

Commonwealth of Kentucky Severe Storms, Tornadoes, Flooding, Mudslides, and Landslides – FEMA-1757-DR

Declared May 19, 2008

On May 7, 2008, Governor Steven L. Beshear requested a major disaster declaration due to strong thunderstorms producing tornadoes, floods, flash floods, hail, mudslides, and landslides during the period of March 18 to April 11, 2008. The Governor requested a declaration for Public Assistance for 17 counties and Hazard Mitigation for the entire Commonwealth. During the period of April 21-30, 2008, joint Federal, State, and local Preliminary Damage Assessments (PDAs) were conducted in the requested counties and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local governments, and that Federal assistance is necessary.¹

On May 19, 2008, President Bush declared that a major disaster exists in the Commonwealth of Kentucky and designated the incident period as April 3-4, 2008. This declaration made Public Assistance requested by the Governor available to the Commonwealth and eligible local governments and certain private nonprofit organizations on a cost-sharing basis for emergency work and the repair or replacement of facilities damaged by severe storms, tornadoes, flooding, mudslides, and landslides in Anderson, Crittenden, Fleming, Fulton, Hancock, Hopkins, Lewis, Livingston, McLean, Nicholas, Ohio, Spencer, and Woodford Counties. This declaration also made Hazard Mitigation Grant Program assistance requested by the Governor available for hazard mitigation measures to the entire Commonwealth of Kentucky.²

Summary of Damage Assessment Information Used in Determining Whether to Declare a Major Disaster

Individual Assistance - (*Not requested*)

- Total Number of Residences Impacted:³ -
 - Destroyed - -
 - Major Damage - -
 - Minor Damage - -
 - Affected - -
- Percentage of insured residences:⁴ -
- Percentage of low income households:⁵ -
- Percentage of elderly households:⁶ -
- Total Individual Assistance cost estimate: -

Public Assistance

- Primary Impact: Damage to roads and bridges
- Total Public Assistance cost estimate: \$5,080,503
- Statewide per capita impact:⁷ \$1.26
- Statewide per capita impact indicator:⁸ \$3.11
- Countywide per capita impact: Anderson County (\$3.97)

Crittenden County (\$93.32)
 Fleming County (\$4.99)
 Fulton County (\$7.98)
 Hancock County (\$13.86)
 Henderson County (\$0.00)
 Hopkins County (\$41.64)
 Lewis County (\$28.49)
 Livingston County (\$22.34)
 Lyon County (\$0.00)
 McLean County (\$10.53)
 Nicholas County (\$22.08)
 Ohio County (\$11.75)
 Spencer County (\$58.91)
 Union County (\$0.38)
 Webster County (\$2.04)
 Woodford County (\$3.11)
 \$3.11

- Countywide per capita impact indicator:⁹

¹ The preliminary damage assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor's request for a major disaster or emergency declaration, and by the President in determining a response to the Governor's request (44 CFR § 206.33).

² When a Governor's request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA's regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

³ Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

⁴ By law, Federal disaster assistance cannot duplicate insurance coverage (44 CFR § 206.48(b)(5)).

⁵ Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance (44 CFR § 206.48(b)(3)).

⁶ Ibid (44 CFR § 206.48(b)(3)).

⁷ Based on State population in the 2000 Census.

⁸ Statewide Per Capita Impact Indicator for FY08, *Federal Register*, October 1, 2007.

⁹ Countywide Per Capita Impact Indicator for FY08, *Federal Register*, October 1, 2007.
