

# Mississippi – Severe Storms, Tornadoes, Straight-line Winds, and Associated Flooding

## FEMA-1972-DR

*Declared April 29, 2011*

On April 28, 2011, Governor Haley Barbour requested an expedited major disaster declaration due to severe storms, tornadoes, straight-line winds, and associated flooding during the period of April 15-28, 2011. The Governor requested a declaration for Individual Assistance for seven counties, and Public Assistance (Categories A and B), including direct Federal assistance, and Hazard Mitigation statewide. The Governor further requested 100 percent Federal funding for debris removal and emergency protective measures (Category A and B), including direct Federal assistance, under the Public Assistance program for the first 72 hours. This event was of the severity and magnitude that the need for supplemental Federal assistance was determined to be necessary prior to the completion of joint Federal, State, and local Preliminary Damage Assessments (PDAs). Per 44 C.F.R. § 206.33(d) and § 206.36(d), the requirement for a joint PDA may be waived for those incidents of such unusual severity and magnitude that formal field damage assessments are not required to establish the need for supplemental Federal assistance under the Stafford Act.<sup>1</sup>

On April 29, 2011, President Obama declared that a major disaster exists in the State of Mississippi. This declaration made Individual Assistance requested by the Governor available to affected individuals and households in Clarke, Greene, Hinds, Jasper, Kemper, Lafayette, and Monroe Counties. This declaration also made Public Assistance requested by the Governor available to State and eligible local governments and certain private nonprofit organizations on a cost-sharing basis in Clarke, Greene, Hinds, Jasper, Kemper, Lafayette, and Monroe Counties for debris removal and emergency protective measures, including direct Federal assistance. Direct Federal assistance was also authorized. Finally, this declaration made Hazard Mitigation Grant Program assistance requested by the Governor available for hazard mitigation measures statewide.<sup>2</sup>

### **Summary of Damage Assessment Information Used in Determining Whether to Declare a Major Disaster**

#### **Individual Assistance –**

- Total Number of Residences Impacted:<sup>3</sup> N/A
  - Destroyed - -
  - Major Damage - -
  - Minor Damage - -
  - Affected - -
- Percentage of insured residences:<sup>4</sup> -
- Percentage of low income households:<sup>5</sup> -

- Percentage of elderly households:<sup>6</sup> -
- Total Individual Assistance cost estimate: N/A

**Public Assistance –**

- Primary Impact: N/A
- Total Public Assistance cost estimate: -
- Statewide per capita impact:<sup>7</sup> -
- Statewide per capita impact indicator:<sup>8</sup> \$1.30
- Countywide per capita impact: -
- Countywide per capita impact indicator:<sup>9</sup> \$3.27

---

<sup>1</sup> The preliminary damage assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor’s request for a major disaster or emergency declaration, and by the President in determining a response to the Governor’s request (44 CFR § 206.33).

<sup>2</sup> When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

<sup>3</sup> Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

<sup>4</sup> By law, Federal disaster assistance cannot duplicate insurance coverage (44 CFR § 206.48(b)(5)).

<sup>5</sup> Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance (44 CFR § 206.48(b)(3)).

<sup>6</sup> Ibid (44 CFR § 206.48(b)(3)).

<sup>7</sup> Based on State population in the 2000 Census.

<sup>8</sup> Statewide Per Capita Impact Indicator for FY11, *Federal Register*, October 1, 2010.

<sup>9</sup> Countywide Per Capita Impact Indicator for FY11, *Federal Register*, October 1, 2010.
