responsible Agencies held meetings with
132 the Consulting Parties on 24 June 2008, 23 July 2008, 12 August 2008, 25 September
133 2008, and 27 October 2008, and collected comments from the Consulting Parties during
134 and following each meeting; and
135

136 **WHEREAS**, VA and FEMA provided an overview of their Section 106 compliance
137 responsibilities at National Environmental Policy Act (NEPA) scoping meetings held on
138 26 June 2008, 17 July 2008, 11 August 2008; and a joint NEPA/NHPA meeting to

139 collect and consider commentary on 28 October 2008; and the VA and FEMA
140 published advertisements in *The Times-Picayune* and the *Louisiana Weekly* to obtain
141 the views of the public regarding the identification of historic properties in the APE for
142 each alternative and input regarding potential effects to historic properties within the
143 APE for each alternative, as well as publishing information regarding this project at
144 <http://www.valsumedcenters.com>, and made information available to Consulting Parties
145 at <http://www.consult106.org> (Website), and employed a dedicated email address for
146 the distribution of information to and the collection of comments from Consulting Parties;
147 and

148
149 **WHEREAS** during the consultation process, the City and the State of Louisiana
150 negotiated and then executed a Cooperative Endeavor Agreement identifying the City
151 as the "Responsible Entity" as the ultimate recipient of CDBG funds; and

152
153 **WHEREAS**, if the VA selects its RPC Site Alternative and/or FEMA and FP&C select
154 the proposed new LSU Site Alternative, the SHPO will develop and implement a
155 program to promote the preservation and rehabilitation of contributing elements within
156 the Mid-City National Register Historic District, which would be adversely affected by
157 these alternatives; VA, the City and FP&C will support the eligible historic preservation
158 costs of the program up to \$1,400,000; the SHPO shall consult with interested parties to
159 develop guidelines for defining eligible preservation and rehabilitation projects to be
160 supported by the program; the program will continue until all funds are expended or for
161 a period of time not to exceed three (3) years; and

162
163 **WHEREAS**, the ACHP has elected to participate in the Section 106 consultation
164 process pursuant to 36 CFR §800.2(b)(1) and will execute this PA as a Signatory; and

165
166 **NOW, THEREFORE**, VA, FEMA, the City, in the event the CDBG funds are used
167 (collectively referred to as the "Responsible Agencies"), ACHP, and Louisiana SHPO
168 agree that the implementation of the following stipulations evidence that the
169 Responsible Agencies have taken into account the effects of these Undertakings upon
170 historic properties, and that this PA evidences compliance with NHPA in accordance
171 with 36 CFR §800.6 (c).

172 173 174 175 **STIPULATIONS**

176 **I. APPLICABILITY**

- 177 A. The stipulations of this PA describe treatment measures for all site alternatives
178 under consideration. The provisions of this PA will apply only to the sites
179 selected for the Undertakings. It is understood that following Site Selection,
180 stipulations referring to non-selected sites for each Undertaking are not
181 applicable. Upon Site Selection, VA and FEMA will notify the Consulting Parties
182 of the Agencies' decisions by posting to the Website.

183

- 184 B. The City is only responsible for ensuring implementation of the stipulations
185 associated with its Undertaking should the VA select the RPC site.
186
187 C. VA is only responsible for ensuring the implementation of the stipulations
188 associated with its Undertaking.
189
190 D. FEMA is only responsible for ensuring the implementation of the stipulations
191 associated with its Undertaking.
192

193 **II. GENERAL**

- 194
195 A. The Signatory, Invited Signatory, and Concurring Parties will send and accept
196 official notices, comments, requests for further information and documentation,
197 and other communications required by this PA by e-mail.
198
199 B. Time designations shall be in calendar days. Failure to comment within specified
200 time designations will be treated as concurrence.
201
202 C. The Responsible Agencies will ensure that Federal, State, or contractor staff who
203 meet the Secretary of the Interior's *Professional Qualification Standards* as
204 determined by FEMA's and VA's Federal Preservation Officers (FPO) and/or
205 HDLC or designees, will be responsible for findings and determinations required
206 by this PA.
207
208 D. Although the projects have been reviewed and evaluated jointly, the VA project to
209 replace its medical facilities and the FEMA and FP&C project to repair or replace
210 healthcare services and medical training are separate projects, and each may be
211 commenced, built and completed independently of the other.
212

213 **III. TRIBAL CONSULTATION**

- 214
215 A. VA and FEMA recognize their government-to-government relationship with Indian
216 tribes, and have notified the Chitimacha Tribe of Louisiana, Coushatta Tribe of
217 Louisiana, Jena Band of Choctaw Indians, Mississippi Band of Choctaw Indians,
218 and Tunica Biloxi Tribe of Louisiana regarding the development of this PA and
219 invited each Indian tribe to execute this PA.
220
221 B. The Responsible Agencies shall take steps to protect confidential information in
222 accordance with Section 304 of NHPA and 36 CFR §800.11(c).
223
224 C. An Indian Tribe may determine that it has no interest in consulting on certain
225 types of Undertakings included in this Agreement and may notify the Responsible
226 Agencies of its determination.
227

228 **IV. PUBLIC PARTICIPATION**

- 230 A. The Responsible Agencies recognize the public interest in their respective
231 Undertakings, and will make reasonable efforts to inform the public of the
232 progress of these Undertakings in a timely manner. Additional public forums
233 include but not limited to City Council Meetings or various Councilmatic Sub-
234 Committee Meetings.
235
- 236 B. The Responsible Agencies shall use various media outlets to request input from
237 the public and to inform the public of the Responsible Agencies' determinations
238 of eligibility and effect and development of measures to avoid, minimize, or
239 mitigate adverse effects. These outlets may include, but are not limited to, the
240 following: *Louisiana Weekly* and *The Times-Picayune*.
241
- 242 C. The Responsible Agencies shall accept responses to its requests for public
243 comments through the U.S. mail and e-mail submittals.
244
- 245 D. The Responsible Agencies will maintain a public website to provide details on the
246 evaluation of each phase of the Undertaking. Data will be included on the status
247 of identification and evaluation efforts, determinations of effect with summary
248 justifications, and proposed mitigation, as appropriate. Written public comments
249 will be solicited for a period of fifteen (15) days after the Website posting of each
250 determination of effect. The Responsible Agencies will consider all comments
251 received during the public comment period. A summary of substantive issues
252 identified in written public comments and Federal actions to be taken in response
253 to those comments will be posted on the website within thirty (30) days of the
254 close of the public comment period.
255

256 **V. ARCHITECTURAL TREATMENT MEASURES: US DEPARTMENT OF**
257 **VETERANS AFFAIRS**
258

- 259 A. This Stipulation sets forth treatment measures for standing historic properties
260 adversely affected by the VA's Undertaking. Archeological historic properties are
261 addressed in Stipulation VII.
262
- 263 B. RPC Site
264
- 265 1. Should the RPC site be selected by VA, VA and the City shall ensure that
266 the following measures are carried out to avoid, minimize, or mitigate
267 adverse effects to historic properties.
268
- 269 2. Measures to Avoid Adverse Effects to Historic Properties
270
- 271 a) Site Security: The City shall ensure that reasonable measures to
272 provide adequate site security are accomplished prior to the VA
273 acquisition of the RPC site; following legal transfer of the property from
274 the City to VA, VA shall ensure that reasonable measures to provide
275 adequate site security are accomplished. Adequate site security shall

276 prohibit to the extent possible, looting and vandalism to historic
277 properties contained within the site. Security measures may include
278 supplemental exterior lighting, on-site security, and regular monitoring
279 of historic properties.

280
281 b) Secure and Ventilate: VA will continue to secure and ventilate the
282 former VAMC addressed at 1601 Perdido Street, to avoid further
283 deterioration of the building.

284
285 c) Retention of Historic Properties:

286
287 i. VA will retain and rehabilitate the Pan-American Life Insurance
288 Company Building and integrate this historic building into the
289 design of the new VAMC.

290
291 ii. If feasible, VA will retain and rehabilitate the Dixie Brewery and
292 integrate this historic building into the design of the new VAMC. VA,
293 in consultation with the SHPO, will first assess the structural
294 stability of the Dixie Brewery and determine if it will be feasible to
295 retain the structure in its entirety. If it is concluded that it is not
296 possible to retain and rehabilitate the entire structure VA will
297 identify the significant features of the Dixie Brewery and integrate
298 those features of the historic building in the design of the new
299 VAMC.

300
301 d) New Construction: Design for site development and new construction
302 will utilize treatments, setback, scale, and massing selections that seek
303 to achieve sensitivity to the architectural character of the Mid-City
304 National Register Historic District.

305
306 i. VA will hold two design review sessions where all interested
307 Consulting Parties that participated in the Section 106 process
308 including the SHPO are invited and welcome to participate. The VA
309 design team will provide a presentation on the design progress,
310 discuss design options, explain what steps were taken to meet the
311 design goals expressed in Stipulation V.B.2.(d), and solicit
312 Consulting Party input. The sessions will be held in New Orleans,
313 and the Consulting Parties will be given at least 14 days prior notice
314 for each design review session.

315
316 ii. Consulting Parties may provide written comments for a period of 14
317 days. Comments will be posted on the Website.

318
319 iii. Within 30 days of the end of the comment period, VA will post a
320 summary response to the substantive comments provided by
321 Consulting Parties on the Website.

3. Measures to Minimize Adverse Effects to Historic Properties

- a) Interim Treatment of the Dixie Brewery and the Pan-American Life Insurance Company Building: Subsequent to Site Selection, and within 6 months of acquisition, the City will secure and ventilate these structures to minimize deterioration of the resources until the transfer of ownership to VA.
 - i. Such stabilization will secure the exterior of the building and character-defining features and ornamentation.
 - ii. The City will forward two (2) copies of summary reports detailing the stabilization measures to the SHPO for comment. If the SHPO does not comment within 14 days of receipt of adequate documentation, the City may assume that SHPO concurs with the plan. The City will finalize the stabilization measures after considering the SHPO's comments and implement those measures.
 - iii. The City will post summary reports of stabilization measures to the Website.
 - iv. VA will continue to secure and ventilate these structures after acquisition until commencement of rehabilitation work.

- b) Vibration Monitoring. Prior to the commencement of any construction, demolition or site disturbance, VA and the City will establish, in consultation with the SHPO, a Vibration Tolerance and Monitoring Program (Program) to safeguard historic properties within the APE from inadvertent damage from vibration due to ground disturbing activities. A structural engineer experienced in traditional materials will develop this program and will take into consideration current soils conditions, strength and duration of disturbance, cumulative effects of ongoing vibration, construction type and current condition of built resources within the APE. The Program will reference the Bureau of Mines' and Federal Transit Administration's vibration standards and justify any discrepancies with these authorities due to site or location specific conditions.
 - i. The Program will define:
 - acceptable ranges of vibration within the APE based on geographic proximity to resources,
 - existing baseline vibration levels,
 - protocols for regular on-site monitoring,

- stop work protocols,
- protocols for further reducing vibrations, as necessary, and
- specific protocols to address vibration at St. Louis Cemetery No. 2.

ii. VA and the City will submit the Program to SHPO for comment, and will post the results of the program to the Website. If SHPO does not comment in a 14-day review period, VA and the City may assume that SHPO concurs with the Program. VA and the City will complete the Program after considering the SHPO's comments and implement the Program.

c) Phased Demolition and Construction: the City will phase demolition and VA will phase construction activities to avoid concentrated indirect adverse effects to surrounding neighborhoods to the extent practicable.

4. Measures to Mitigate Adverse Effects to Historic Properties

a) Participation in the SHPO Mid-City Historic Preservation Mitigation Program:

i. Should VA select the RPC Site Alternative, VA will support the SHPO in its effort to develop and implement a program, described in the preamble to this PA, to promote the preservation and rehabilitation of contributing elements within the Mid-City National Register Historic District, which would be adversely affected by these alternatives. The VA will remit to the SHPO a total cost not to exceed \$700,000 for eligible historic preservation project costs incurred within the Mid-City National Register Historic District.

ii. Should VA select the RPC Site Alternative, the City will support the SHPO in its effort to develop and implement a program, described in the preamble to this PA, to promote the preservation and rehabilitation of contributing elements within the Mid-City National Register Historic District, which would be adversely affected by these alternatives. The City will remit to the SHPO a total cost not to exceed \$400,000 for eligible historic preservation project costs incurred within the Mid-City National Register Historic District.

b) Recordation:

i. Prior to any transfer or sale of VAMC, VA in consultation with the City, will document the former VA Hospital and the VA Managers and Nurses Quarters of the VAMC addressed at 1601 Perdido Street. The recordation will include digital photography and

414 narrative reports and will be performed by, or under the direct
415 supervision of, an individual who meets the Secretary of the
416 Interior's *Professional Qualification Standards* (48 FR 44716) for
417 history, architectural history, or historic architecture. Refer to
418 Appendix 3 for recordation protocols.

