PROVISIONAL TOPOGRAPHIC ELEVATION CONTOUR MAP

Harrison County, MS
Date of Map: December 15, 2005
Map Number: MS-J15

Data Sources:
- Aerial Imagery: USDA National Agriculture Imagery Program, 2004
- Topographic Data: The USGS Coastal Services Center provided the Hancock County and Jackson County data from EarthData and the City of Jackson data from the City of Jackson. The State of Mississippi purchased the Hancock County data from EarthData International, and permitted these data to be used by FEMA in the Hurricane Katrina recovery mapping effort.

For Advisory Purposes Only:
Elevation contours presented on this map are preliminary and do not replace elevations determined by a certified surveyor or engineer.

Notes:
2. These data have not been verified and may contain errors. Elevation contours may not represent the true ground surface in some locations. This is due to artifacts of LiDAR data collection, such as trees and buildings, and/or erroneous point data. The final verified data will be available in late December 2005 or January 2006 from the NOAA Coastal Services Center.

For insurance rating purposes, refer to the currently effective Flood Insurance Rate Map (FIRM), available from your local government or the FEMA Map Service Center (1-800-358-9616: http://msc.fema.gov).
