L. Other Relevant Laws and Environmental Regulations
State Hazardous Materials and Solid Waste Laws Comments: Removal and disposal of debris containing household hazardous waste and certain categories of liquid wastes
must be performed in accordance with all applicable federal and state laws, regulations, executive orders and guidelines.
LAC title 33 part VII requires that specified items, including lead acid batteries, used oil filters, used motor oil, scrap tires, cfc's (refrigerants), radioactive waste or regulated infectious wastes must be segregated from and excluded from non-hazardous debris collection, staging, processing and disposal sites. Failure to comply with applicable legal requirements in debris collection and/or disposal operations will jeopardize federal funding. The clean-up or restoration/repair of sites damaged as a result of such operations are ineligible for federal funding. Previously obligated funding is subject to deobligation if a determination of ineligibility is made.
-In accordance with the Formosan Termite Initiative Act, (LA R.S. 3:3391.1 thru 3391.13) the Louisiana parishes of
Calcasieu, Cameron, Jefferson Davis, Orleans, Jefferson, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany, Tangipahoa and Washington are under quarantine. The movement of wood or cellulose material, temporary housing or architectural components (e.g. beams, doors and other wood salvaged from a structure) may not leave the quarantined parishes without written authorization from the commissioner of the Louisiana Department of Agriculture and Forestry or his designee(s).
-Lead-Based Paint - this project involves the demolition of a public structure that may contain surfaces coated with Lead-
Based Paint (LBP). Activities involving abrading (sanding, scraping, etc.), heating, stripping, or otherwise concentrating LBP shall comply with applicable provisions of 29 CFR parts 1910 and 1926 (OSHA - worker safety), and 40 CFR 260 through 268 (EPA - hazardous waste). The applicant is responsible for ensuring that project activities are coordinated with the Louisiana Department of Environmental Quality for abatement activities and is also responsible for ensuring proper disposal in accordance with the previously referenced regulations.

Reviewer Name: Adam Borden, Env. Specialist

Comments: Removal and disposal of debris containing household hazardous waste and certain categories of liquid wastes must be performed in accordance with all applicable federal and state laws, regulations, executive orders and guidelines. LAC title 33 part VII requires that specified items, including lead acid batteries, used oil filters, used motor oil, scrap tires, cfc's (refrigerants), radioactive waste or regulated infectious wastes must be segregated from and excluded from nonhazardous debris collection, staging, processing and disposal sites. Failure to comply with applicable legal requirements in

Parish: Orelans

debris collection and/or disposal operations will jeopardize federal funding. The clean-up or restoration/repair of sites damaged as a result of such operations are ineligible for federal funding. Previously obligated funding is subject to de-obligation if a determination of ineligibility is made.

-In accordance with the Formosan Termite Initiative Act, (LA R.S. 3:3391.1 thru 3391.13) the Louisiana parishes of Calcasieu, Cameron, Jefferson Davis, Orleans, Jefferson, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany, Tangipahoa and Washington are under quarantine. The movement of wood or cellulose material, temporary housing or architectural components (e.g. beams, doors and other wood salvaged from a structure) may not leave the quarantined parishes without written authorization from the commissioner of the Louisiana Department of Agriculture and Forestry or his designee(s).

- Lead-Based Paint - this project involves the demolition of a public structure that may contain surfaces coated with Lead-Based Paint (LBP). Activities involving abrading (sanding, scraping, etc.), heating, stripping, or otherwise concentrating LBP shall comply with applicable provisions of 29 CFR parts 1910 and 1926 (OSHA - worker safety), and 40 CFR 260 through 268 (EPA - hazardous waste). The applicant is responsible for ensuring that project activities are coordinated with the Louisiana Department of Environmental Quality for abatement activities and is also responsible for ensuring proper disposal in accordance with the previously referenced regulations.

IV. Extraordinary Circumstances

Based on the review of compliance with other environmental laws and Executive Orders, and in consideration of other environmental factors, review the project for extraordinary circumstances.

* A "Yes" under any circumstance may require an Environmental Assessment (EA) with the exception of (ii) which should be applied in conjunction with controversy on an environmental issue. If the circumstance can be mitigated, please explain in comments. If no, leave blank.