419
420 i. VA will post recordation data and resulting materials to the
421 Website.

422
423 ii. Prior to demolition or architectural salvage, VA will document all
424 historic properties within the project footprint that will not be
425 retained. The recordation will include digital photography and
426 narrative reports and will be performed by, or under the direct
427 supervision of, an individual who meets the Secretary of the
428 Interior's *Professional Qualification Standards* (48 FR 44716) for
429 history, architectural history, or historic architecture. Refer to
430 Appendix 3 for recordation protocols.

431
432 iii. VA will post the recordation data and resulting materials to the
433 Website.

434
435 c) Architectural Salvage: Prior to the demolition or substantial alteration
436 of historic properties that will not be retained, VA and the City shall
437 ensure that the salvage of historic architectural elements from historic
438 properties proposed for demolition in the Mid-City National Register
439 Historic District occurs in accordance with the Architectural Salvage
440 plan stipulated in Appendix 4.

441
442 d) Public Interpretation: VA will design and will implement a public
443 interpretation program related to the Mid-City National Register Historic
444 District and the history of the VAMC.

445
446 i. This program may include:

- 447
448 • oral histories;
449 • museum quality, publically accessible, permanent displays;
450 • traveling exhibits;
451 • publically accessible website; and/or
452 • popular publications.

453
454 ii. VA will forward two (2) copies of the program for the public
455 interpretation program with an implementation schedule to the
456 SHPO and the MBCI, for comment. If these parties do not comment
457 within 30-days of receipt, VA may assume that these parties concur
458 with the program and schedule. VA will finalize the public

459 interpretation program after considering the comments and
460 implement the program.

461
462 iii. VA will post the final public interpretation program and resulting
463 materials to the Website.

464
465 e) Local Historic District Designation: The City will assist local interest
466 citizen organization(s) in pursuing the local historic district designation
467 of the Mid-City National Register Historic District by doing the
468 following:

469
470 i. FEMA will provide the HDLC with the data that was gathered and
471 prepared for identification and evaluation of the Mid-City National
472 Register Historic District.

473
474 ii. Within 24 months of execution of this PA, the City will fund a report
475 that could be used to nominate the Mid-City National Register
476 Historic District a New Orleans Historic District Landmark
477 Commission local historic district, should any neighborhood group
478 choose to pursue such a designation, per the appropriate City
479 regulations.

480
481 C. Lindy Boggs Site

482
483 1. VA shall ensure that the following measures are carried out to avoid,
484 minimize, or mitigate adverse effects to historic properties.

485
486 2. Measures to Avoid Adverse Effects to Historic Properties

487
488 a) Secure and Ventilate: VA will continue to secure and ventilate the
489 former VAMC addressed at 1601 Perdido Street to avoid further
490 deterioration of the building.

491
492 b) New Construction: Design for site development and new construction
493 will utilize treatments, setback, scale, and massing selections that seek
494 to achieve sensitivity to the architectural character of the Mid-City and
495 Parkview National Register Historic Districts.

496
497 i. VA will hold two design review sessions where all interested
498 Consulting Parties that participated in the Section 106 process
499 including the SHPO are invited and welcome to participate. The VA
500 design team will provide a presentation on the design progress,
501 discuss design options, explain what steps were taken to meet the
502 design goals expressed in Stipulation V.C.2(b), and solicit
503 Consulting Party input. The sessions will be held in New Orleans,

504 and the Consulting Parties will be given at least 14 days prior notice
505 for each design review session.

506
507 ii. Consulting Parties may provide written comments for a period of 14
508 days. Comments will be posted on the Website.

509
510 iii. Within 30 days of the end of the comment period, VA will post a
511 summary response to the substantive comments provided by
512 Consulting Parties on the Website.

513
514 3. Measures to Minimize Adverse Effects to Historic Properties

515
516 a) Vibration Monitoring. Prior to the commencement of any construction,
517 demolition or site disturbance, VA will establish, in consultation with the
518 SHPO, a Vibration Tolerance and Monitoring Program (Program) to
519 safeguard historic properties within the APE from inadvertent damage
520 from vibration due to ground disturbing activities. A structural engineer
521 experienced in traditional materials will develop this program and will
522 take into consideration current soils conditions, strength and duration
523 of disturbance, cumulative effects of ongoing vibration, construction
524 type and current condition of built resources within the APE. The
525 Program will reference the Bureau of Mines' and Federal Transit
526 Administration's vibration standards and justify any discrepancies with
527 these authorities due to site or location specific conditions.

528
529 i. The Program will define:
530
531 • acceptable ranges of vibration within the APE based on
532 geographic proximity to resources,
533 • existing baseline vibration levels,
534 • protocols for regular on-site monitoring,
535 • stop work protocols,
536 • protocols for further reducing vibrations, as necessary, and
537 • specific protocols to address vibration at St. Louis Cemetery No.
538 2.

539
540 ii. VA will submit the Program to SHPO for comment, and will post the
541 results of the program to the Website. If SHPO does not comment
542 in a 14-day review period, VA may assume that SHPO concurs with
543 the Program. VA will complete the Program after considering the
544 SHPO's comments and implement the Program.

545
546 b) Phased Demolition and Construction. VA will phase demolition and
547 construction activities to avoid concentrated indirect adverse effects to
548 surrounding neighborhoods wherever practicable.

- 4. Measures to Mitigate Adverse Effects to Historic Properties
 - a) Prior to any transfer or sale of VAMC, VA will document the former VA Hospital and the VA Managers and Nurses Quarters of the VAMC addressed at 1601 Perdido Street. The recordation will include digital photography and narrative reports and will be performed by, or under the direct supervision of, an individual who meets the Secretary of the Interior's *Professional Qualification Standards* (48 FR 44716) for history, architectural history, or historic architecture. Refer to Appendix 3 for recordation protocols.
 - i. VA will post the recordation data and resulting materials to the Website.
 - b) Public Interpretation: VA will design and will implement a public interpretation program related to the history of the VAMC.
 - i. This program may include:
 - oral histories;
 - museum quality, publically accessible, permanent displays;
 - traveling exhibits;
 - publically accessible website; and
 - popular publications.
 - ii. VA will forward two (2) copies of the program for the public interpretation program with an implementation schedule to the SHPO and MBCI for comment. If these parties do not comment within 30-days of receipt, VA may assume that these parties concur with the program and schedule. VA will finalize the public interpretation program after considering the comments and implement the program.
 - iii. VA will post the final public interpretation program and resulting materials to the Website.

D. Ochsner Site

- 1. VA shall ensure that the following measures are carried out to avoid, minimize, or mitigate adverse effects to historic properties.
- 2. Measures to Avoid Adverse Effects to Historic Properties
 - a) Secure and Ventilate: VA will continue to secure and ventilate the former VAMC addressed at 1601 Perdido Street, to avoid further deterioration of the building.

b) VA will provide sufficient notice to the owners of the Steam Locomotive 745 to allow them to secure a new location and to move the engine to a location outside the proposed Ochsner site. VA will request that the owner of Steam Locomotive 745 notify the SHPO of the new location once it has been determined.

3. Measures to Mitigate Adverse Effects to Historic Properties

a) Prior to any transfer or sale of VAMC, VA will document the former VA Hospital and the VA Managers and Nurses Quarters of the VAMC addressed at 1601 Perdido Street. The recordation will include digital photography and narrative reports and will be performed by, or under the direct supervision of, an individual who meets the Secretary of the Interior's *Professional Qualification Standards* (48 FR 44716) for history, architectural history, or historic architecture. Refer to Appendix 3 for recordation protocols.

i. VA will post the recordation data and resulting materials to the Website.

VI. ARCHITECTURAL TREATMENT MEASURES: FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

A. This Stipulation sets forth treatment measures for standing historic properties adversely affected by FEMA's Undertaking. Archeological historic properties are addressed in Stipulation VII.

B. Repair/ Renovation of Existing Facilities

1. FEMA will ensure the following stipulations are implemented.

a) Measures to Avoid Adverse Effects to Historic Properties

i. Site Security: FP&C shall ensure that reasonable measures to provide adequate site security are accomplished following Site Selection. Adequate site security shall prohibit to the extent possible, looting and vandalism to historic properties contained within the site. Security measures may include supplemental exterior lighting, on-site security, and regular monitoring of historic properties.

ii. Secure and Ventilate: Within 6 months of Site Selection, FP&C shall secure and ventilate all nine historic properties within the MCLNO campus to avoid further deterioration. These buildings are Charity Hospital, the Dibert Memorial Building, the Lepeyre

642 Miltenberger Building, the General Services Building, the Power
643 House, the Maintenance Shop, the Delgado Building, the
644 Butterworth Building, and the Laundry Building.

- 645
- 646 i. Such stabilization will secure the exterior envelope of the
647 building and character-defining features and ornamentation.
648
- 649 ii. FP&C will forward three (3) copies of summary reports detailing
650 the stabilization measures to FEMA. FEMA will provide
651 comments within 14-days of receipt of plan. FP&C will consider
652 the comments provided by FEMA on the draft submissions to
653 the extent possible and then submit the revised summary to the
654 SHPO. If the SHPO does not comment within 14 days of
655 receipt, FP&C may assume that SHPO concurs with the plan.
656 FP&C will finalize the stabilization plan after considering the
657 SHPO comments and implement the plan.
658
- 659 iii. FP&C will post summary reports of stabilization measures to the
660 Website.
661

662 b) Measures to Minimize Adverse Effects
663

- 664 i. Vibration Monitoring: Prior to the commencement of any
665 construction, demolition or site disturbance, FP&C will develop a
666 Vibration Tolerance and Monitoring Program (Program) to
667 safeguard historic properties within the APE from inadvertent
668 damage from vibration due to ground disturbing activities. This
669 Program will be developed by a structural engineer experienced in
670 traditional materials and will take into consideration current soils
671 conditions, strength and duration of disturbance, cumulative effects
672 of ongoing vibration, construction type and current condition of built
673 resources within the APE.
674
- 675 i. The Program will define:
676
- 677 • acceptable ranges of vibration within the APE based on
 - 678 geographic proximity to resources,
 - 679 • existing baseline vibration levels,
 - 680 • protocols for regular on-site monitoring,
 - 681 • stop work protocols, and
 - 682 • protocols for further reducing vibrations, as necessary, and
 - 683 • specific protocols to address vibration at St. Louis Cemetery No.
684 2.
- 685
- 686 ii. FP&C shall submit the Program to SHPO for comment, notify
687 FEMA in writing and post to the Website. If SHPO does not

688 comment in a 14-day review period, FEMA / FP&C may assume
689 that SHPO concurs with the Program. FP&C will finalize the
690 Program after considering the SHPO comments and implement
691 the Program.

692
693 ii. Repair: Designs for repair by FP&C will consider the Secretary of
694 the Interior's *Standards for Rehabilitation* with emphasis on
695 preservation of the exterior front entrance and interior lobby.

696
697 iii. FP&C will submit design drawings to the SHPO and HDLC for
698 comment during the schematic design and design development
699 stages of the design process, and notify FEMA in writing.

700
701 iv. If the SHPO and/or HDLC do not provide comments to FP&C within
702 14-days of receipt of design drawings, FP&C may assume that
703 these parties concur with the plans. FP&C will finalize the design
704 plan after considering the comments, and implement the plan.

705
706 2. Measures to Mitigate Adverse Effects to Historic Properties

707
708 a) Prior to any repair or renovation efforts to Charity Hospital, FP&C will
709 document Charity Hospital building, located at 1532 Tulane Avenue.
710 The recordation will include digital photography and narrative reports
711 and will be performed by, or under the direct supervision of, an
712 individual who meets the Secretary of the Interior's *Professional*
713 *Qualification Standards* (48 FR 44716) for history, architectural history,
714 or historic architecture. Refer to Appendix 3 for recordation protocols.

715
716 i. FP&C will post the recordation data and resulting materials to the
717 Website.

718
719 C. Relocation to the Proposed New LSU Site

720
721 1. FEMA will ensure the following stipulations are implemented.

