RE: Alternative Arrangements, Reconstruction of Critical Infrastructure in the New Orleans Metropolitan Area, Slidell Warehouse Wind and Flood Damage, St Tammany Parish School Board, PW#: 13818, DR-1603-LA, PA ID: 103-UH910-00

Dear Mr. Gonzales:

The purpose of this letter is to notify you that the Public Assistance project for Slidell Warehouse Wind and Flood Damage, 38086 Coast Boulevard, Slidell, LA, 30.2529N, 89.7674W, qualifies for the National Environmental Policy Act (NEPA) Alternative Arrangements for the Reconstruction of Critical Infrastructure in the New Orleans Metropolitan Area.

Under the regular Federal Emergency Management Agency (FEMA) NEPA review process; this project would have qualified for categorical exclusion in accordance with 44 CFR Part 10.8(d) (2)(xv). However, due to the unprecedented number of grants requested that need to be processed in a short time, the potential cumulative effects, and potential environmentally-related socio-economic effects of FEMA's funding in the New Orleans Metropolitan Area, FEMA has determined that this type of action may have significant impacts that cannot be reviewed under the normal Environmental Impact Statement (EIS) process. FEMA, the Department of Homeland Security (DHS), and the Council on Environmental Quality (CEQ) have adopted the Alternative Arrangements to address the basic elements of NEPA under these circumstances. For more information visit www.fema.gov/plan/ehp/noma/index.shtm.

While the use of Alternative Arrangements meets NEPA compliance requirements, there are requirements of other Environmental and Historic Preservation (EHP) laws and executive orders that must be individually complied with. For the work described in this Project Worksheet (PW) the following conditions relating to those requirements apply:

- Unusable equipment, debris and material shall be disposed of in an approved manner and location. In the event significant items (or evidence thereof) are discovered during implementation of the project applicant shall handle, manage, and dispose of petroleum products, hazardous materials and/or toxic waste in accordance to the requirements and to the satisfaction of the governing local, state and federal agencies.

Please note that this transmittal is a notification that this project has been cleared under NEPA only. **This is not a notice of final approval or eligibility.** Any change beyond the approved scope of work for this project will require additional environmental review by FEMA.

Sincerely,

W.M. FAGAN for:

Howard R. Bush
Environmental Liaison Officer
FEMA-1603/1607-DR-LA
