

# **Vermont – Severe Storms and Flooding FEMA-4001-DR**

## ***Declared July 8, 2011***

On May 27, 2011, Governor Peter Shumlin requested a major disaster declaration due to severe storms and flooding beginning on April 23, 2011, and continuing. The Governor requested a declaration for Individual Assistance for nine counties, Public Assistance for 10 counties, and Hazard Mitigation statewide. The Governor further requested direct Federal assistance. On June 3, 2011, Governor Shumlin amended his request to include Washington County for Individual Assistance and Caledonia County for Public Assistance. On June 2, 2011, and June 23, 2011, joint Federal, State, and local Preliminary Damage Assessments (PDAs) were conducted in the requested counties and are summarized below. PDAs estimate damages immediately after an event and are considered, along with several other factors, in determining whether a disaster is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local governments, and that Federal assistance is necessary.<sup>1</sup>

On June 15, 2011, President Obama declared major disaster FEMA-1995-DR as a result of severe storms and flooding during the period of April 23 to May 9, 2011. Then on July 8, 2011, President Obama declared that a major disaster exists in the State of Vermont as a result of severe storms and flooding during the period of May 26-27, 2011. This declaration made Individual Assistance requested by the Governor available to affected individuals and households in Caledonia and Washington Counties. This declaration also made Public Assistance requested by the Governor available to State and eligible local governments and certain private nonprofit organizations on a cost-sharing basis in Caledonia County. Finally, this declaration made Hazard Mitigation Grant Program assistance requested by the Governor available for hazard mitigation measures statewide.<sup>2</sup>

## **Summary of Damage Assessment Information Used in Determining Whether to Declare a Major Disaster**

### **Individual Assistance**

- Total Number of Residences Impacted:<sup>3</sup> 250
  - Destroyed - 25
  - Major Damage - 73
  - Minor Damage - 123
  - Affected - 29
  
- Percentage of insured residences:<sup>4</sup> 5%
- Percentage of low income households:<sup>5</sup> 47%
- Percentage of elderly households:<sup>6</sup> -
- Total Individual Assistance cost estimate: \$2,645,322

### **Public Assistance**

- Primary Impact: Damage to roads and bridges
- Total Public Assistance cost estimate: \$793,753
- Statewide per capita impact:<sup>7</sup> \$1.30
- Statewide per capita impact indicator:<sup>8</sup> \$1.30
- Countywide per capita impact: Caledonia County (\$26.72)
- Countywide per capita impact indicator:<sup>9</sup> \$3.27

---

<sup>1</sup> The preliminary damage assessment (PDA) process is a mechanism used to determine the impact and magnitude of damage and resulting needs of individuals, businesses, public sector, and community as a whole. Information collected is used by the State as a basis for the Governor’s request for a major disaster or emergency declaration, and by the President in determining a response to the Governor’s request (44 CFR § 206.33).

<sup>2</sup> When a Governor’s request for major disaster assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (Stafford Act) is under review, a number of primary factors are considered to determine whether assistance is warranted. These factors are outlined in FEMA’s regulations (44 CFR § 206.48). The President has ultimate discretion and decision making authority to declare major disasters and emergencies under the Stafford Act (42 U.S.C. § 5170 and § 5191).

<sup>3</sup> Degree of damage to impacted residences:

- Destroyed – total loss of structure, structure is not economically feasible to repair, or complete failure to major structural components (e.g., collapse of basement walls/foundation, walls or roof);
- Major Damage – substantial failure to structural elements of residence (e.g., walls, floors, foundation), or damage that will take more than 30 days to repair;
- Minor Damage – home is damaged and uninhabitable, but may be made habitable in short period of time with repairs; and
- Affected – some damage to the structure and contents, but still habitable.

<sup>4</sup> By law, Federal disaster assistance cannot duplicate insurance coverage (44 CFR § 206.48(b)(5)).

<sup>5</sup> Special populations, such as low-income, the elderly, or the unemployed may indicate a greater need for assistance (44 CFR § 206.48(b)(3)).

<sup>6</sup> Ibid (44 CFR § 206.48(b)(3)).

<sup>7</sup> Based on State population in the 2000 Census.

<sup>8</sup> Statewide Per Capita Impact Indicator for FY11, *Federal Register*, October 1, 2010.

<sup>9</sup> Countywide Per Capita Impact Indicator for FY11, *Federal Register*, October 1, 2010.
