HURRICANE RITA SURGE INUNDATION and
ADVISORY BASE FLOOD ELEVATION MAP
Vermilion Parish, Louisiana
Date of Event: September 24, 2005
Date of Map: March 16, 2006
Map Number: LA-CC61

Advisory Base Flood Elevation
(ABFEs) developed by FEMA. Please see http://www.fema.gov/hazards/floods/recoverydata/ pdf/vermilion_parish/f1-0-30-050m.pdf for more information on how they were determined.

Estimated Rita Surge Elevations
8-10 ft

Notes:
1. Elevations are based on the National Geodetic Vertical Datum of 1929 (NGVD29). To convert from NGVD29 to North American Vertical Datum of 1988 (NAVD88) add 0.25 feet.
2. Elevations are determined from surveyed data. Local wave effects (wave heights and wave runup) are not included in these elevations.
3. A Preliminary Flood Zone Map (AFRM) shows a property located in the mapped zone with flood boundaries outlined in yellow. These AFRMs reflect minimum flood data, and approved flood insurance rates. Flood Insurance Rate Maps (FIRM) for information on how they were determined.
4. For more information on these advisory maps, please see http://www.fema.gov/hazards/floods/recoverydata/ita_index_atten.

For insurance rating purposes, refer to the currently effective Flood Insurance Rate Map (FIRM) available from your local government or the FEMA Map Service Center (1-800-358-9616 or http://msc.fema.gov/).