722
723 2. Measures to Avoid Adverse Effects to Historic Properties

724
725 a) Site Security: FP&C shall ensure that reasonable measures to provide
726 adequate site security are accomplished following Site Selection and
727 acquisition to prohibit, to the extent possible, looting and vandalism to
728 historic properties contained within the site. Security measures may
729 include supplemental exterior lighting, on-site security, and regular
730 monitoring of historic properties.

731
732 b) Secure and Ventilate: Within 6 months of Site Selection, FP&C shall
733 secure and ventilate all nine historic properties within the MCLNO

734 campus. These buildings are Charity Hospital, the Dibert Memorial
735 Building, the Lepeyre Miltenberger Building, the General Services
736 Building, the Power House, the Maintenance Shop, the Delgado
737 Building, the Butterworth Building, and the Laundry Building.
738

739 i. Such stabilization will secure the exterior of the building and
740 character-defining features and ornamentation.
741

742 ii. FP&C will forward three (3) copies of summary reports detailing the
743 stabilization measures to FEMA. FEMA will provide comments
744 within 14-days of receipt of plan. FP&C will consider the comments
745 provided by FEMA on the draft submissions to the extent possible
746 and then submit the revised summary to the SHPO. If the SHPO
747 does not comment within 14 days of receipt, FP&C may assume
748 that SHPO concurs with the plan. FP&C will finalize the
749 stabilization plan after considering the SHPO comments and
750 implement the plan.
751

752 iii. FP&C will post summary reports of stabilization measures to the
753 Website.
754

755 c) Retention of Historic Properties: FP&C will retain, either through
756 avoidance or integration into the design plan, the Deutsches Haus and
757 Orleans House if feasible.
758

759 i. In its feasibility evaluation FP&C will consider a multitude of factors
760 including the spacing requirements for the project construction,
761 future site development/use needs, set back requirements, local
762 ordinances and Federal regulatory requirements, structural integrity
763 and characteristics of the property, cost to retain the property, and
764 feasibility of use of the property.
765

766 ii. FP&C shall provide written explanation to FEMA and the SHPO of
767 its decision on the retention of Deutsches Haus and Orleans House
768 and post on the Website.
769

770 iii. If FP&C determines that it is feasible to retain the Deutsches Haus
771 and Orleans House, the schematic design and design development
772 plans for the rehabilitation and re-use will be included in the overall
773 site design review described in VI.C.2(d)(i) of this PA.
774

775 iv. If FP&C determines that it is not feasible to retain the Deutsches
776 Haus, FP&C will assist Deutsches Haus in relocating their cultural
777 activities to a different, suitable location within the Mid-City Historic
778 District. In addition, in the event that demolition of the Deutsches
779 Haus cannot be avoided, FP&C will feature Deutsches Haus in the

780 public interpretation program described in VI.C.4(d) of this PA and
781 will document the building. The recordation will include digital
782 photography and narrative reports and will be performed by, or
783 under the direct supervision of, an individual who meets the
784 Secretary of Interior's *Professional Qualification Standards* (48 FR
785 44716) for history, architectural history, or historic architecture.
786 Refer to Appendix 3 for recordation protocols.
787

788 v. If FP&C determines that it is not feasible to re-use Orleans House,
789 FP&C will evaluate the feasibility of moving the building to a new
790 location within the Mid-City Historic District, preferably with frontage
791 on Canal Street. If FP&C determines it is feasible to move Orleans
792 House, FP&C will notify SHPO and HDLC for comment on an
793 appropriate location. FP&C will consider the comments submitted
794 by SHPO and HDLC, if received within 14 days of notification,
795 before selecting a suitable location.
796

797 vi. If FP&C determines it is not feasible to either retain or move
798 Orleans House, FP&C will document the building. The recordation
799 will include digital photography and narrative reports and will be
800 performed by, or under the direct supervision of, an individual who
801 meets the Secretary of the Interior's *Professional Qualification*
802 *Standards* (48 FR 44716) for history, architectural history, or
803 historic architecture. Refer to Appendix 3 for recordation protocols.
804 In addition, FP&C will feature Orleans House in the public
805 interpretation program described in VI.C.4(d) of this PA.
806

807 vii. If FP&C determines that neither the retention nor the removal of
808 Orleans House is practicable, after documentation, FP&C will
809 consider permitting a non-profit historic preservation third-party
810 organization to dismantle and remove the structure, provided they
811 can come to an acceptable agreement to use the structure in a
812 manner sympathetic with its historic significance, and to do so
813 without impeding FP&C's timeframe.
814

815 d) New Construction: Design for site development and new construction
816 will utilize treatments, setback, scale, and massing selections that seek
817 to achieve sensitivity to the architectural character of the Mid-City
818 Historic District.
819

820 i. FP&C will hold two design review sessions where all interested
821 Consulting Parties that participated in the Section 106 process,
822 including the SHPO are invited and welcome to participate. The
823 FP&C design team will provide a presentation on the design
824 progress, discuss design options, explain what steps were taken
825 to meet the design goals expressed in Stipulation VI.C.2(d) and

826 solicit Consulting Party input. The sessions will be held in New
827 Orleans, and the Consulting Parties will be given at least 14
828 days prior notice for each design review session.

829
830 ii. Consulting Parties may provide written comments for a period of
831 14 days. Comments will be posted on the Website.

832
833 iii. Within 30 days of the end of the comment period, VA will post a
834 summary response to the substantive comments provided by
835 Consulting Parties on the Website.
836

837 3. Measures to Minimize Adverse Effects to Historic Properties

838
839 a) Vibration Monitoring: Prior to the commencement of any construction,
840 demolition or site disturbance, FP&C will develop a Vibration Tolerance
841 and Monitoring Program (Program) to safeguard historic properties within
842 the APE from inadvertent damage from vibration due to ground disturbing
843 activities. This Program will be developed by a structural engineer
844 experienced in traditional materials and will take into consideration current
845 soils conditions, strength and duration of disturbance, cumulative effects
846 of ongoing vibration, construction type and current condition of built
847 resources within the APE.

848
849 i. The Program will define:

- 850
- 851 • acceptable ranges of vibration within the APE based on
 - 852 geographic proximity to resources,
 - 853 • existing baseline vibration levels,
 - 854 • protocols for regular on-site monitoring,
 - 855 • stop work protocols, and
 - 856 • protocols for further reducing vibrations, as necessary.
 - 857 • specific protocols to address vibration at St. Louis Cemetery No.
 - 858 2.

859
860 ii. FP&C shall submit the Program to SHPO for comment, notify FEMA in
861 writing and post to the Website. If SHPO does not comment in a 14-
862 day review period, FEMA / FP&C may assume that SHPO concurs
863 with the program. FP&C will finalize the Program after considering the
864 SHPO comments and implement the Program.
865

866 b) Phased Demolition and Construction: FP&C will phase demolition and
867 construction activities to avoid concentrated indirect adverse effects to
868 surrounding neighborhoods wherever practicable.
869

911
912
913
914
915
916

- a) Participation in SHPO Mid-City Historic Preservation Mitigation Program:
 - i. Should FEMA and FP&C's select the proposed new LSU Site Alternative, FP&C will support the SHPO in its effort to develop and implement a program, described in the preamble to this PA, to promote the preservation and rehabilitation of contributing elements within the Mid-City Historic District, which would be adversely affected by these alternatives. FP&C will remit the SHPO for these eligible historic preservation project costs for a total cost not to exceed \$300,000.

- b) Recordation: Prior to demolition and architectural salvage, FP&C will document all historic properties within the project footprint that will not be retained. The recordation will include digital photography and narrative reports and will be performed by, or under the direct supervision of, an individual who meets the Secretary of the Interior's *Professional Qualification Standards* (48 FR 44716) for history, architectural history, or historic architecture. Refer to Appendix 3 for recordation protocols.
 - i. FP&C will post the recordation data and resulting materials to the Website.

- c) Architectural Salvage: Prior to the demolition or substantial alteration of historic properties, FP&C shall ensure that the salvage of historic architectural elements from historic properties proposed for demolition in the Mid-City Historic District occurs in accordance with the process stipulated in Appendix 4.

- d) Public Interpretation: FP&C will design and will implement a public interpretation program related to the Mid-City National Register Historic District, Charity Hospital, McDonogh School No. 11, Deutsches Haus, and Orleans House.
 - i. This program may include:
 - oral histories;
 - museum quality, publically accessible, permanent displays;
 - traveling exhibits;
 - publically-accessible website; and
 - popular publications.

 - ii. FP&C will forward two (2) copies of the program for the public interpretation program with an implementation schedule to the SHPO for comment and notify FEMA in writing. If the SHPO does not comment within a 14-day review period, FP&C may assume that the SHPO concurs with the program and schedule. FP&C will finalize the

- 917 public interpretation program after considering the SHPO comments
918 and implement the program.
919
- 920 iii. FP&C will post the final public interpretation program and resulting
921 materials to the Website.
922
- 923 e) Local Historic District Designation: In partnership, FEMA and the City will
924 seek to assist local interest citizen organization(s) in pursuing the local
925 historic district designation process for the Mid-City National Register
926 Historic District by doing the following:
927
- 928 i. FEMA will provide the City's Historic District Landmarks Commission
929 (HDLC) with the data that was gathered and prepared for FEMA
930 identification and evaluation of the Mid-City Historic District.
931
- 932 ii. Within 24 months of execution of this PA, for its part, the City will fund
933 a report that could be used to nominate the Mid-City National Register
934 Historic District a New Orleans Historic District Landmark Commission
935 local historic district, should any neighborhood group choose to pursue
936 such a designation, per the appropriate city regulations.
937
- 938 f) Reuse and/or Disposition of Historic Buildings in the Medical Center of
939 Louisiana at New Orleans (MCLNO)
940
- 941 i. FP&C and LSU will develop a strategic plan to foster and encourage
942 adaptive reuse of nine historically significant buildings that were part of
943 the twenty-three buildings that made up the former MCLNO that were
944 damaged by Hurricane Katrina. These historic properties already have
945 been identified, and they are: Charity Hospital, the Dibert Memorial
946 Building, the Lepeyre Miltenberger Building, the General Services
947 Building, the Power House, the Maintenance Shop, the Delgado
948 Building, the Butterworth Building, and the Laundry Building.
949
- 950 ii. LSU will determine which of the above-mentioned nine historic
951 properties may be suitable for its use. For those historic properties
952 LSU determines are not suited for its use, FP&C will offer these
953 buildings to other state agencies in accordance with State law. For
954 those buildings not needed by other State agencies, FP&C will consult
955 with the SHPO on the key historic elements of each building prior to
956 making those remaining historic properties available to other interested
957 parties, all in accordance with state law. The SHPO will have fourteen
958 (14) days to respond.
959
- 960 iii. FP&C will endeavor to promote adaptive reuse for those nine
961 historically significant buildings that neither it nor other state agencies
962 use. During this process, FP&C will give notice to the SHPO and to

963 those groups and individuals who participated in this Section 106
964 process as Consulting Parties. Additionally, public meetings and/or
965 forums will be held at no less than two points in the process of
966 evaluating the reuse or transfer of these properties from State control,
967 to solicit input and comments from the interested parties.
968

- 969 iv. If it is determined that Charity Hospital is not suitable for use by a state
970 agency, FP&C and/or LSU will consult with the City and the SHPO and
971 will prepare a marketing study that will consider state or municipal tax
972 incentives, grants, financing, or other development incentives in
973 addition to the potential for Federal historic preservation income tax
974 credits for the rehabilitation of historic income producing properties.
975
- 976 i. FP&C and/or LSU will provide the Signatories and Concurring
977 Parties documentation of the marketing study and its use and will
978 also post this documentation on the project website to inform the
979 public.
980
- 981 ii. FP&C and/or LSU will develop the marketing study upon the
982 conclusion of the design process for the new facility, and will
983 actively attract and encourage offers from public or private entities
984 to rehabilitate and re-use the existing historic Charity Hospital
985 building for a minimum of two years following completion and
986 publication of the marketing study.
987
- 988 iii. Conditioned upon legislative approval, the State will deed an
989 exterior and selective interior preservation easement to an
990 appropriate third-party non-profit historic preservation organization
991 prior to transferring ownership to a municipal or private entity and
992 stipulate in the property transfer that any rehabilitation or
993 improvements to the property be made in accordance with the
994 Secretary of the Interior's *Standards for Rehabilitation*.
995
- 996 iv. If after publication of the marketing study and attempting to attract a
997 qualified purchaser for a minimum of two years, the State has been
998 unsuccessful, the State may dispose of the property as it sees fit,
999 up to and including transfer without easement or stipulations and/or
1000 demolition of the building, with no further obligations under this PA.
1001
- 1002 v. FP&C will contract for the individual National Register nomination of
1003 Charity Hospital, and will ensure that the appropriate documentation
1004 for that nomination is submitted to the SHPO within 12 months of the
1005 execution of this PA.
1006