103		
· 🔲	(i) Greater scope or size than normally experienced for a particular category of action	
	(ii) Actions with a high level of public controversy	
	(iii) Potential for degradation, even though slight, of already existing poor environmental	
	conditions;	
	(iv) Employment of unproven technology with potential adverse effects or actions involving	
	unique or unknown environmental risks;	
	(v) Presence of endangered or threatened species or their critical habitat, or archaeological,	
	cultural, historical or other protected resources;	
	(vi) Presence of hazardous or toxic substances at levels which exceed Federal, state or local	
	regulations or standards requiring action or attention;	
	(vii) Actions with the potential to affect special status areas adversely or other critical resources	
	such as wetlands, coastal zones, wildlife refuge and wilderness areas, wild and scenic rivers,	
	sole or principal drinking water aquifers;	
	(viii) Potential for adverse effects on health or safety; and	
	(ix) Potential to violate a federal, state, local or tribal law or requirement imposed for the	
	protection of the environment.	
	(x) Potential for significant cumulative impact when the proposed action is combined with	
	other past, present and reasonably foreseeable future actions, even though the impacts of the	
	proposed action may not be significant by themselves.

V. Environmental Review Project Conditions

Project Conditions:

Vac

Project Name/Env. Database No: Fisk Howard Elementary School - Building A PW#12534 Parish: Orelans

The following conditions apply as a condition of FEMA funding reimbursement:

- This project involves the demolition or renovation of a public structure. Regardless of the asbestos content, the applicant is responsible for ensuring that renovation or demolition activities are coordinated with the Louisiana Department of Environmental Quality (LDEQ) in accordance with the LDEQ "Fifth Amended Declaration of Emergency and Administrative Order" dated March 31, 2006, and the LESHAP protocol dated March 1, 2006, incorporating the provisions of EPA's National Emission Standards for Hazardous Air Pollutants (NESHAP) and the Louisiana Administrative Code (LAC) 33.III.5151 and Chapter 27. Should Asbestos Containing Materials (ACMs) be present at the project site, the applicant is also responsible for ensuring proper disposal in accordance with the previously referenced administrative orders.
- Removal and disposal of debris containing household hazardous waste and certain categories of liquid wastes must be performed in accordance with all applicable federal and state laws, regulations, executive orders and guidelines. LAC title 33 part VII requires that specified items, including lead acid batteries, used oil filters, used motor oil, scrap tires, cfc's (refrigerants), radioactive waste or regulated infectious wastes must be segregated from and excluded from non-hazardous debris collection, staging, processing and disposal sites. Failure to comply with applicable legal requirements in debris collection and/or disposal operations will jeopardize federal funding. The clean-up or restoration/repair of sites damaged as a result of such operations are ineligible for federal funding. Previously obligated funding is subject to de-obligation if a determination of ineligibility is made.
- In accordance with the Formosan Termite Initiative Act, (LA R.S. 3:3391.1 thru 3391.13) the Louisiana parishes of Calcasieu, Cameron, Jefferson Davis, Orleans, Jefferson, Plaquemines, St. Bernard, St. Charles, St. John the Baptist, St. Tammany, Tangipahoa and Washington are under quarantine. The movement of wood or cellulose material, temporary housing or architectural components (e.g. beams, doors and other wood salvaged from a structure) may not leave the quarantined parishes without written authorization from the commissioner of the Louisiana Department of Agriculture and Forestry or his designee(s).
- Lead-Based Paint this project involves the demolition of a public structure that may contain surfaces coated with Lead-Based Paint (LBP). Activities involving abrading (sanding, scraping, etc.), heating, stripping, or otherwise concentrating LBP shall comply with applicable provisions of 29 CFR parts 1910 and 1926 (OSHA - worker safety), and 40 CFR 260 through 268 (EPA - hazardous waste). The applicant is responsible for ensuring that project activities are coordinated with the Louisiana Department of Environmental Quality for abatement activities and is also responsible for ensuring proper disposal in accordance with the previously referenced regulations.
- Per 44 CFR 9.11 (d)(9), the replacement of building contents, materials and equipment should be, where possible, wet or dry-proofed, elevated, or relocated to or above the Advisory Base Flood Elevation (ABFE) per the ABFE maps. Per 44 CFR 9.12, applicant must publish a final public notice 15 days prior to the start of construction activities. Final public notice is to be forwarded to the LA GOHSEP and FEMA for inclusion in the permanent project files.
