REVISED FOR FEMA ENVIRONMENTAL -- LOUISIANA

See 44 Code of Federal Regulation Part 10

Project Name/Number: EOR21324 Livingston Middle School Bldg B- PW 13286V4

Applicant Name: Recovery School District

Project Location: 7301 Dwyer Road New Orleans, Louisiana 70126

Latitude: 30.02198 Longitude: -90.00289

Project Description: Hurricane Katrina caused catastrophic damage on August 29, 2005 to Livingston Middle School. Livingston Middle School was flooded with seven feet of water in addition to staining and debris. The flood waters soaked the interior drywall which wicked water above the flood level. The moist condition allowed mold to grow on porous surfaces, including the ceiling. The metal studs and connections to the sill and concrete slab are deteriorated and rusted to the flood level.

Livingston Middle School Building B is an 8,320 square foot building constructed in 1982 as a classroom annex. This is a concrete block building with a brick veneer; steel trusses bear on the exterior walls and support a shingle roof. The sub-floor is a concrete slab. Interior partitions are drywall on light gauge metal studs. The corridor walls extend twelve feet to the underside of the roof deck. Floor is vinyl tile with a 4" high vinyl base. Drywall ceilings have a spray-on-finish and are vaulted to match the roof pitch.

Per 50% rule, this facility will be replaced.

Comments: - Livingston Middle School was constructed prior to 1963. In accordance with stipulation vii.e(1)a of FEMA's secondary Programmatic Agreement regarding Orleans Parish School facilities dated August 17, 2009, the lead federal agency is not required by PA to request the SHPO's review of NRHP eligibility determinations or effect determinations for undertakings to alter or demolish school facilities or campuses constructed after 1963. The scope of work indicates ground disturbing activities associated with demolition, slab removal, and replacement of the facility. Upon consultation of data provided by the State Historic Preservation Officer (SHPO), there are no known archaeological sites within the project area and all work will occur within a previously disturbed area. Therefore, the scope of work as submitted meets the criteria

outlined in the Programmatic Agreement dated August 17, 2009, appendix c, section i, a. In accordance with this document, FEMA is not required to submit projects to the SHPO for review where the work performed meets these allowances.