1007 **VII. CONSIDERATION OF ARCHAEOLOGICAL PROPERTIES: U.S. DEPARTMENT**
1008 **OF VETERANS AFFAIRS (VA) AND THE FEDERAL EMERGENCY**
1009 **MANAGEMENT AGENCY (FEMA)**
1010

1011 A. Timing and Responsibilities
1012

- 1013 1. Immediately following Site Selection by VA and FP&C, VA and FEMA will
1014 take steps to ensure that adequate site security is established following
1015 acquisition to prohibit, to the extent possible vandalism to archaeological
1016 sites. For the properties acquired by FP&C, R.S. 41:1601 et seq. applies to
1017 state land. VA, FEMA, and FP&C will work to research the probable location
1018 of National Register-eligible archaeological properties; identify National
1019 Register-eligible archaeological properties; evaluate any such identified sites
1020 to determine if they retain integrity and meet the National Register criteria;
1021 and avoid, minimize, or mitigate National Register-eligible archaeological
1022 sites. These steps may be undertaken as right of entry becomes available or
1023 as identification and evaluation efforts are completed. VA, FEMA, and FP&C
1024 may elect to collaborate in the development of background documentation
1025 and other steps to evaluate and mitigate National Register archaeological
1026 properties. If the agencies do not jointly develop materials required by this
1027 stipulation, each agency remains responsible for completing each step
1028 outlined by this stipulation for the site selected for that agency's Undertaking.
1029 FEMA will ensure that FP&C implements mitigation measures associated with
1030 the FEMA Undertaking. VA and FEMA, with FP&C may elect to pursue joint
1031 consultation, and this will be subject to the requirements of Stipulation II.C.
1032

1033 B. Identification of Archaeological Sites.
1034

- 1035 1. Background Research and Sensitivity Modeling: VA and/or FP&C will
1036 research and delineate the locations, within the APE, for each project which
1037 are known to possess a high potential to contain archaeological sites. This
1038 research and delineation will be based upon analyses of existing data on
1039 geomorphology and topography, historic maps, previous cultural resources
1040 investigations, cartographic information on the history of public works
1041 improvements, oral histories, and census, deed and tax records. VA and/or
1042 FP&C will also correlate geological and soils data with prehistoric,
1043 protohistoric, and historic land use patterns. This data will be recorded and
1044 analyzed using geographic information systems (GIS) technology. The
1045 background research will be used by VA and/or FP&C to develop a
1046 prehistoric and historic context that will be the basis for evaluating the
1047 National Register eligibility of archaeological properties that may be identified.
1048 2. Disturbance Study: VA and/or FP&C will review archival and cartographic
1049 materials and will conduct a block-by-block inspection of the sites selected for
1050 the Undertakings as a part of the Disturbance Study. VA and/or FP&C will
1051 identify those portions of the selected sites that have been sufficiently
1052 disturbed by previous construction, development, grading and demolition in

1053 order to determine where there is a low potential for National Register eligible
1054 archaeological properties.

1055
1056 3. Development of an Archaeological Probability Model: VA and/or FP&C will
1057 use the prehistoric and historic context, background research and the
1058 disturbance study to map the locations within the area of potential effects that
1059 have a high or low potential for containing National Register-eligible
1060 archaeological properties. VA will provide information, including background
1061 documentation, showing its determinations to SHPO and MBCI for review and
1062 comments. FP&C will provide information, including background
1063 documentation, showing its determinations to FEMA for a 7-day review. If
1064 FEMA does not comment within 7 days of their receipt of adequate
1065 documentation, FP&C may assume concurrence. Following FEMA
1066 concurrence, FP&C will provide information, including background
1067 documentation, showing its determinations to SHPO and MBCI for review and
1068 comments. If SHPO and MBCI do not comment within 14 days of their receipt
1069 of adequate documentation, VA, FP&C and FEMA will proceed with field
1070 investigation described below. VA, FP&C and FEMA will consult with SHPO
1071 and/or MBCI to address any comments.

1072
1073 4. Field Investigations for Identification: VA and/or FP&C may use a range of
1074 field investigation techniques to identify archaeological properties and to
1075 determine if they possess integrity and may be eligible for listing in the
1076 National Register of Historic Places, in so far as possible. Techniques may
1077 include shovel, auger, or mechanical testing, as appropriate and
1078 archaeological monitoring of demolitions in those areas determined to have a
1079 high potential for National Register-eligible archaeological sites. Fieldwork to
1080 identify archaeological sites and features will commence at site acquisition or
1081 receipt of rights-of-entry. Historic archaeological sites will be delineated as a
1082 city block, with NR eligibility evaluated for individual loci defined as tax lots
1083 within each site.

1084
1085 5. Reporting: VA and/or FP&C will forward a weekly field report to FEMA,
1086 SHPO, and MBCI during each field investigation step. Each weekly report will
1087 include a brief description of the field methods used, the locations
1088 investigated, sites identified, and features found, if any. Draft site forms will be
1089 submitted to SHPO. Following the completion of field investigation, VA and
1090 FP&C will prepare a Management Summary Report. The Management
1091 Summary Report will include preliminary evaluations of archaeological sites
1092 and provide recommendations for further work.

1093
1094 6. VA will provide the Management Summary Report for Identification to the
1095 SHPO and MBCI for review and comment. FP&C will provide the
1096 Management Summary Report for Identification to FEMA for review and
1097 comment. If FEMA does not provide comment within 7 days of their receipt of
1098 adequate documentation, FP&C may assume concurrence with the Report.

1099 Following FEMA review, FP&C will forward the Management Summary
1100 Report for Identification to SHPO and MBCI for review and comments. If
1101 SHPO and MBCI do not comment within 14 days of receipt of a complete
1102 report, VA and/or FP&C will proceed with field investigation described below.
1103 VA, FEMA, and FP&C will consult with SHPO and/or MBCI to address any
1104 comments.
1105

1106 C. Evaluation of Archaeological Sites, Assessment of Effects, and Evaluation of
1107 Means to Avoid, Minimize, or Mitigate Adverse Effects
1108

- 1109 1. Field Investigation for National Register Eligibility: VA and/or FP&C will
1110 evaluate those sites identified in the Management Summary Report for
1111 Identification that it determines in consultation with the SHPO and MBCI
1112 require further investigation and will apply the National Register criteria for
1113 evaluation (36 CFR 60.4 [a-d]) to determine their significance and integrity.
1114 Such evaluations will apply standard archaeological methodologies, as
1115 defined in Louisiana Division of Archaeology Guidelines for Field Methods.
1116 Evaluation will identify those sites that possess research potential under
1117 National Register criteria and the Louisiana Comprehensive Archaeological
1118 Plan and that retain those qualities of integrity and significance defined by the
1119 National Register criteria. This process will analyze field data within the
1120 appropriate prehistoric and historic context for the site. Fieldwork to evaluate
1121 archaeological sites and features may commence concurrently with
1122 identification efforts as necessary to allow for efficient completion of the work
1123 provided that the Responsible Agency consults with, SHPO and MBCI.
1124
- 1125 2. VA and FEMA will assess the effects of their Undertakings on any
1126 archaeological sites which it finds to be National Register-eligible. VA and
1127 FEMA will evaluate means to avoid or minimize any such adverse effects to
1128 National Register-eligible archaeological sites. Measures to be evaluated
1129 include but are not limited to encapsulation, preservation in situ, and
1130 construction fencing. If adverse effects to National Register-eligible
1131 archaeological sites may not be avoided, VA and FEMA will develop
1132 appropriate mitigation.
1133
- 1134 3. VA and FEMA may consider a range of mitigation measures for adverse
1135 effects on National Register-eligible archaeological sites, such as individual
1136 site data recovery, representative site data recovery, education and public
1137 involvement efforts, or other reasonable and good faith efforts commensurate
1138 with the scale of the undertaking, its effects on archaeological sites, and the
1139 significance of the adversely affected National Register-eligible
1140 archaeological sites.
1141
- 1142 4. Reporting: VA and/or FP&C will forward a weekly field report to SHPO, FEMA
1143 and MBCI during each field investigation step. Each weekly report will include

1144 a brief description of field methods used, preliminary recommendations and
1145 field investigation progress.

1146

1147 5. VA will provide the Management Summary Reports to the SHPO and MBCI
1148 for review and comment. FP&C will provide the Management Summary
1149 Reports to FEMA for review and comment. If FEMA does not provide
1150 comment within 7 days of receipt of adequate documentation, FP&C may
1151 assume concurrence with the Report. Following FEMA review, FP&C will
1152 forward the Management Summary Report to SHPO and MBCI for review and
1153 comments. If SHPO and MBCI do not comment within 14 days of receipt of a
1154 complete report, VA and/or FP&C will proceed with field investigation
1155 described below. VA, FEMA, and FP&C will consult with SHPO and/or MBCI
1156 to address any comments.

1157

1158 6. The Management Summary Report will document the Responsible Agency's
1159 determination of eligibility for the archaeological site(s), its assessment of
1160 adverse effects, and its consideration of means to avoid, minimize, or mitigate
1161 any adverse effects on the archaeological site(s). If SHPO and MBCI do not
1162 comment within 14 days of receipt of the complete report, VA and FEMA will
1163 assume that SHPO and MBCI concur with the evaluation. VA and FEMA will
1164 consult with SHPO and/or MBCI to address any comments. VA and/or FP&C
1165 will not prepare a Management Summary Report for the entire area of
1166 potential effect for archaeological sites.

1167

1168 D. Treatment Strategies for Archaeological Properties.

1169

1170 1. Data Recovery Plan: If the Responsible Agency determines in consultation
1171 with the SHPO and MBCI that data recovery is required for individual or
1172 representative National Register-eligible archaeological sites, VA and/or
1173 FEMA and FP&C will develop one or more archaeological Data Recovery
1174 Plans. Data Recovery Plans may be developed separately by the individual
1175 agencies or in a joint document. VA and/or FEMA and FP&C will forward two
1176 (2) copies of each Data Recovery Plan to SHPO and MBCI for comment. If
1177 SHPO and MBCI do not comment within a 14-day review period of receipt of
1178 the plan, VA and/or FEMA and FP&C will assume that SHPO and MBCI
1179 concur with the plans. VA and/or FEMA and FP&C will finalize and implement
1180 the Data Recovery Plans after considering SHPO and MBCI comments.

1181

1182 a. The Data Recovery Plan may employ a sampling strategy to achieve
1183 the objectives of the data recovery and promote the efficient
1184 completion of the Undertakings.

1185

1186 b. Oral Histories. If appropriate to enhance the Data Recovery Plan, VA
1187 and/or FP&C will conduct oral history interviews, in accordance with
1188 Oral History Association Principles and Standards, with members of
1189 the public that may contribute to the research goals of the data

1190 recovery effort or record knowledge of the local history of the selected
1191 site. The oral histories will be deposited at a public depository or
1192 archive.

1193
1194 c. Public Outreach. VA and/or FP&C will incorporate a public archaeology
1195 program into the public interpretation plan required in Stipulations
1196 V.B.4(d), V.C.4(b), V.D.3(a), and VI.C.4(d). SHPO may assume
1197 responsibility for hosting and maintaining the website, and for
1198 maintaining and distributing exhibits and printed matter upon
1199 completion of the projects.

1200 2. Data Recovery. If required, FP&C and/or VA will execute the data recovery as
1201 specified in the Data Recovery Plan/s. Data recovery may commence
1202 concurrently with evaluation efforts as necessary to allow for efficient
1203 completion of the work provided that the Responsible Agency consults with
1204 the SHPO and MBCI. Data recovery will be conducted in accordance with the
1205 Louisiana Division of Archaeology field standards.

1206
1207 3. Reporting. FP&C and/or VA will ensure that a comprehensive report for each
1208 project, including the results of the archival research, sensitivity modeling,
1209 and probability mapping, field identification methods and results, site
1210 evaluation methods and results, and data recovery methods and results is
1211 prepared. These reports will include final Divisions of Archaeology site forms
1212 for all sites identified. These reports will follow the standards of the Louisiana
1213 Division of Archaeology, and will be provided to FEMA for a review and
1214 comment period, before submission to SHPO and MBCI for comment and
1215 review.

