## FY 2013 Port Security Grant Program (PSGP)

---

### Overview

As appropriated by the *Department of Homeland Security Appropriations Act, 2013* (Public Law 113-6); the Port Security Grant Program (PSGP) is one of the Department of Homeland Security's (DHS) Fiscal Year (FY) 2013 grant programs that directly support maritime transportation infrastructure security activities. PSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration to strengthen the

Nation's critical infrastructure against risks associated with potential terrorist attacks. The FY 2013 PSGP provides funds for transportation infrastructure security activities to implement Area Maritime Security Plans and facility security plans among port authorities, facility operators, and state and local government agencies required to provide port security services.

The FY 2013 PSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 PSGP's allowable costs support efforts to build and sustain core capabilities across the prevention, protection, mitigation, response, and recovery mission areas.

*In FY 2013, DHS will award \$93,207,313 to promote sustainable, risk-based efforts to protect critical port infrastructure from terrorism.*

---

### Funding

In FY 2013, the total amount of funds distributed under this grant program is \$93,207,313. FY 2013 PSGP focused on supporting increased port-wide risk management; enhanced domain awareness; training and exercises; expansion of port recovery and resiliency capabilities; and further capabilities to prevent, detect, respond to, and recover from attacks involving improvised explosive devices (IEDs) and other non-conventional weapons.

---

### Eligibility

Eight port areas were selected as Group I (highest risk) and ports not identified in Group I were eligible to apply as Group II or "All Other Port Areas" applicant. Port areas that were previously Group III and Group IV port areas were re-grouped as Group II. There was no designated ferry allocation.

The following entities were specifically encouraged to apply:

- Owners or operators of federally-regulated terminals, facilities, U.S. inspected passenger vessels or ferries as defined in the Maritime Transportation Security Act (MTSA) and Title 33 of the Code of Federal Regulations (CFR) Parts 101, 104, 105, and 106.
- Members of an Area Maritime Security Committee, per 33 CFR Part 103, who are recognized as such by the U.S. Coast Guard's (USCG) Captain of the Port (COTP), and are required to provide port security services. Specifically, eligible applicants include port authorities, port police, local law enforcement agencies, port and local fire departments, and facility fire brigades that have jurisdictional authority to respond to incidents in the port.

Certain ferry systems were eligible to participate in the FY 2013 PSGP and receive funds. Ferry systems that elected to participate and receive funds under the FY 2013 PSGP may not participate in the FY 2013 Transit Security Grant Program (TSGP). Likewise, any ferry systems that elected to apply for funding under TSGP were not considered for funding under the PSGP.

---

## **Funding Guidelines**

The FY 2013 PSGP will focus on enhancing Maritime Domain Awareness (MDA); enhancing IED and Chemical, Biological, Radiological, Nuclear, Explosive (CBRNE) prevention, protection, mitigation, response, and recovery capabilities; port resilience and recovery capabilities; training and exercises; and Transportation Worker Identification Credential (TWIC) Implementation. A maximum of up to five percent (5%) of PSGP funds awarded was retainable by grantees for Management and Administration (M&A) associated with the grant award.

The period of performance for the PSGP is 24 months from the date of award.

---

## **Key FY 2013 PSGP Changes**

- Port groupings were consolidated from four eligible groups to two eligible groups. This change provides more open competition and allows the Department to fund the most effective projects. Group I consists of the top eight highest risk ports as determined by the DHS risk formula. Group II includes all other eligible port areas.

---

## **Application Process and Evaluation Criteria**

All port areas were assigned to groupings based on relative risk rankings. The highest risk ports were designated as Group I, lower risk ports were assigned to Group II. To ensure the highest risk ports receive the bulk of available funds, the majority of funding was allocated to those port areas in Group I. Port areas competed for the funds allocated to their respective groups.

The Federal Emergency Management Agency (FEMA) conducted an initial review of all FY 2013 PSGP applications for completion. Field-level reviews were conducted by the applicable COTP in coordination with the Director of the U.S. Department of Transportation's Maritime Administration's Gateway Office and appropriate personnel from the Area Maritime Security Committee (AMSC), as identified by the COTP. Field review project scores and prioritized lists

were submitted to FEMA for the national review process. The National Review Panel (NRP) convened with subject matter experts from DHS and other federal partners to identify a final, prioritized list of eligible projects for funding. The NRP conducted an initial review of the prioritized project listings for each port area submitted by the USCG's COTP to ensure that the proposed projects would accomplish intended risk mitigation goals. The NRP validated and normalized the Field Review COTP Project Priority List and provided a master list of prioritized projects by port area. A risk-based algorithm was applied to the NRP's validation and prioritized lists for each port area in all groups. The NRP then evaluated and validated the consolidated and ranked project list resulting from application of the algorithm and submitted their determinations to FEMA and then to the Secretary of Homeland Security for final approval.

---

## PSGP Program Resources

There are a variety of resources available to address programmatic, technical, and financial questions which can assist with the PSGP Program.

- The FY 2013 PSGP Program Funding Opportunity Announcement is located online at: <http://www.fema.gov/grants> as well as on <http://www.grants.gov>.
- For additional program-specific information, please contact the Centralized Scheduling and Information Desk (CSID) help line at (800) 368-6498 or [AskCSID@dhs.gov](mailto:AskCSID@dhs.gov). CSID hours of operation are from 9:00 a.m. to 5:30 p.m. EST, Monday through Friday.
- For financial-related questions, including pre-and post-award administration and technical assistance, applicants may contact the FEMA Grant Programs Directorate Call Center at (866) 927-5646 or via e-mail to [ASK-GMD@dhs.gov](mailto:ASK-GMD@dhs.gov).

**FY 2013 PSGP Funding Allocation Table**

State	Port Area	Entity	Allocation
CA	Los Angeles-Long Beach	City of Long Beach Fire Department	\$156,750
		City of Long Beach, Harbor Department	\$2,827,500
		City of Los Angeles Harbor Department	\$1,500,000
		LBCT LLC	\$654,000
