

FEMA-1845-DR-AR
DEBRIS ACTIVITY GROUND DISTURBANCE OR IMPACT OF STRUCTURES FORM

NOTE: ADEQ Water Division may need to provide approval (road construction storm water management & ground water impact from digging if project exceeds 1 acre)

When the creation or use of a processing and/or stockpiling site (as certified on page 15) will include any ground disturbance, including, but not limited to, the creation of temporary roads, burning, or burying residual, this form (page 17) must be completed in order to meet environmental and historic preservation requirements for reimbursement by the Federal Emergency Management Agency (FEMA).

Project clearance from the State Historic Preservation Officer (SHPO) of the Arkansas Historic Preservation Program, must be received prior to any ground disturbance. The following information must be provided to the SHPO for review:

1. A clearly written description of the entire scope of work, including any additional work not funded by FEMA, which will be performed at substantially the same time. Include any studies, plans, drawings, sketches, or schematics, as may be available, to help understand the entire project.
2. A 7.5 Quad USGS maps showing the location of the project.
3. Plans showing the limits of proposed excavations or other ground-disturbing activities associated with the project, and provide pictures of any structures that will be impacted.
4. Location maps, in addition to those provided above, showing the project within local and state context.
5. Any known cultural resource surveys or reports describing the archeological/historic properties (e.g., archeological sites, historic buildings, historic landmarks, etc.) that exists within the project area or could be affected by the project.
6. Photos of any buildings to be demolished.

Certification of Arkansas Historic Preservation Program

I hereby certify that the above-referenced debris site, whether used for emergency processing and/or stockpiling of flood debris, will not affect properties listed on or eligible for listing on the National Register of Historic Places, and is not expected to affect archeological sites.

Should human burials or potentially historic or archeologically significant materials be discovered, all activities on the site shall be halted immediately and the Applicant shall consult with the Arkansas Historic Preservation Program and FEMA for further guidance.