1216
1217 4. VA will curate all archaeological materials, reports and associated records
1218 from their project accordance with 36CFR79 at a federally approved facility.
1219 FP&C will curate all archaeological materials, reports and associated records
1220 from their project in accordance with the standards of the Louisiana Division
1221 of Archaeology, and all collections and associated records will be curated with
1222 the Division of Archaeology.

1223
1224 **VIII. POST-REVIEW DISCOVERIES**

1225
1226 A. If potential historic properties are discovered or unanticipated effects on historic
1227 properties are found in a VA alternative, VA shall notify the SHPO, City, federally
1228 recognized tribes, and the ACHP within 48 hours of discovery. If potential historic
1229 properties are discovered at the RPC site, and the City is the current owner of
1230 the property at that time, the City shall notify VA, SHPO, the federally recognized
1231 tribes, and the ACHP within 48 hours of the discovery. If potential historic
1232 properties are discovered or unanticipated effects on historic properties are found
1233 in a FEMA / FP&C alternative, FP&C shall notify FEMA immediately. Within 48
1234 hours of notification, FEMA will contact the SHPO, City, federally recognized
1235 tribes, and the ACHP.

1281

1. If construction has not yet commenced, the Responsible Agency will also notify the parties that have concurred in this PA and invite them to consult to resolve adverse effects pursuant to 36 CFR § 800.6.
 2. If construction is underway, VA (in the case of the VA Undertaking) or FP&C (in the case of the FEMA Undertaking) immediately shall secure the jobsite and suspend work in the vicinity of the affected resource. VA or FEMA will consult with the Signatories federally recognized tribes, and the ACHP to resolve adverse effects. The Responsible Agency shall take into account the recommendations of these parties and take appropriate actions and provide a report of the actions when they are completed.
- B. VA and FP&C shall insure that all construction contractors are made aware of the requirements of the PA.
- C. Treatment of Human Remains: If, in the course of the Undertakings, human skeletal remains are uncovered, the Responsible Agencies shall direct their contractor to stop work immediately in the vicinity of the discovery. The Responsible Agency shall notify the City Attorney's Office, the New Orleans Police Department, and the Orleans Parish Coroner's Office within 24 hours of the discovery. The Responsible Agency shall ensure that the notice of the discovery required by Louisiana Unmarked Human Burial Sites Preservation Act (R.S. 8:671 et seq.) is given to the Secretary of Culture, Recreation, and Tourism (CRT) or the Secretary's designee by contacting the Louisiana Division of Archeology at 225-342-8170 within seventy-two (72) hours of the discovery. Within seventy-two (72) hours of the discovery, the Responsible Agency will notify and coordinate with federally recognized Indian tribes who may attach religious and cultural significance to the discovery. The local law enforcement officials shall assess the nature and age of the human skeletal remains. If the coroner determines that the human skeletal remains are older than 50 years of age and are not a crime scene, the Secretary of CRT has jurisdiction over the remains. The Responsible Agencies shall require that the guidelines contained in the ACHP's 2007 "Policy Statement Regarding Burial Sites, Human Remains, and Funerary Objects" or any subsequent Policy Statements that are issued after the execution of this Agreement are followed.
1. In cases where the human remains discovered as part of the FEMA Undertaking are determined to be American Indian, FEMA shall consult with the federally recognized Indian tribes and the Secretary of CRT in a timely manner to determine the disposition of the human remains. Such consultation shall include a site visit to review the situation.
 2. If human remains are discovered as part of the VA Undertaking, and are determined to be American Indian, VA shall consult and notify SHPO within 3 days and shall develop and implement a plan for the appropriate treatment of

1282 those remains in accordance with the Native American Graves Protection and
1283 Repatriation Act (NAGPRA) (25 USC § 3001 et. seq. as appropriate) and the
1284 Archaeological Resources Protection Act (ARPA) (16 § USC 470aa et. seq.)
1285 and their respective regulations. The plan shall include provisions for in-place
1286 preservation, excavation, and analysis, in accordance with a data recovery
1287 plan approved pursuant to this Agreement, and disposition of the remains as
1288 appropriate. VA shall, in good faith, consult with the relevant parties in
1289 accordance with applicable law. VA shall then submit the plan to the SHPO
1290 for review and comment prior to its implementation.
1291

1292 **IX. DISPUTE RESOLUTION**
1293

- 1294 A. Should a Signatory, Invited Signatory, or Concurring Party object to the
1295 implementation of the provisions of this PA, they shall notify in writing the
1296 Responsible Agencies, who will seek to resolve such objection through
1297 consultation.
1298
- 1299 B. If the dispute cannot be resolved through consultation, the Responsible Agencies
1300 shall forward all documentation relevant to the dispute to the ACHP, including
1301 any proposed resolution identified during consultation. Within 7 days after
1302 receipt of all pertinent documentation, the ACHP may:
1303
- 1304 1. Provide the Responsible Agency with recommendations to take into account
1305 in reaching a final decision regarding the dispute; or
1306
 - 1307 2. Notify the Responsible Agency that it will comment pursuant to 36 CFR
1308 §800.7(c) with reference to the subject of the dispute.
1309
- 1310 C. If the ACHP does not provide the Responsible Agency with comments or
1311 recommendations within 7 days, the Federal partners may assume that the
1312 ACHP does not object to its recommended approach and shall proceed
1313 accordingly.
1314
- 1315 D. Any recommendation or comment provided by ACHP shall be understood to
1316 pertain only to the subject of the dispute, and the Responsible Agencies
1317 responsibilities to fulfill all actions that are not subject of the dispute shall remain
1318 unchanged.
1319
- 1320 E. Any dispute regarding National Register eligibility that is not resolved pursuant to
1321 this Stipulation will be resolved in accordance with 36 CFR 800.4(c)(2).
1322

1323 **X. ADMINISTRATION AND DURATION OF THIS PA**
1324

- 1325 A. This PA shall become effective immediately upon signature by all Signatory
1326 Parties. For all Signatory Parties, this PA shall be executed in counterparts, with
1327 a separate signature page for each Signatory party, and the Responsible

1328 Agencies shall provide each Consulting Party with a complete copy of the
1329 executed PA including all signature pages.

1330
1331 B. This PA will remain in effect for five (5) years from the date of execution, unless
1332 extended for a two-year period by written agreement negotiated by all
1333 Signatories.

1334
1335 C. The Responsible Agencies shall provide all Signatories with semi-annual Interim
1336 Progress Reports, which will be submitted every six (6) months from the
1337 execution of this PA.

1338
1339 **XI. AMENDMENT AND TERMINATION**

1340
1341 A. Any of the Signatories and Invited Signatories to this PA may request an
1342 amendment. The PA may be amended when such an amendment is agreed to in
1343 writing by all Signatories. The amendment will go into effect on the date of the
1344 signature by the final Signatory.

1345
1346 B. If the PA is not amended, the Signatories or Invited Signatories may terminate
1347 the PA by providing a thirty (30) day written notice to the other parties provided
1348 that the parties consult during this thirty (30) day time frame to seek amendments
1349 or other actions that would prevent termination. Should consultation fail, the
1350 Responsible Agencies will notify the other parties in writing of the termination.

1351
1352 C. Termination of the Agreement will require FEMA to comply with the 2004
1353 executive Statewide Programmatic Agreement and will require VA and the City to
1354 comply with 36 CFR Part 800. This PA may be terminated without further
1355 consultation by the execution of a subsequent agreement that explicitly
1356 terminates or supersedes this PA.

1357
1358 EXECUTION AND IMPLEMENTATION of the Programmatic Agreement pursuant to 36
1359 CFR §800.14(b) evidences that the Responsible Agencies have afforded ACHP a
1360 reasonable opportunity to comment on the Undertaking and its effects on historic
1361 properties, that The Responsible Agencies have taken into account the effects of the
1362 Undertaking on historic properties, and that the Responsible Agencies have satisfied
1363 their responsibilities under Section 106 of the National Historic Preservation Act and
1364 applicable implementing regulations.

1365
1366 This PA shall become effective immediately upon signature by all Signatory Parties.
1367 For all Signatory Parties, this PA shall be executed in counterparts, with a separate
1368 signature page for each Signatory Party, and the Responsible Agencies shall provide
1369 each Consulting Party with a complete copy of the executed PA including all signature
1370 pages.

DRAFT

DRAFT
PROGRAMMATIC AGREEMENT

APPENDIX 1:
FINDINGS OF AREA OF POTENTIAL EFFECT

DEPARTMENT OF VETERANS AFFAIRS
Office of Construction & Facilities Management
Washington DC 20420

July 17, 2008

Pamela A. Breaux
State Historic Preservation Officer
Department of Culture, Recreation & Tourism
P.O. Box 44247
Baton Rouge, LA 70804

RE: Repair or Replacement of Healthcare Facilities Comprising the U.S. Department of Veterans Affairs New Orleans Medical Campus that were Damaged by Hurricanes Katrina and Rita, New Orleans, LA

Dear Ms. Breaux:

As a result of damages from Hurricanes Katrina and Rita, the U.S. Department of Veterans Affairs (VA) decided to repair or replace the New Orleans VA Medical Center located at 1601 Perdido Street, New Orleans, Louisiana. VA recently notified you that it was initiating consultation pursuant to Section 106 of the National Historic Preservation Act for this Undertaking.

VA has identified three Alternatives. VA will analyze the three Alternatives as part of the Section 106 review for its proposed Undertaking and has identified an Area of Potential Effect (APE) representing the area(s) in which standing structures may be affected for each of these three Alternatives. VA has determined the National Register eligibility of standing structures located within each APE. VA will consult with the State Historic Preservation Officer (SHPO) regarding the delineation of APEs for areas in which archeological properties may be affected as well as identification and evaluation of archeological properties in a subsequent step of the Section 106 review.

This letter requests SHPO's concurrence on VA's determination of the Standing Structures APE for each of the three Alternatives and VA's determinations regarding the National Register eligibility of standing structures located within each APE. These APEs are subject to change as more information about the project is developed and we will consult with your office at that time.

1st Alternative: Rebuild VA Hospital in Place:

The APE for this alternative includes the existing VA campus as well as those blocks bounded by the I-10 elevated interstate, Poydras Street, Loyola Avenue, and Cleveland Avenue, as illustrated in Figure 1. This APE is based on the assumptions that all of the buildings within the campus will be demolished and rebuilt and that the new buildings will not exceed twenty (20) stories.

The APE lies within the New Orleans Medical Historic District, a district determined to be eligible by FEMA in consultation with SHPO.

National Register Historic Districts		
Name	Date on Register	Boundaries
New Orleans Medical Historic District	2006	Roughly bounded by I-10, Tulane Avenue, South Liberty Street, and Tulane Avenue

The following individually eligible or listed properties are located within the APE:

Properties Listed in NRHP			
Building Name	Date on Register	Address	Street
Charity Hospital	Determined Eligible 2005	1532	Tulane Avenue
Sister Stanislaus Memorial Building	2003	450	South Claiborne Avenue
State Office Building	Determined Eligible 2007	325	Loyola Avenue
State Office Building Annex	Determined Eligible 2006	301	Loyola Avenue
Civil Courts Building	Determined Eligible 2007	421	Loyola Avenue
New Orleans Public Library	Determined Eligible	219	Loyola Avenue

VA has determined that the following properties within the APE contribute to a listed or eligible National Register Historic District.

Address	Direction	Street	Determination	Historic District
1532		Tulane Avenue	Eligible	New Orleans Medical
300 even	South	Claiborne Avenue	Eligible	New Orleans Medical
450	South	Claiborne Avenue	Eligible	New Orleans Medical
1430		Tulane Avenue	Eligible	New Orleans Medical
1504-08		Gravier Street	Eligible	New Orleans Medical
1541		Tulane Avenue	Eligible	New Orleans Medical
1542		Tulane Avenue	Eligible	New Orleans Medical
1544		Tulane Avenue	Eligible	New Orleans Medical
1545		Tulane Avenue	Eligible	New Orleans Medical
1600		Gravier Street	Eligible	New Orleans Medical
1601		Perdido Street	Eligible	New Orleans Medical

Address	Direction	Street	Determination	Historic District
1601		Perdido Street	Eligible	New Orleans Medical
405		LaSalle Street	Eligible	New Orleans Medical
422		Freret Street	Eligible	New Orleans Medical
439		LaSalle Street	Eligible	New Orleans Medical
445		LaSalle Street	Eligible	New Orleans Medical

VA has determined that the following properties within the APE do not contribute to a listed or eligible National Register Historic District nor are they individually eligible for listing in the NRHP.

