Name

Title

- **SYSTEM Description**

Name:	
Function:	
Location:	
Description of data, including sensitivity or classification level:	Data is comprised of

- **Point of Contact Information**

Contact Name	Phone Number	Email Address	Summary of System Responsibilities

The authority for this agreement is based on Executive Order 13407 of June 26, 2006, Public Alert and Warning System. The Public Alert and Warning System Executive Order states, "It is the policy of the United States to have an effective, reliable, integrated, flexible, and comprehensive system to alert and warn the American people...establish or adopt, as appropriate, common alerting and warning protocols, standards, terminology, and operating procedures for the public alert and warning system to enable interoperability and the secure delivery of coordinated messages to the American people". The IPAWS-OPEN system is available to US based organizations for interoperability or interconnectivity.
