HURRICANE IVAN SURGE INUNDATION MAP
Map Number: G20  Estimated Surge Elevation: 6-9 ft
Date of Event: September 16, 2004; Date of Map: December 2004

OVERVIEW MAP
(Geo Index Map for Additional Information)

LEGEND
State Boundary
County Boundary
Corporate Limits
FEMA Flood Zone Boundary
FEMA Floodway Boundary
FEMA Base Flood Elevation

SCALE = 1" = 500' (1:6,000)

Date Sources:
- Flood Debris Areas Co., FL (2005)
- City of Gulf Breeze, FL (2004)
- Santa Rosa Co., FL (2004)
- Baldwin Co., AL (2002)

Notes:
- Preliminary Surge Elevations do not include wave effects and therefore are not directly comparable to FEMA Base Flood Elevations. Storm surge heights, sea level heights, and accompanying "Notes to Users," are not updated. For more information on these advisory maps, please see www.fema.gov/ivanmaps.