Address	Direction	Street	Determination	Historic District
1523		Perdido Street	Not Eligible	New Orleans Medical
1661		Gravier Street	Not Eligible	New Orleans Medical
1601		Perdido Street	Not Eligible	New Orleans Medical

2nd Alternative: Construct Replacement Facilities at the Ochsner Site:

The APE for the Ochsner alternative is Earhart Expressway, Jules Avenue, Jefferson Highway, River Road, and Deckbar Avenue, as illustrated in Figure 2. The APE is based up on the assumption that the height of any new buildings will not exceed six (6) stories.

The APE does not intersect any existing or proposed National Register Historic Districts. The APE does not encompass any properties potentially eligible for listing in the NRHP.

3rd Alternative: Construct Replacement Facilities at the RPC Site:

VA has identified the area proposed by the Regional Planning Commission (RPC) and bounded by South Rocheblave Street, Canal Street, South Galvez Street and Tulane Avenue as a feasible site for the construction of replacement facilities, as illustrated in Figure 3.

The APE for the new construction alternative is bordered by the Broad Street Overpass, St. Louis Street, North Robertson Street, Tulane Avenue, and the I-10 elevated interstate. The APE is based up on the assumption new buildings will not exceed six stories and there will no additional vibratory effect.

The APE contains portions of the existing Mid-City National Register Historic District and the proposed New Orleans Medical Historic District.

Listed and Eligible National Register Historic Districts		
Name	Date on	Boundaries

	Register	
Mid-City Historic District	1993	Roughly bounded by Derbigny Street, Conti Street, City Park Avenue, and I-10
New Orleans Medical Historic District	Proposed 2006	Roughly bounded by I-10, Tulane Avenue, South Liberty Street, and Tulane Avenue

The following individually eligible or listed properties are located within the APE:

Properties Individually Eligible or Listed in NRHP			
Building Name	Date in Register	Address	Street
Pan American Building	2007	2400	Canal Street
St. James AME Church	1982	222	North Roman Street
St. Louis Cemetery No. 2	1975	1600	St. Louis Street
Charity Hospital	Determined Eligible 2005	1532	Tulane Avenue
Sister Stanislaus Memorial Building	2003	450	South Claiborne Avenue

VA has determined that the following properties with the APE contributed to a listed or eligible National Register Historic District.

VA has identified the following properties within the APE that may be eligible for individual listing in the NRHP. VA will consult with your office on the eligibility of these properties when our evaluations are complete.

Building Name	Address	Street
Dixie Brewery	2401	Tulane Avenue
Falstaff Brewery	2600	Gravier Street
Orleans House	1800	Canal Street
Pump Station No. 15	2431	Palmyra
McDonogh No. 11	2001	Palmyra Street
Deutsches Haus	200	South Galvez Street
St. Joseph's Church	1802	Tulane Avenue
St. John's Evangelical Lutheran / Grace United Church	2001	Iberville Street
McDonogh No. 30	2228	Gravier Street

VA requests the SHPO's concurrence on its determinations regarding the APE for each Alternative; the steps VA has taken to identify and evaluate standing structures within each APE; and VA's application of the National Register criteria and determinations of National Register eligibility for standing structures within each APE.

Please contact me at (202) 565-6740 or Kathleen.Schamel2@va.gov if you have any questions or need additional information.

Sincerely,

Kathleen Schamel
Federal Preservation Officer
U.S. Department of Veterans Affairs

RE: Repair or Replacement of Healthcare Facilities Comprising the Medical Center of Louisiana at New Orleans (MCLNO) that were Damaged by Hurricanes Katrina and Rita, New Orleans, LA
Applicant: Louisiana Division of Administration, Office of Facility Planning and Control

Dear Ms. Breaux:

As a result of damages from Hurricanes Katrina (DR-1603-LA) and Rita (DR-1607-LA), the Federal Emergency Management Agency (FEMA) received a request from the State of Louisiana, Division of Administration, Facility Planning and Control (FP&C) to provide assistance to the Medical Center of Louisiana at New Orleans (MCLNO) located at 1532 Tulane Avenue, New Orleans, LA. FEMA recently notified you that it was initiating consultation pursuant to Section 106 of the National Historic Preservation Act for this Undertaking.

FEMA has identified four Alternatives, including the No Action Alternative. FEMA has determined that the No Action Alternative is not an Undertaking subject to Section 106 review. FEMA will analyze the three remaining Alternatives as part of the Section 106 review for its proposed Undertaking and has identified an Area of Potential Effect (APE) representing the area(s) in which standing structures may be affected for each of these three Alternatives. FEMA has also determined the National Register eligibility of standing structures located within each APE. FEMA will consult with the State Historic Preservation Officer (SHPO) regarding the delineation of APEs for areas in which archeological properties may be affected as well as identification and evaluation of archaeological properties in a subsequent step of the Section 106 review.

This letter requests SHPO's concurrence on FEMA's determination of the Standing Structures APE for each of the three Alternatives and FEMA's determinations regarding the National Register eligibility of standing structures located within each APE pursuant to "Programmatic Agreement Among the FEMA, the SHPO, the Louisiana Office of Homeland Security and

Emergency Preparedness, and the Advisory Council on Historic Preservation” executed in December 2004 (2004 Statewide PA). These APEs are subject to change as more information about the project is developed and we will consult with your office at that time.

1st Alternative: Repair MCLNO in Place:

The APE for this alternative is the existing footprint of the MCLNO campus, as illustrated in Figure 1. This APE is based upon the assumptions that repair work will not require pile driving and that no new construction will take place.

The APE lies within the New Orleans Medical Historic District, a district determined to be eligible by FEMA in consultation with SHPO.

Eligible National Register Historic Districts		
Name	Determination of Eligibility	Boundaries
New Orleans Medical Historic District	2006	Roughly bounded by I-10, Tulane Avenue, South Liberty Street, and Tulane Avenue

The following individually eligible or listed properties are located within the APE:

Properties Individually Eligible or Listed in NRHP			
Building Name	Date on Register	Address	Street
Charity Hospital	Determination of Eligibility 2005	1532	Tulane Avenue
Sister Stanislaus Memorial Building	Listed 2003	450	South Claiborne Avenue

FEMA has determined that the following properties within the APE contribute to a listed or eligible National Register Historic District.

Street Number	Direction	Street Name	Determination	Historic District
450	South	Claiborne Avenue	Eligible	New Orleans Medical
300 even	South	Claiborne Avenue	Eligible	New Orleans Medical
422		Freret Street	Eligible	New Orleans Medical
1504-08		Gravier Street	Eligible	New Orleans Medical
405		LaSalle Street	Eligible	New Orleans Medical
439		LaSalle Street	Eligible	New Orleans Medical
445		LaSalle Street	Eligible	New Orleans Medical
1532		Tulane Avenue	Eligible	New Orleans Medical
1541		Tulane Avenue	Eligible	New Orleans Medical
1542		Tulane Avenue	Eligible	New Orleans Medical
1544		Tulane Avenue	Eligible	New Orleans Medical
1545		Tulane Avenue	Eligible	New Orleans Medical

FEMA has determined that the following properties within the APE do not contribute to the New Orleans Medical Historic District nor are they individually eligible for listing in the NRHP.

Street Number	Direction	Street Name	Determination	Historic District
433		Bolivar Street	Not Eligible	
533		Bolivar Street	Not Eligible	
1661		Gravier Street	Not Eligible	New Orleans Medical
1900		Gravier Street	Not Eligible	
2020		Gravier Street	Not Eligible	
2025		Gravier Street	Not Eligible	
500 odd	South	Johnson Street	Not Eligible	
1523		Perdido Street	Not Eligible	New Orleans Medical
1900		Perdido Street	Not Eligible	
1901		Perdido Street	Not Eligible	
2021		Perdido Street	Not Eligible	
2100		Perdido Street	Not Eligible	
136	South	Roman Street	Not Eligible	
400 odd	South	Roman Street	Not Eligible	

2nd Alternative: Replace Existing MCLNO Facilities on the Existing Site:

The APE for this alternative includes the existing MCLNO campus as well as those blocks bounded by the I-10 elevated interstate, Poydras Street, Loyola Avenue and Cleveland Avenue, as illustrated in Figure 2. This APE is based upon the assumptions that all of the buildings within the campus will be demolished and rebuilt and that new buildings will not exceed twenty (20) stories.

The APE contains the New Orleans Medical Historic District and portions of the Lower Central Business District, the Lower Central Business District Extension and the Mid-City Historic District.

Listed and Eligible National Register Historic Districts		
Name	Date	Boundaries
Lower Central Business District	Listed 1991	Roughly bounded by Canal Street, Tchoupitoulas Street, Poydras Street, O'Keefe Avenue, Common Street, S. Saratoga Street
Lower Central Business District Extension	2008	Roughly bounded by LaSalle, Gravier Street, Loyola Avenue, S. Rampart Street, Elk Place and Common Street; and Common Street between O'Keefe Avenue and Baronne Street

New Orleans Medical Historic District	Determination of Eligibility 2006	Roughly bounded by I-10, Tulane Avenue, South Liberty Street, and Tulane Avenue
Mid-City Historic District	1993	Roughly bounded by Derbigny Street, Conti Street, City Park Avenue, and I-10

The following individually eligible or listed properties are located within the APE:

Properties Individually Eligible or Listed in NRHP			
Building Name	Date	Address	Street
Charity Hospital	Determination of Eligibility 2005	1532	Tulane Avenue
Sister Stanislaus Memorial Building	2003	450	South Claiborne Avenue
State Office Building	Determination of Eligibility 2007	325	Loyola Avenue
State Office Building Annex	Determination of Eligibility 2006	301	Loyola Avenue
Civil Courts Building	Determination of Eligibility 2007	421	Loyola Avenue

FEMA has determined that the following properties within the APE contribute to a listed or eligible National Register Historic District.

Street Number	Direction	Street Name	Determination	Historic District
450	South	Claiborne Avenue	Eligible	New Orleans Medical
300 even	South	Claiborne Avenue	Eligible	New Orleans Medical
422		Freret Street	Eligible	New Orleans Medical
1600		Gravier Street	Eligible	New Orleans Medical
1504-08		Gravier Street	Eligible	New Orleans Medical
405		LaSalle Street	Eligible	New Orleans Medical
439		LaSalle Street	Eligible	New Orleans Medical
445		LaSalle Street	Eligible	New Orleans Medical
219		Loyola Avenue	Eligible	Lower CBD Extension
1601		Perdido Street	Eligible	New Orleans Medical
1601		Perdido Street	Eligible	New Orleans Medical
1430		Tulane Avenue	Eligible	New Orleans Medical
1532		Tulane Avenue	Eligible	New Orleans Medical
1541		Tulane Avenue	Eligible	New Orleans Medical
1542		Tulane Avenue	Eligible	New Orleans Medical
1544		Tulane Avenue	Eligible	New Orleans Medical
1545		Tulane Avenue	Eligible	New Orleans Medical
1802		Tulane Avenue	Eligible	Mid-City

FEMA has determined that the following properties within the APE do not contribute to a listed or eligible National Register Historic District nor are they individually eligible for listing in the NRHP.

Street Number	Direction	Street Name	Determination	Historic District
433		Bolivar Street	Not Eligible	
533		Bolivar Street	Not Eligible

3rd Alternative: Construct Replacement Facilities:

FEMA’s Applicant has identified the area bounded by South Claiborne Avenue, Tulane Avenue, South Galvez Street and Canal Street as a feasible site for the construction of replacement facilities. The APE for this alternative is bounded by the Broad Street overpass, St. Louis Street, North Robertson Street, Tulane Avenue and the I-10 elevated interstate as illustrated in Figure 3. This APE is based upon the assumption that new buildings will not exceed six (6) stories.

Listed and Eligible National Register Historic Districts		
Name	Date	Boundaries
Mid-City Historic District	1993	Roughly bounded by Derbigny Street, Conti Street, City Park Avenue, and I-10
New Orleans Medical Historic District	Determination of Eligibility 2006	Roughly bounded by I-10, Tulane Avenue, South Liberty Street, and Tulane Avenue

The following individually eligible or listed properties are located within the APE:

Properties Individually Eligible or Listed in NRHP			
Building Name	Date	Address	Street
Pan American Building	2007	2400	Canal Street
St. James AME Church	1982	222	North Roman Street
St. Louis Cemetery No. 2	1975	1600	St. Louis Street
Charity Hospital	Determination of Eligibility 2005	1532	Tulane Avenue
Sister Stanislaus Memorial Building	2003	450	South Claiborne Avenue

FEMA has determined that the following properties within the APE contribute to a listed or eligible National Register Historic District.

FEMA has identified the following properties within the APE that may be eligible for individual listing in the NRHP. FEMA will consult with your office on the eligibility of these properties when our evaluations are complete.

Building Name	Address	Street
Dixie Brewery	2401	Tulane Avenue
Falstaff Brewery	2600	Gravier Street
Orleans House	1800	Canal Street
Pump Station No. 15	2431	Palmyra
McDonogh No. 11	236	South Prieur Street
Deutsches Haus	200	South Galvez Street
St. Joseph's Church	1800	Tulane Avenue
Grace United Church	2001	Iberville Street
McDonogh No. 30	2228	Gravier Street

FEMA requests the SHPO's concurrence on its determinations regarding the APE for each Alternative; the steps FEMA has taken to identify and evaluate standing structures within each APE; and FEMA's application of the National Register criteria and determinations of National Register eligibility for standing structures within each APE pursuant to the 2004 Statewide PA.

Please contact Tish Rankin at (337) 281-5637 or Tish.Rankin@associates.dhs.gov if you have any questions or need additional information.

Sincerely,

Howard Bush
Environmental Liaison Officer
Federal Emergency Management Agency

cc: Don Klima, Advisory Council on Historic Preservation
Pam Perkins, Facility Planning and Control
Kathleen Schamel, US Department of Veterans Affairs

The FEMA/SHPO liaison concurs with FEMA's determination regarding the APE for each Alternative; the steps FEMA has taken to identify and evaluate standing structures within each APE; and FEMA's application of the National Register criteria and determinations of National Register eligibility for standing structures within each APE.

Jason A. Emery, FEMA/SHPO Liaison for Archaeology

Date

The SHPO reviewer for standing structures concurs with FEMA's determination regarding the APE for each Alternative; the steps FEMA has taken to identify and evaluate standing structures within each APE; and FEMA's application of the National Register criteria and determinations of National Register eligibility for standing structures within each APE.

RE: Repair or Replacement of Healthcare Facilities Comprising the Veterans Affairs Medical Center (VAMC) that were Damaged by Hurricanes Katrina and Rita, New Orleans, LA
Determination: Adverse Effects

Dear Mr. Klima: *DK*

The U.S. Department of Veterans Affairs (VA) and the Federal Emergency Management Agency (FEMA) notified the Advisory Council on Historic Preservation (ACHP) on July 2, 2008 that they have determined to fulfill their responsibilities under Section 106 of the National Historic Preservation Act (NHPA) for their individual Undertakings to repair or replace the healthcare facilities comprising the Veterans Affairs Medical Center (VAMC) located in New Orleans, Louisiana that were damaged by Hurricanes Katrina and Rita. The ACHP is participating in this consultation. The Undertaking is phased to facilitate the full consideration of all potential effects as project details are developed, in accordance to the requirements outlined in 36 CFR §800.5(a)(3), and the Section 106 Programmatic Agreement (PA) will include provisions for revisiting the issue of adverse effect after the current phase, Site Selection, is completed and future effects are better defined. This letter describes anticipated adverse effects that may be identified through phased application of the Criteria of Effect and Adverse Effect for each Alternative.

Definition of the Undertaking

VA intends to replace the healthcare facilities comprising the Veterans Affairs Medical Center (VAMC) located in New Orleans, LA (Undertaking). As a part of this Undertaking, VA intends to replace the existing campus in one of four geographic locations. The course of action is dependent on completion of Section 106 review for site selection.

Area of Potential Effect (APE)

Currently, four alternatives are under consideration for the VAMC portion of this undertaking: rebuild a new facility in the current VA Hospital location; rebuild a new facility at a site adjacent to Ochsner Hospital; rebuild a new facility in the RPC site bounded by South Rocheblave Street, South Galvez Street, Tulane Avenue, and Canal Street; and rebuild a new facility at the current Lindy Boggs Hospital location. The Lindy Boggs site has been added to consideration only recently; therefore, the letter regarding possible adverse effects to those historic properties within the Lindy Boggs Area of Potential Effect will follow at a future date. The Areas of Potential Effect (APEs) for the other alternatives have previously been sent to the ACHP. For clarification, maps outlining the APEs are attached.

Identification of Historic Properties

VA consulted with State Historic Preservation Office (SHPO) to identify historic districts and buildings within the APEs for each Alternative. VA's letter to SHPO, dated July 17, 2008, identifies both historic and non-historic districts and buildings within the APEs.

Consultation with the SHPO on the identification and evaluation of historic standing structures was completed by a side-by-side photo and data review by the Federal agencies. The SHPO and Federal agencies made determinations of eligibility based on information collected in the summer of 2006 and winter of 2007 by teams of architectural historians who met Secretary of the Interior standards. Teams collected a minimum of four digital photographs of each building; the photographs met National Park Service minimum standards for quality. Building data was collected on hand-held GPS computers, and information collected included type, style, integrity of materials, workmanship, location, setting, and design, and whether it retained the qualities of significance as defined by 36 CFR part 800. The photos, digital determinations of eligibility and information were linked by GIS. Properties that retained the elements of integrity and significance as contributing elements to the National Register Historic District were determined to be eligible in consultation with SHPO.

The consultation did not include buildings that may meet or exceed the threshold for individual listing in the National Register of Historic Places. Subsequent research has identified nine properties that possess the qualities of significance required for individual listing: Falstaff Brewery at 2600 Gravier Street; Dixie Brewery at 2401 Tulane Avenue; Deutsches Haus at 200 South Galvez Street; St. Joseph's Church at 1802 Tulane Avenue; McDonogh School No. 11 at 2001 Palmyra Street; Orleans House at 1800 Canal Street; McDonogh School No. 30 at 2228 Gravier Street; Pumping Station No. 15 at 2431 Palmyra Street; and St. John's Evangelical Lutheran / Grace United Methodist Church at 2001 Iberville Street. VA is currently consulting with SHPO regarding the eligibility of these properties.

Determinations of Effect

The current effects determination for each Alternative relates to anticipated effects, since the assessment of the full range of effects of future phases is not possible. Adverse effects determination will be revisited at future phases, including design, site preparation, and construction, in order to ensure that all direct and indirect effects will be identified and efforts to avoid or minimize any potential adverse effects will be considered.

1st Alternative: Replace Existing VAMC Facilities on the Existing Site

This alternative will require the demolition of VA Hospital, and the construction of a new facility/facilities in that geographic location. The result would be a direct adverse effect to VA Hospital, as well as to the New Orleans Medical District, of which VA Hospital is a landmark element. This effort would constitute a direct adverse effect as defined by 36 CFR §800.5(a)(2)(i). The construction of a replacement facility on this site may cause indirect adverse effects to other historic properties within the APE through the introduction of visual, atmospheric or audible elements that diminish their integrity (36 CFR §800.5(a)(2)(v)). If this Alternative is selected, VA will apply the Criteria of Adverse Effect at subsequent phases of the project including design, site preparation, and construction, to determine whether additional direct and indirect adverse effects are identified in order to ensure that options are avoid or minimize those adverse effects will be considered.

2nd Alternative: Construct Replacement Facilities at the Ochsner Site

This Alternative includes the construction of a new hospital facility/facilities in the site adjacent to Ochsner Medical Center (Main Campus) located at 1514 Jefferson Highway. No historic properties have been identified within the APE for this alternative; therefore, no direct or indirect effects have been identified.

A warehouse in this Alternative houses a National Register listed steam locomotive. If the Ochsner Site is chosen, the warehouse will no longer be a suitable location for its storage. To avoid direct effects to this property, VA will be sure to allow the owner of the locomotive ample time to find a new facility for the storage of the locomotive.

3rd Alternative: Construct Replacement Facilities at the RPC Site

This Alternative will require the demolition of properties that contribute to the significance of the Mid-City National Register Historic District (NRHD) and are located within the project area. All of the twelve blocks fall entirely inside the boundaries of the Mid-City NRHD. Consequently, both the Mid-City National Register District and the individual properties that contribute to that district may meet the definition of adverse effect set out in 36 CFR §800.5(a)(2)(i), for direct effects if future phases are unable to avoid or minimize effects. Although it may be possible to minimize or mitigate the adverse effect through the relocation of some contributing buildings or

Mr. Don L. Klima

Page 4

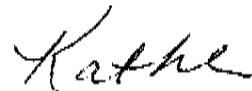

to the retention of certain historic buildings, these actions also have the potential to meet the adverse effect criteria because they would result in the removal of a property from its historic location (36 CFR §800.5(a)(2)(iv)). This Alternative will introduce visual, atmospheric and audible elements that may diminish the integrity of the Mid-City NRHD (36 CFR §800.5(a)(2)(v)). Should FEMA and its applicant, the Louisiana Division of Administration, Office of Facility Planning and Control, choose to construct a new medical center on the adjacent 15-block parcel below South Galvez Street, additional Adverse Effects to the Mid-City NRHD will occur. If this Alternative is selected, VA will apply the Criteria of Adverse Effect at subsequent phases of the project including design, site preparation, and construction, to determine whether additional direct and indirect adverse effects are identified in order to ensure that options are avoid or minimize those adverse effects will be considered.

In addition to those direct effects noted above, the selection of Alternative #3, to construct replacement facility/facilities in the RPC Site, could result in the existing VAMC hospital no longer operating as a hospital. Since one of the criteria under which it has been determined eligible is as a contributing element to the New Orleans Medical Historic District, such a change in the use of the building could constitute an adverse effect, as noted in by 36 CFR §800.5(a)(2)(iv), "change of the character of the property's use...that contribute to its historical significance."

VA looks forward to receiving the ACHP's comments on VA's determinations of effect for each Alternative outlined in this letter and any advice on any additional steps that VA should take to identify and evaluate historic standing structures and assess the potential effects of each alternative on these historic properties. We appreciate your interest in this Undertaking and the active role that you and other members of the ACHP staff have taken in the consultation meetings to date.

Please contact me at (202) 461-8254 or Kathleen.Schamel2@va.gov if you have any questions or need additional information.

Sincerely,

Kathleen Schamel
Federal Preservation Officer

RE: Repair or Replacement of Healthcare Facilities Comprising the Veterans Affairs Medical Center (VAMC) that were Damaged by Hurricanes Katrina and Rita, New Orleans, LA
Determination: No Direct Adverse Effects

Dear Mr. Klima:

The U.S. Department of Veterans Affairs (VA) notified the Advisory Council on Historic Preservation (ACHP) on July 2, 2008 that they have determined to fulfill their responsibilities under Section 106 of the National Historic Preservation Act (NHPA) for the Undertaking to repair or replace Healthcare Facilities in New Orleans, LA that were damaged by Hurricanes Katrina and Rita through the development and implementation of a Programmatic Agreement (Section 106 PA). The ACHP is participating in this consultation. The Undertaking is phased to facilitate the full consideration of all potential effects as project details are developed, in accordance to the requirements outlined in 36 CFR §800.5(a)(3), and the Section 106 PA will include provisions for revisiting the issue of adverse effect after the current phase, Site Selection, is completed and future effects are better defined. This letter describes anticipated adverse effects that may be identified through phased application of the Criteria of Effect and Adverse Effect for the Lindy Boggs Alternative.

Definition of the Undertaking

As a result of damages from Hurricanes Katrina and Rita, the Department of Veterans Affairs will replace the healthcare facilities comprising the Veterans Affairs Medical Center (VAMC) located in New Orleans, LA. The replacement of healthcare facilities is viewed as vital to the city and region's overall recovery and improvement because of the central role this hospital plays in the health and safety of all area residents.

Area of Potential Effect (APE)

Currently, the VA is considering three alternatives for the VAMC Undertaking: 1st Alternative: Construct Replacement Facilities at the Ochsner Site; 2nd Alternative: Construct Replacement Facilities at the RPC site; and 3rd Alternative: Construct Replacement Facilities at the Lindy Boggs site. The Area of Potential Effect (APEs) for the Lindy Boggs Alternative, previously sent to the ACHP, is attached to this letter.

Identification of Historic Properties

VA consulted with the SHPO to identify historic districts and buildings within the APE for the Lindy Boggs Alternative. VA's letter to SHPO identifies both historic and non-historic districts and buildings within the Lindy Boggs APE. As part of FEMA's Section 106 responsibilities for another undertaking, FEMA deployed teams of architectural historians who met Secretary of the Interior's Professional Qualifications Standards to survey and evaluate all buildings within the existing boundaries of the Mid-City Historic District in late 2007 and the Parkview National Register District in the summer and fall of 2006. FEMA, VA and SHPO reviewed photographs and information collected by those surveyors to determine whether the buildings retained enough integrity and significance to contribute to the Mid-City or Parkview Historic Districts.

This consultation did not include buildings or area that may meet or exceed the threshold for individual listing in the National Register of Historic Places. Subsequent research has identified one property that possesses the qualities of significance required for individual listing: Bayou St. John / Carondelet Canal. VA is currently consulting with SHPO regarding the eligibility of this property.

Determinations of Effect

The current effects determination for the Lindy Boggs Alternative relates anticipated effects, since assessment of the full range of effects of future phases is not possible. Adverse effects determination will be revisited at future phases, including design, site preparation, and construction, in order to ensure that all direct and indirect effects will be identified, and efforts to avoid or minimize any potential adverse effects will be considered.

Construct Replacement Facilities at the Lindy Boggs Alternative

This Alternative will *Not Adversely Affect* historic properties within the APE because buildings that are subject to direct adverse effects are not historic properties. It is unlikely that this Alternative will affect archaeological properties. If this Alternative is selected, VA will apply the Criteria of Adverse Effect at subsequent phases of the project including design, site preparation and construction, to determine whether additional direct

and indirect adverse effects are identified in order to ensure that options to avoid or minimize those adverse effects will be considered.

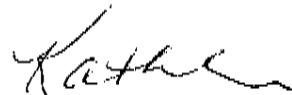

The construction of a replacement facility on this site may cause indirect adverse effects to historic properties within the APE though the introduction of visual, atmospheric or audible elements that diminish their integrity (36 CFR §800.5(a)(2)(v)). If this Alternative is selected, VA will apply the Criteria of Adverse Effect at subsequent phases of the project including design, site preparation, and construction, to determine whether additional direct and indirect adverse effects are identified in order to ensure that options are avoid or minimize those adverse effects will be considered.

In addition to those direct effects noted above, the selection of Alternative #3, to construct replacement facility/facilities in the RPC Site, could result in the existing VAMC hospital no longer operating as a hospital. Since one of the criteria under which it has been determined eligible is as a contributing element to the New Orleans Medical Historic District, such a change in the use of the building could constitute an adverse effect, as noted in by 36 CFR §800.5(a)(2)(iv), "change of the character of the property's use...that contribute to its historical significance."

VA looks forward to receiving the ACHP's comments on VA's determinations of effect for the Alternative outlined in this letter and any advice on any additional steps that VA should take at this phase to identify and evaluate historic standing structures and assess the potential effects of each alternative on these historic properties. We appreciate your interest in this Undertaking and the active role that you and other members of the ACHP staff have taken in the consultation meetings to date.

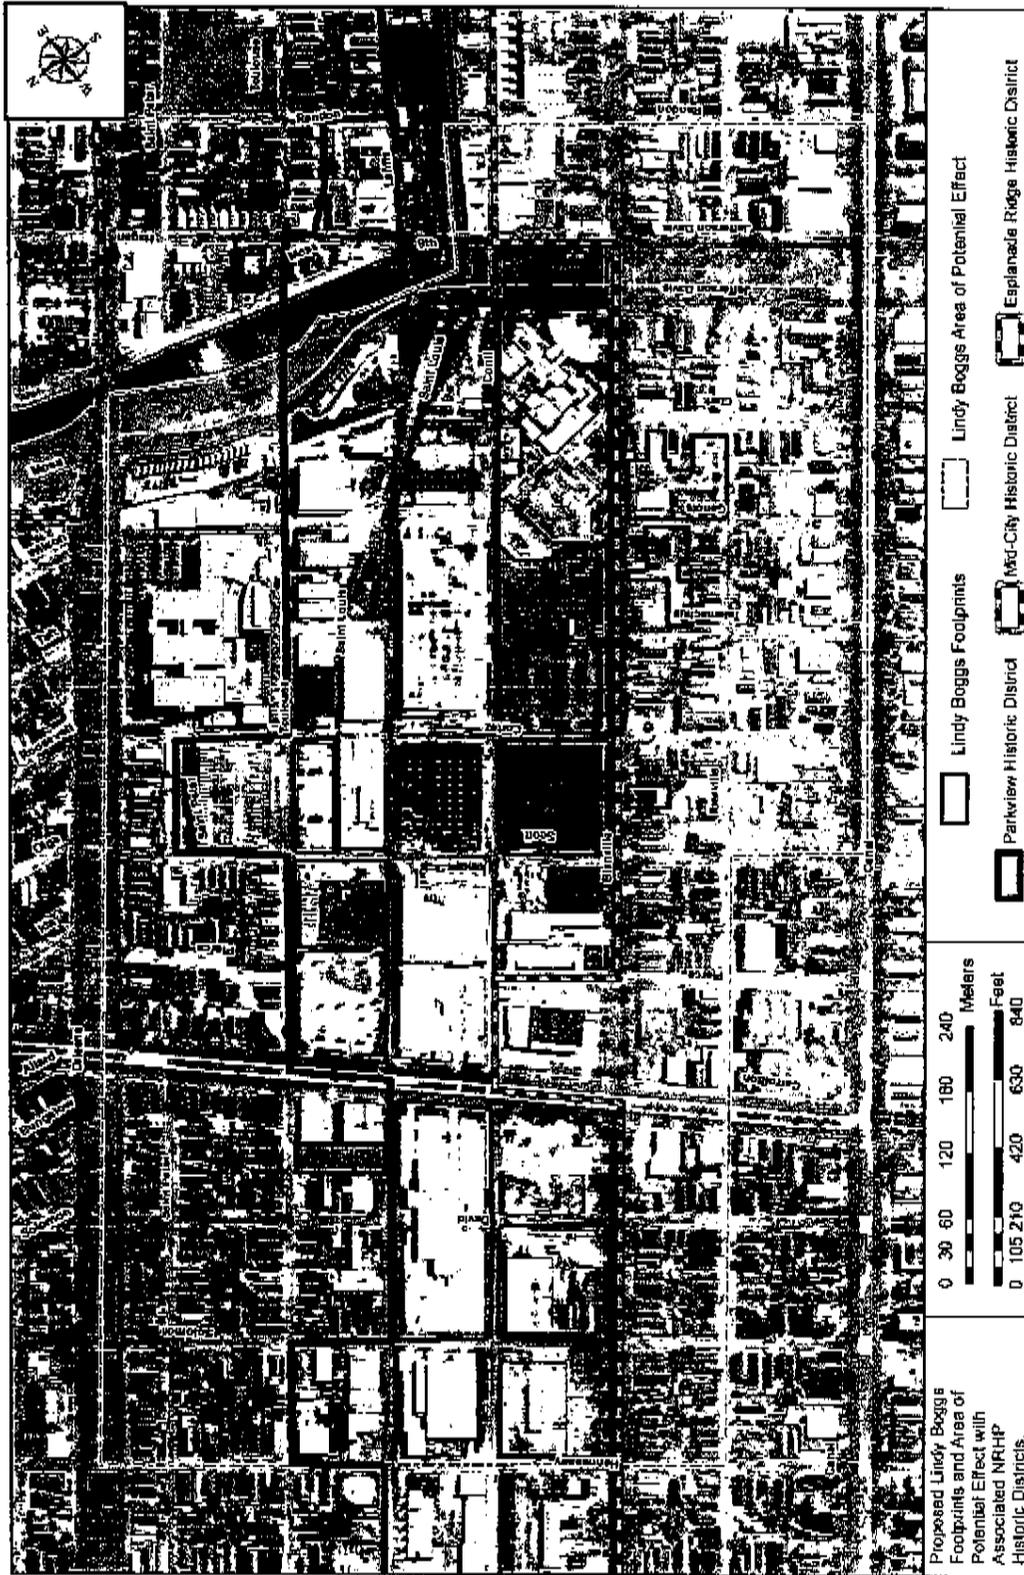

Please contact me at (202) 461-8254 or Kathleen.Schamel2@va.gov if you have any questions or need additional information.

Sincerely,

Kathleen Schamel

DRAFT
PROGRAMMATIC AGREEMENT

APPENDIX 3:
RECORDATION PROTOCOL

At a minimum, the photographs will document all elevations and character-defining architectural features. Digital photography will comply with the following requirements:

- a. Image files must be saved as Tagged Image or RAW format files using high quality compression settings. These files must be transferred as first generation Tagged Image or RAW format files that have not been degraded in quality by multiple revisions and re-saving. The images must be formatted on archival quality CD-R media.
- b. Digital camera files must be captured as 6 megapixel files or greater with a minimum pixel array of 3,000 pixels by 2,000 pixels.
- c. Color images must be produced in RGB (Red Green Blue) color mode as 24-bit or 48-bit color files.
- d. Photographic prints must comply with the National Park Service (NPS) March 2005 photo policy regarding photographic printing.
- e. The photographs must meet the NPS 75-year permanence standard.
- f. Paper prints will be produced in accordance with the NPS guidelines for "Acceptable Ink and Paper Combinations for Digital Images."
- g. The backs of each print must be labeled in soft pencil with the following information:
 - i. Building Name,
 - ii. Address,
 - iii. Date of Photograph,
 - iv. Description of view including direction of camera,
 - v. Number of image in photographic set,
 - vi. Name of photographer, and
 - vii. Repository of CD-R media.
- h. VA, FEMA, the City, and/or FP&C will prepare narrative histories commensurate with the significance of the historic property for each documented building and structure. This narrative will address both the site-specific history and the significant associations of the building to its neighborhood and/or historic district.
- i. Materials deemed by SHPO to be substantively or technically inadequate will be returned to the VA, FEMA, the City, and/or FP&C for revision and resubmission. If the SHPO does not comment within a 14-day review period, VA, FEMA, the City, and/or FP&C may assume that SHPO accepts

the recordation materials. VA, FEMA, the City, and/or FP&C will incorporate the comments provided by SHPO to the extent feasible.

- j. VA, FEMA, the City, and/or FP&C will prepare three sets of each recordation package. Two sets will be transmitted to the SHPO for archiving in the State Library and State Archives. One set will be archived at a publically accessible archive within the City of New Orleans.

PROGRAMMATIC AGREEMENT

APPENDIX 4:
ARCHITECTURAL SALVAGE

- I. Architectural Salvage: This Attachment applies to the VA's RPC Site Alternative and FEMA's New LSU Site Alternative. For the VA's Alternative, the VA is the applicable agency in the stipulations of this attachment. For FEMA's Alternative, FP&C is the applicable agency in the stipulations of this attachment. In FEMA's Alternative, FP&C will submit the salvage plan to FEMA for 14-day review prior to submission to the SHPO for review.
- II. Prior to the demolition or substantial alteration of buildings and structures contributing to the Mid-City Historic District, the applicable agency will develop and implement an architectural salvage plan for the removal and reuse of significant architectural elements.
 - A. This Architectural Salvage Plan will detail:
 1. This plan will provide for the removal of all of the following historic architectural details from each historic property: doors; wood front façade windows (including dormer windows); brackets; mantels; foundation vents; turned and/or solid wood columns; louvered wood shutters, including appropriate hardware; and decorative "gingerbread" trim, including quoins;
 2. All elements will be free of active termite infestation.
 3. This plan will include security of architectural details prior to the implementation of the salvage plan. See provisions for Site Security outlined in Stipulation V.B.2.(a) and Stipulation VI.C.2.(a) of the PA;
 4. This plan will delineate removal, inspection, and storage provisions;
 5. This plan will include identification of non-profit recipients of salvaged architectural elements, terms of receipt, insurance requirements, timeframe to receive elements, and reuse provisions.
 - B. The applicable agency will forward two (2) copies of the Architectural Salvage Plan to SHPO and one copy of the plan to each of the Concurring Parties for comment. If the SHPO or Concurring Parties do not comment within a 14-day review period, the applicable agency may assume that SHPO and the Concurring Parties concur with the plan. The applicable agency will finalize the Architectural Salvage Plan after considering the SHPO's review and Concurring Party comments and will implement the plan.
 - C. The applicable agency will post the final Architectural Salvage Plan to the Website.
